FOLK SAYS OREGON IDEAS LEAD NATION

Declares West Furnishes New Things in Political Thought of Country.

DEMOCRATIC CHANCES GOOD

Ex-Governor Optimistic Over Pros pects for 1912 and Says Bryan Could Have Nomination for Asking-Has Big Influence.

"Oregon is the leader of political thought in America," said ex-Governor Joseph W. Folk of Missouri at the Portland Hotel last night. It was with Portland newspapers on his knee and after a series of cross questions regarding political conditions in Oregon that Mr. Folk made the statement. The ex-Governor is a strong advocate of the primary law, as well as of the initiative and referendum measure, and he had no hesitancy about saying so. Mr. Folk is making a tour of the West and will lecture today at the University of Oregon on "The Era of Conscience." His last visit to Portland was during the Lewis and Clark Fair and he made many commentaregarding the enormous growth of Portland since that time.

"In former years," said Mr. Folk, "all new political ideas came from the East, now they come from the West. In Missouri we followed Oregon's example and adopted the initiative and referendum by a special amendment to the constitution last Fall. As reserve powers they are most effective. They will, I believe, put an end to corruption in Legislative affairs, for there will be no use for anyone to bribe a bill through a Legislature

fairs, for there will be no use for anyone to bribe a bill through a Legislature when the people can veto that measures under the referendum. These measures reduce corruption by taking away the incentive to corruption.

Likes Commission Government.

Mr. Folk went on to speak of the advis-ability, in his opinion, of the measures being retained in city affairs. In reply to a question regarding the Des Moines plan of government, he said:
"I have found the commission plan of

"I have found the commission plan of municipal government worked very satisfactorily in Des Moines. It saved the city thousands of dollars. Their plan consists in the election of a Mayor and five Councilmen, making the law-making body of the city. They are responsible, so that if anything goes wrong, people know where the blame lies. Good government is government simplified. The more simplified government can be made, the more government by the people there will be. If a plain matter of right and wrong were brought before the people, they would do right when they know it they would do right when they know it

to be right.
"But representatives of graft and privi-lege are too shrewd to allow an unob-scured issue of public interest to go be-fore the people. They usually manage so to confuse issues as to bewilder many

to confuse issues as to bewilder many thinking men.

"The problem of good government can be summed up in one sentence—wherever patriotism of people becomes as aggressive as selishness of special interests, good government results.

"No classes of men should be given special privileges denied to others. A tariff, for instance, so arranged as to give a monopoly, and to give a few people the power to prey on others, is prohibited by a higher law—the law of conscience.

Prophesies Democrat Success, 1912. The effort of those who are fight-

ing for public welfare is to bring about such conditions as will give an equal opportunity to each and every man to live and labor upon the earth that God has given to all and to enjoy unhindered and untrammeled the gain of honest toil."

"As a Bryante Mr. Fall.

"As a Bryanite, Mr. Folk, what do you consider the prospects for 19127" "I am a friend of Mr. Bryan—a very warm friend," said Mr. Folk, "Mr. Bryan stands strong with the people; he could get the nomination again if he wanted it. I don't think he will seek it. No, I hardly believe he will seek it. No, I hardly believe he will run again. He has stated that he pre-fers someone else to carry the hanner. "Mr. Bryan has been a mighty force in awakening the conscience of people. While he may never be President, he has exercised an infinitely greater in-fluence than many Presidents. "I think the prospects for a Democratic versus in 100 years highly at this time

cess in 1912 very bright at this time

I believe it will win.

"By eliminating immaterial questions on which Democrats disagree and uniting on essential issues on which all Democrats agree, the chances for victory of the Democratic party are very good.

"The tariff bill now before Congress has

"The tariff bill now before Congress has made it plain to people that to permit the tariff to be revised by its friends means it will be revised in the interest of monopolles, and not of the people. The "first confirmation of people in order to make a few very rich is becoming apparent to all.

"It is better for all the wealth to be in the hands of all the people than for it to be in the hands of a few. Instead of pretecting monopolles against people, peo-

etecting monopolies against people, peo de should be protected against monopo-

No. I won't talk about the Socialistic trend. All the Socialists would want to argue with me."

CONSUL ASKS LENIENCY

Schooner Woodbury Did Not Intentionally Violate Canadian Law.

WASHINGTON. May 14.—American Consul-General West, at Vancouver, has tried to obtain the release on the pay-ment of a small fine, of the American fishing schooner Charles Levi Wood-bury, seized by the Canadian govern-ment for alleged lilegal fishing within the three-mile limit between the Hay-cock islands last month.

The Consul, it is understood, satisfied The Consul, it is understood, satisfied himself that there was no wilful attempt to fish illegally, as the schooner had drifted within the prescribed limits as a result of a northwest wind and heavy tide. Discovering the situation, the captain started to pick up his dorles, and did not hear the signals of the Government boat to heave to.

CLUB JOINS MOVEMENT

PORTLAND WOMEN START WAR-FARE ON TUBERCULOSIS.

Organization Will Lead Subscription List for Free Dispensary With \$100-A. L. Mills' Address.

Declaring that 10 per cent of the deaths in Portland last year were due to the ravages of tuberculosis, A. I. to the ravages of tuberculosis. A. L. Mills thoroughly aroused his audience by the address he delivered yesterday afternoon before the Fortland Woman's Club on the "Great White Plague." Such was the enthusiasm manifested that on motion the club decided to head with \$100 a subscription list to provide Portland with a free dispensary and a home for the cure of penniless incurables. A committee was appointed to circulate a subscription list and to bring the matter before the State Federation, so that clubs throughout the state may become enthused with the subject and decide to take an active part in the warfare against the dispart in the warfare against the dis-

Mr. Mills went on to give numerous instances of the danger to be apprehended from careless habits of the tuberculosis patient in not living properly. Improper methods of living might endanger the next person to live in the rooms the patient inhabited. Examinations of the lungs of practically every person over 65 years of age will show, said Mr. Mills, scars indicating that at some time or other in the life of the some time or other in the life of the individual tubercle bacilli have made an attack

MUCH PROGRESS IS MADE

With Tariff Bill.

NEW YORK, May 14.-R. G. Dun & Co.'s weekly review of trade will say to-

Further significant improvements have been made in iron and steel, and as they form a great basic trade, this goes far toward establishing the long-desired readjustment of the whole industrial situation. This and the better weather for both agricultural and mercantile interests are the week's most important trade developments. A marked optimistic feeling, therefore, prevails in most branches of business, in spite of the fact that the unsettling tariff debate has not yet reached its last stage—that of the confer-

The notable event of the wees in cotton goods has been the reduction in staple prints, led by the leading producers. The declines proved to be more radical than expected, although opinions in the trade vary as to their probable duration.

In the woolen goods division, advances continue in many lines, especially in worsteds. The varm market is irregular low steels. steds. The yarn market is irregular, low prices bringing out some business.

Manager Baker has been highly complimented for his offering at the Bungalow all this week. The Baker Stock Company has been presenting Eleanor Robson's beautiful play, "Merely Mary Ann," and nothing during the past season has made such a genuinely pleasing impression upon the crowded houses at every performance.

What the Press Agents Say.

AT THE VAUDEVILLE THEATERS.

One of the most meritorious acts in the bleyele line that have been seen in local vandaville of late, is that of the McDonald trio, bleyele experts, who are appearing at the Pantages Theater this week. They have a distinctly unusual bleyele offering, their feats being not only difficult, but gracefully performed as well.
