Don't Experiment

If you expect to hold your own in the keen competition of life,

you must get in full possession of your faculties. The foundation of

success in business and the most desirable of all physical attainments

is health. The capabilities and powers possessed by any man, or the

brightest spirit with its wonderful possibilities, must depend upon

health. Intellectuality, knowledge and ambition can do nothing with-

out it, and health is, therefore, of the most commanding interest

Stop and Think

Should the experience of physicians who have received the un-

qualified indorsement of the pulpit, the press and laymen not be

worth something in your own case? Under our care you are abso-

lutely assured of the most modern methods and the latest discoveries

known to medical science. The unsolicited testimonials from cured

patients and business men should be of some value to you, and our

might, in a given case, be able to benefit. But why go through a fence

of burrs after one blackberry and get more burrs than berries? Why

As medical science advances, the more apparent becomes the folly of employing harsh and dangerous measures in attempting to cure the ailments of men. Drastic dosing and useless cutting have done irreparable injury in thousands of cases. I cure all special diseases of men promptly and per-manently, and by painless methods that cannot possibly produce undesirable results.

My Treatment for **WEAKNESS**

Functional derangement is neither a "weak-

ress" nor a disease. It is a symptom of prostatic disorder. To stimulate activity by the use of powerful tonics is an easy matter, but such results are merely temporary drug effects. Most doctors treat "weakness" in this manner because they do not know how to cure the real cause of the derangement. I am the only physician employing scientific and successful methods. I use no tonics at all. My treatment is a local one entirely, and corrects every abnormal condition of that vital center, the prostate gland. My cures are real cures, and are permanent.

Twenty-five years of successful practice as a Specialist in Men's Diseases justifies every claim I make. I promise my patients a complete cure in every instance, and in cases where I cannot safely make this promise, I positively refuse to treat

A WARNING

There is no economy in employing an amateur to do an expert's task. Nine times in ten failure follows. In a large percentage of instances the result is harm. He doesn't treat enough cases to learn a great deal about them. His time is so fully occupied in treating a full assortment of human tils that he cannot devote special study to any particular branch of practice. Most diseases are sufficiently simple as to require no special training other than that received in the medical colleges and that afforded by experience in general practice. He prefers to be relieved of tasks beyond his training, though he cannot, without fear of injuring a patient's confidence in his ability, recommend the service of a specialist instead of his own.

CONTRACTED DISORDERS

Be sure your cure is thorough. Not one of my patients has ever had a relapse after being discharged as cured, and I cure in less time than the ordinary forms of treatment require.

My treatment is absolutely painless, and perfect results can be depended upon in every instance. I do no cutting or dilating whatever.

Varicose Veins

Absolutely painless treatment that cures completely in one week. Investigate my method, it is the only thoroughly scientific treatment for that disease being employed.

YOU CAN PAY WHEN CURED **EXAMINATION FREE**

I offer not only FREE Consultation and Advice, but of every case that comes to me I will make a Careful Examination and Diagnosis without charge. No alling man should neglect this opportunity to get expert opinion about his trouble.

If you cannot call, write for Diagnosis Chart. My offices are open all day from 9 A. M. to 9 P. M., and Sundays from 10 to 1.
