

REASON FOR OPPOSE... Reasons Given Against Bridge at Oregon Street.

HARBOR MIGHT BE HURT... Herman Wittenberg and Captain Spencer Speak Against Change in Location of Span for Railroad Company.

That the present location of the steel bridge is superior to any site that could be selected farther south, was the opinion expressed by Herman Wittenberg in his address before the Steel Bridge Push Club, Monday night.

Mr. Wittenberg's address was in part as follows: "I do not know that my ideas will be in harmony with those of the members of this club but I am of the opinion that the location of the present steel bridge is superior to any location that could be selected farther south."

Appeal to War Department... The only point, in my estimation, is to show to the War Department that the injury to the harbor would be considerable.

WEATHER CONDITIONS. The high-pressure area noted yesterday evening over Western Oregon has increased in magnitude and the low-pressure areas over Utah and Alberta have moved too far east to influence the weather in this district, which consequently has begun to clear, and very little rain fell in the North Pacific States during the last 12 hours.
