WILSON GIVES LINK

Shows Connection of Ruef With Bribery.

GOT SUPERVISORS IN LINE

Proves Willing Witness Against Calhoun When Immunity Contract Has Been Revoked and Remembers All.

SAN FRANCISCO, May 4.—Andrew M. Wilson, whose failure to testify to certain recollections in one of the trials of T. L. Ford was followed by revocation of his immunity contract and his indictment upon three charges of having accepted bribes, was the principal witness in today's session of the trial of Patrick Calhoun, president of the United Railroads. Under direct examination of Assistant District Attorney John O'Quinn, Wilson recalled the story of how he sounded the members of the Schmitz Board of Supervisors on the proposal to pass the overhead trolley permit, and was promised \$10,000 for his vote and effort after conversations with James L. Gallagher and Abraham Ruef. Stanley Moore, of the defense, supplementing Earl Rogers as cross-examiner, subjected Wilson to a severe cross-examination that had not been completed when the hour of adjournment had arrived. That Mamlock, the 11th member of the Schmitz Board of Supervisors summoned, testified that he had been promised \$4000 for his vote on the trolley permit by Gallagher, and he recalled that he had received \$2000 from Gallagher in a safe deposit vault, but he

could not recollect the circumstances under which the second payment was made, although he was certain that Gallagher had given him the money. Mr. Rogers devoted most of his questions to the understanding Mamlock had with Gallagher. The witness recalled that Wilson had corroborated Gallagher's promise of money and Mr. Rogers expressed mild surprise that the matter was not mentioned by the witness at preceding trials. Mamlock admitted that his recollection had been strengthened by reading his previous testimony, but Mr. Rogers asked: "Does your memory, like old wine, improve with a lapse of time?" "Some memories do, Mr. Rogers," answered Mamlock.

Wilson's testimony was regarded as especially important by the prosecution because it furnished a second link directly connecting Abraham Ruef with a member of the board. Wilson told of several conversations regarding the trolley permit with Gallagher, saying: "In compliance with a request by Gallagher, I sounded some of the Supervisors on the trolley matter and reported to Gallagher that the matter could be passed. He told me I would get \$10,000 or more. Subsequently Gallagher paid me the money in two installments. Wilson, when asked to relate his conversations with Ruef, said: "I had a talk with Ruef a week before the ordinance was passed, and he told me he was negotiating with the United Railroads attorneys, who had submitted to him an application for a number of franchises.

"Ruef said he had returned the applications and recommended that they substitute an application for a permit, the franchise to come up later. He told me that Gallagher would see me later and give me the amount decided on as necessary to put it through." On a second occasion, Wilson said he met Ruef in the board rooms on the day the permit was passed. "He said he expected to find at his office the permit ordinance, and he requested that I introduce it and make a strong talk for it," said Wilson. "To this I agreed, and the ordinance was passed later in the day."

Brown Jury Secured Easily. SAN FRANCISCO, May 4.—The work of obtaining a jury to try Luther Brown, accused of kidnaping Fremont Older, managing editor of the Bulletin, proceeded rapidly today before Judge K. S. Ma-

hon. of Sutter County, sitting in Judge Dunne's department of the Superior Court. Three veniremen were passed temporarily at the forenoon session and two in the afternoon, filling the jury-box, all the men, however, being subject to peremptory challenge. Before any venutory challenges had been exercised, two of the jurors were excused by consent and the examination of the veniremen was resumed.

FIRE DESTROYS SALOON

Germania at The Dalles Damaged \$4000 by Blaze.

THE DALLES, Ore., May 4.—(Special)—A fire which started about 9 o'clock this morning in the building occupied by the Germania saloon and rooming-house for a time threatened to destroy the entire block of frame buildings on Second street, between Court and Union streets, in this city. A strong wind was blowing from the west at the time, but after an hour's hard work by the volunteer firemen, during which time five streams of water were steadily played on the building, the flames were under control. Loss to buildings and fixtures is estimated at \$4000. The building was fully covered by insurance. The origin of the fire is supposed to have been a defective electric light wire. The building is owned by the Star Brewing Company, of Portland and Vancouver.

CHICAGO-NEW YORK IN AIR

Wireless Messages Successfully Sent and Replies Received.

CHICAGO, May 4.—The first wireless dispatches ever transmitted between New York and Chicago were sent last night from the wireless in the Auditorium Annex to the receiving tower above the Waldorf-Astoria, and from there telephoned to various newspaper offices. After midnight messages were sent from Chicago, received in New York and answered there and received again in Chicago within nine minutes.

Free rent for the summer to lot buyers at Gregory Heights. It's money to you. See ad on page 11.

TRIP SOUTH SPOILED

Bogus Geologist Attempts to Fleece Oakland Youths.

POLICE NIP BUDDING PLANS

Scheme Was to Hire Young Men for Alaskan Service, Require Deposit of \$65 From Each, Then Appropriate Funds to Himself.

WASHINGTON, D. C., May 4.—(Special)—Clever detective work and prompt action on the part of the police of Oakland, Cal., prevented a bogus geologist of the United States Geological Survey from fraudulently collecting and making off with several thousand dollars. One—D. P. Coble, possessing several aliases and hailing from Vancouver, B. C., has confessed to the authorities he thought it would be simple and easy way to outfit himself for a trip to Mexico by stopping in Oakland and engaging a number of young men for United States Geological Survey work in Alaska during the coming season, requiring them to deposit with him \$65 each as a guaranty they would not quit the service. He therefore opened an office in Oakland, hired a stenographer had \$25 worth of work done in printing Geological Survey letterheads and elaborate blanks, forged several cleverly written letters addressed to himself from the Director of the Survey, showing his authority to hire young men for Government service, and then inserted an advertisement for such young men in the Oakland papers. He was well prepared to carry out

the game; but unfortunately for him, the Oakland detectives were on the watch for just such confidence schemes and a member of the "force" applied for one of these Alaskan jobs at \$50 a month and found. Then followed a little quick communication between the Oakland Chief of Police and the San Francisco office of the Geological Survey and also the Director of the Survey at Washington. In the meantime the applicants for the Alaskan positions were many and Coble was evidently expecting a rich haul for his three days' work. Thirty applicants were to report on Tuesday and clinch their places by depositing with Coble \$65 each. If they hadn't the \$65 handy, but could raise \$25, for instance, he would, he had stated, personally advance the difference against the applicant's future salary. To lend color to this scheme he had a forged letter from the Director of the Survey

and also blank expense checks against salary account. But by Monday, the mesh had been sufficiently tightened around the enterprising but unsuspecting Alaska promoter, and he was unceremoniously arrested and, after hearing, jailed, thus indefinitely postponing his Mexican trip.

VEGETARIAN CAFE

105 SIXTH NEAR WASH.

If you could see your dishes through a microscope, you would never again wash them with SOAP

Soapy dish-water leaves a film of grease behind it; smell of your dishes after they are dry, and see. **GOLD DUST** is the greatest product yet discovered for washing dishes. It does the work more thoroughly than soap or any other cleanser, and does it, too, with scarcely any help from you. **GOLD DUST** also sterilizes, as well as cleans—leaves your dishes beautifully sweet and clean, wholesome and sanitary. **GOLD DUST** will enable you to wash your dishes in half the ordinary time. The **GOLD DUST TWINS** do the work without your assistance.

Why not call them to your aid today by buying a package of **GOLD DUST** of your grocer? "Let the **GOLD DUST TWINS** do your work."
