CHICAGO, May 7.—(Special.)—Official crop figures wired here late in the day caused great commotion in the wheat trade. Before the report was received there was panicky selling on reports of rains in the Southwest and fear that the Washington figures might prove bearish. When the report was received, it proved bullish and a phenomenal advance started, which carried prices up to \$1.17 3/4 for July and \$1.09 3/4 for September.

### SPEAKS IN HIGH PRAISE OF FILIPINOS.

Justice Tracy. WASHINGTON, May 7.—(Special.)—Justice Tracy, of the Supreme Court of the Philippines, has created a sensation by his tribute to the intellectual qualities of the Filipinos. In a speech delivered at a recent banquet in Manila he said: "I have heard speeches and arguments from the members of the Filipino bar that would honor any bar in a civilized country, and my immediate association has been with men whom I consider not only of the very highest and noblest character, but of the very first grade of ability." And he added that the strength of that bar, in point of intellect, was on the native side. This has furnished a strong argument to the supporters of Filipino self-government.
