

The Gotzian Shoe

has been worn by three generations of men and women, and with every generation has deserved and enjoyed the reputation of being a good shoe, always honestly made from the best material. It is sold today by more leading merchants than any other shoe manufactured in the Northwest:

1. Because we are the only house in the Northwest which makes its different grades of shoes in separate factories, thus insuring the highest degree of workmanship in each.
2. Because every pair of shoes we make has back of it the guaranty of more than a million dollars capital and of more than half a century's record of honorable dealing.
3. Because we carry the largest shoe stock in the Northwest and can fill our orders most promptly.

Our factories now cover nearly seven acres of floor space, but what we are most proud of is the **quality** of our output. No house in the world excels us in this, and our persistent policy is that in **quality we shall be first.**

We make shoes for men, women and children at all prices, and every shoe we make is the best for the price.

RIGHTS FOR BOTH DESCHUTES ROADS

Ballinger Will Admit Harriman and Trunk Lines to Canyon.

WILL GIVE DECISION TODAY

Rival Roads Agree to Use Same Track Part of Distance—Government Leaves Them to Settle With Power Companies.

OREGONIAN NEWS BUREAU, Washington, D. C., April 20.—Secretary Ballinger did not have an opportunity today to complete his opinion in the Deschutes canyon railroad right-of-way case, but will do so tomorrow morning. Not only will he grant a right-of-way to the Harriman railroad, but to the Oregon Trunk Line as well, and part of the distance through the canyon both roads will be obliged to use the same track. This arrangement has been agreed to by representatives of both roads.

Mr. Ballinger will further hold that the Interior Department has no control whatever over private power companies located along the Deschutes River. Where they come in conflict with railroad rights-of-way, they will have recourse to the courts; the Government has nothing to do with them.

BIDS IN FOR ALASKAN INSANE

Portland Physician One of Two Aspirants for Care of Northerners.

OREGONIAN NEWS BUREAU, Washington, April 20.—Proposals for the care of the insane of Alaska for four years were opened at the Interior Department today. There were two bidders, the Sitka Hot Springs Sanitarium, of which Dr. Henry Waldo Coe is proprietor. The Sitka bid was \$25 per month per capita, while Dr. Coe's was \$27.50. Responsibility of the respective bidders in connection with the amount of the bid will be taken into consideration as required by law, before the award is made. The average number of patients is about 100.

PILES DROPS FIGHT ON HUGHES

Will Not Object to Appointment as Federal Judge.

OREGONIAN NEWS BUREAU, Washington, April 20.—Senator Piles has cooled off and is now willing to acquiesce in the appointment of E. C. Hughes, of Seattle, as Federal Judge for Western Washington. If the President decides to send in Mr. Hughes' name. Up to this time Mr. Piles has been in a mood to fight Mr. Hughes, if appointed. He said today,

however, that, if the nomination came in, he would interpose no objections.

COE WILL GET ALASKA INSANE

Though Bid Higher, Superior Facilities Will Decide Question.

OREGONIAN NEWS BUREAU, Washington, April 20.—The contract for the care of the Alaska insane for the coming four years will be awarded to Dr. Henry W. Coe of the Crystal Springs Sanitarium at Portland, notwithstanding his bid is slightly higher than that of the Sitka Hot Springs Sanitarium. Dr. Coe has all facilities for handling the Alaska insane and has had this contract for a number of years. The Sitka bidder is not equipped for caring for anything like the total number of insane from Alaska now under Dr. Coe's charge. In view of the satisfactory manner in which Dr. Coe has executed past contracts and his reasonable bid, he will get the new contract.

Proposals were opened at the Interior Department today. The Sitka bid was \$25 per month per capita, while Dr. Coe's was \$27.50. The average number of patients is about 100.

FREIGHT TARIFF ADJUSTED

Logging Company's Complaint Soon Settled at Aberdeen.

ABERDEEN, Wash., April 20.—(Special.)—Consideration of freight rates on logs between Oakville and the Harbor, asked by the Union Timber Company, is the only question taken up by the State Railway Commission upon the occasion of its visit to Aberdeen this morning.

The Commissioners reached the city at 11 o'clock from Houlquam, after spending the night at Meclips. They went to the Elks Club, where they were met by representatives of the Chamber of Commerce and informed that the citizens of Aberdeen had no complaints to make. Later the Commission and railway officials adjourned to the train, where the log rate hearing was held.

M. R. Sherwood, of the Union Timber Company, called the attention of the Commission and the railway officials accompanying the Commission, to an instance of discrimination as between the timber company and its competitors, and showed where his company was "getting the worst of it."

The Commission at once acknowledged the justice of Mr. Sherwood's contention and ordered the change made. According to the statements of the officials themselves, it is declared that no knowledge of the alleged discrimination had come to them, and they expressed themselves as only too willing to adjust matters.

The party left at noon for South Bend.

STORM OF PROTEST RISES

Vancouver Citizens Oppose Purchase of Site for City Hall.

VANCOUVER, Wash., April 20.—(Special.)—There is a storm of protest among the citizens today over the action of the City Council last night in voting to buy at \$8000 a block at Fifteenth and Esther streets as a site for a new City Hall.

Mayor J. P. Higgins declares he will not sign the warrant for the payment when it is presented to him. So strong is the citizens' opposition that it is understood that one Councilman who voted to buy has changed his mind and that the matter will be reconsidered at the next meeting.

PROTEST ON PAPER RATE

NEWSPAPER PUBLISHERS SEND RESOLUTIONS ON TARIFF.

Associated Press Members Ask Congress to Carefully Consider the Mann Report on Duties.

NEW YORK, April 20.—At the annual meeting of the Associated Press here today, the following directors were elected to succeed themselves:

Thomas G. Rapier, New Orleans Picayune; Victor F. Lawson, Chicago Daily News; Herman Ridder, New York Staats Zeitung; Harvey W. Scott, Portland Oregonian, and General Charles H. Taylor, Boston Globe.

Rufus N. Rhoades, of the Birmingham (Ala.) News, was elected to fill a vacancy caused by the resignation of George Thompson, of the St. Paul Dispatch.

The following resolution was adopted: Whereas, a committee of Congress, of which J. R. Mann, of Illinois, is chairman, has spent nearly a year painstakingly investigating the question of the news print supply, and has reported unanimously to Congress in favor of abolishing all tariff on ground wood and reducing the tax on news print paper from 48 to 32 per cent.

Whereas, the same report was unanimously accepted by the ways and means and duly passed as part of the new tariff bill now pending in the United States Senate, the members of the Associated Press at their annual meeting hereby

Resolved, That we respectfully request the members of the Senate of the United States to carefully read the report of the select committee with the view of convincing themselves of the justice of its recommendations to the end that a permanent supply of news print paper be secured to the

JUDGE BUYS BALL PARK

McCredie and Dugdale Make \$26,000 Investment in Seattle.

SEATTLE, Wash., April 20.—(Special.)—Judge McCredie and D. E. Dugdale today closed a contract for four and a half acres of ground in Rainier Valley, which within the next two years will be converted into a ball park. The consideration was \$25,000. Of this amount the buyers paid down \$5000 and have two years in which to pay the balance. Both ball magnates declare there is no intention to make a ball park of the premises at the present time, but the property may be utilized for that purpose later.

Dugdale has two years in which to run at Dugdale Park. Both Judge McCredie and Dugdale consider their investment a good one. An expert in real estate who visited the grounds today, gave it as his opinion that 18 lots worth \$1000 each can be cut from the acreage and still leave room for a ball park and a truck farm. The property is 12 minutes from the center of the city, and is reached by one carline at present, and another is building.

printing and publishing industry, which is the seventh greatest in the United States. We further ask the members of the Senate to consider that this is not a partisan move, but represents the unanimous view of both sides in the ways and means committee, and is the result of careful and deliberate judgment exercised only after a thorough inquiry. The newspapers believe they are entitled to have the conclusions of this committee respected and written in the law.

Resolved, That a copy of the above be transmitted immediately to every United States Senator.
