SAN FRANCISCO, May 12.—With Patrick Calhoun's trial entering upon its fifth month much matter new to the bribery investigation was presented during the exhaustive examination of James D. Phelan, who occupied the stand during the entire session today.

From statements made by Assistant District Attorney Francis J. Heney during the proceedings today it is learned that Rudolph Spreckels, one of the most prominent figures in the prosecution, will be called as a witness either tomorrow or Friday.

Motives of Phelan's Action.

The examination of Mr. Phelan had to do with the reasons that actuated him in assisting the inception of the prosecution; his acts as Mayor of the city during his three consecutive terms in office; all the controversies over the trolley matter prior to the fire of 1906; his connection with the Valley Railroad in the San Joaquin Valley; his relations with Rudolph Spreckels at various times and many other matters.

Proposed Donation to City.

After having told the story of the controversy between the United Railways and the Adornment Association, Mr. Phelan identified a letter from Calhoun to the association dated March 29, 1906. In this letter it was stated that the association proposed and the railway company agreed that the question of trolley or underground wires should be left to the people, and the company agreed to donate to the Park Panhandle extension the difference in cost between the ordinary system to be adopted.

A letter dated March 23 was then introduced, in which Calhoun withdrew the offer because of threatening legal steps against his company, but Mr. Phelan said he had no knowledge of any such legal steps.

Not Allowed to Lift Lid.

Mr. Heney then drew out the fact of the incorporation of a Metropolitan Street Railways Company by Mr. Phelan, the Spreckels brothers and others on April 17, 1906, the day before the earthquake.

PORTLAND MUST BRACE

DUGDALE PASSES OUT SOME ADVICE ON LEAGUE.

Says Class of Other Teams Underestimated and Team Must Get Together and Play Ball.

SPOKANE, May 12.—(Special.)—"I believe both Portland and Aberdeen will be playing much better ball on the second swing around the circuit," says D. E. Dugdale, of the Seattle baseball club.

"To my way of thinking, both these teams came into the Northwestern League this season undervaluing their strength of the organization and undervaluing the strength of the opposition."

"Manager Rowland, with his bunch of Three-Eye Leaguers, has been simply looking on for the first few weeks of this season. The class shown against his team has stopped the bunch temporarily, but as soon as he gets started with the proper ideas of what his team has, I believe Aberdeen will come to the front and fight for the flag."

"The same might be said of the Portland club. Casey was in charge of the team with a couple of the Coast League players behind him, in the hope that with the addition of some ordinary players he would be able to stay at the top of the list in the Northwest."

"Now that both of the teams have found their feet together and play better ball, or be counted out, I believe they will brace."
