STORM OF CRITCISM HEARD

Bristow Moves to Retain House Rate and Forces Vote, Which Is Won by Aldrich - Heyburn's Wrath Aroused.

WASHINGTON, May 5.—The reading of the tariff bill and the adoption of amendments passed over when the measure was first read in the Senate was resumed today, having been displaced since April 23 by speeches of Senators who have discussed the measure as a whole.

Amendments on the schedules for lead ore and for lead products from which paint is manufactured called forth a storm of criticism. Bristow moved that the House provision of 2% cents per pound instead of 3% cents per pound on orange mineral, as proposed by the committee, be retained, this being the first of the committee series of increases relating to lead that was reached.

The regular order being called for on a demand by Bristow for an aye and nay vote, the rollcall was begun. Heyburn attempted to take the floor and the chair ruled that it was too late to interrupt the call. A murmur of protest was heard in various parts of the chamber, Heyburn angrily amounteing:

"If we start in that spirit there will be trouble."

The vote on orange mineral was re-

The vote on orange mineral was regarded as a test, and the rate proposed by the committee of 3% cents per pound instead of the House rate of 2% cents per pound was agreed to, 41 to 35.

If such a tax should not prove sufficient, or if it should not appeal to the majority of Congress, the President favors the imposition of an excise tax on the dividends of corporations. An income tax, he has always believed, should be levied only as a last resort.

WASHINGTON, May 5.—President Taft has come to the conclusion, as a result of a talk with Senators and members of the House of Representatives during the last two days, that there is little chance for adjournment of Congress before June 15 or July 1. The President has also declared that he favors an income tax only as a last resort, that recourse in cars of a deficiency under the new tariff act should first be had to an inheritance, and next to a corporation tax.
