I never had any thought of committing suicide until I got to reading, and then it seemed to me life to reading, and then it seemed to me life was not worth living. Sullivan Heirs Make Effort to Prevent Foreclosure of Mortgage on Valuable Property.

SEATTLE, Wash., April 21 .- (Special.) —A declaration of war between parties interested in the John Sullivan estate came today with the suddenness of a pistol shot. It was upon the occasion of arguments on the petition for interven-tion of the Mercantile Investment Company in the mortgage foreclosure pro-ceedings of James A. Murray against

ceedings of James A. Murray against the Sullivan block on First avenue. Edward Corcoran, the Irish heir to the estate, with his solicitor, Charles P. O'Neil and wife, who had come from Dublin, Ireland, occupied seats in the courtroom. Other attorneys were there and all wanted to speak.

Then Mr. O'Neil, a member of the Irish bar, adoressed the court earnestly, asking that the Corcoran interests be not placed entirely in the hands of "the phillanthropic Mr. Howe."

"The Piles interests in this estate have offered us \$15,000 and a bunch of unmarketable bonds for the Corcoran half-interest," said Mr. O'Neil, "and we have refused it. What we require is that this honest mortgage debt placed on the property by John Sullivan himself be paid and our interest protected."

TRIES TO DIE HANDS CRACKED

Itched and Burned Terribly-Arms Affected, Too-Could Not Move Thumbs Without Flesh Cracking -Sleep and Work Often Impossible-Was Fairly Worn Out.

CUTICURA SOON CURED HIS FEARFUL ECZEMA

"About a year ago an itching humor began to appear around the back of my hand. It started in to spread, and pretty soon it covered both my hands and got up over my wrists and even up to the elbows. The itching and burning were terrible. My hands got all scaly and when I scratched, as I was doing a good part of the time, the surface would be covered with blisters and then get raw. The eczema got so bad in around the pit of my thumbs that I could not move the thumbs without deep cracks appearing. I went to my doctor, but his medicine could only stop the itching and did not seem to heal my hands up at all. At night I suffered so fearfully that I could not sleep, often lying awake until well toward morning, then waking up still tired. I am a chef and steward by trade and I had to give up my place, as my hands were so terrible to look at that they did not like to have me around about the food. I could not bear to touch them with water, but when I positively had to get my hands clean I would rub them with oil.

I did not know what to do, for I was fairly worn and tar ointments and such remedies with no particular benefit. I did not know what to do, for I was fairly worn out. For a long time several friends kept asking me why I didn't use Cuticura and at last I thought I would. First I got the Cuticura Soap, then Cuticura Ointment and at last Cuticura Resolvent. I put the Cuticura Ointment on at night, covering my hands with light cotton gloves. In the morning the inside of the gloves would be lined with scales, sometimes half as long as your finger, leaving nice healed places where the scales had been. In a month I was cured and have kept so now for nine months. My hands and arms are perfectly clear of all traces of eczema and I think I am well rid of it. Walter H. They are not satisfied with half of all. They are not satisfied with half of it. There was a time when they traveled many, many miles to see me, but now, though I have been 23 days here, none of them have called to see me."
