Beverldge Exposes Manner in Which It Collects Spanish War Tax After Repeal-Root and La Follette Wrangle.

WASHINGTON, May 14.-Again the committee on finance was upheld when the Senate today by a vote of 35 to 42 voted down an amendment by Cummins to lower the duty on round iron and up-held the House rate, which was recom-mended by the Senate committee. Almost the entire day was given up to a debate on the profits of the United States Steel Corporation and toward the end personalities were exchanged. Bevoridge proposed an amendment increasing the duty on tobacco and its products and charged that by continuing the short weight packages of the Spanish War period the tobacco trust was reaping a harvest of \$21,000,000 a year.

Cummins Attacks Iron Duty.

Upon taking up the iron and steel sec-tions of the bill, Aldrich asked that the Senate pass over the paragraph relating to pig-iron, as the committee on finance wished to consider an amendment affect-ing the duty on cast scrap fron.

Root and La Follette Spar.

La Follette complained that he had difficulty in obtaining information from the committee on finance. This brought from Root a retort that the committee in reporting a liouse bill was under no obligation to furnish information except on those paragraphs on which it pro-posed amendments. Root said Senators would do well tot confine themselves to clear cut, short statements and to "re-frain from declamation and from general liscussion for the purpose of strengthen-ing gentlemen in their own home states."

La Follette made a sarcastic reply. The Cummins amendments reducing The Cummins amendments reducing the duty on round iron and slabs 1-10 of 1 cent a pound was then voted on and defeated on a roll call, 35 to 42. Mc-Enery of Louisians, Democrat, voted with the Repubdicans against the amendments and Beveridge, Borah, Bristow, Brown, Burkett, Clapp, Crawford, Cummins, Dolliver, La Follette and Nelson with the Democrats for it.

Seeking free trade on all farming im-plements and tools used by carpenters and blacksmiths, McLaurin offered an amendment exempting from duty articles made of iron and stees, such as trace chains, hammers, screws and door hinges. The amendment was defeated,

OPEN COEUR D'ALENE LAND

Over 2,000,000 Acres for Settlement in Reservations.

MISSOULA. Mont., May 14.—Under a Washington date line, the Missoulian this morning prints the following:
At a conference held today by officials of the General Land Office, the following tentative scheme was decided upon for the registration and opening of the Flathead Reservation, in Montana, Coeur d'Alene in Idaho and the Colville in Washington. The Flathead Reservation contains about 1,200,000 acres, the Coeur d'Alene about 400,000 and the Colville about 400,000. All three reservations will be ready for opening this Summer, and all three of them will be opened at the same time. Registration points will only be established at towns where there is a United lished at towns where there is a United States Land Office, and all registration points will be for all three of the reservations. The registration points will be Missoula, Kallspell, Coeur

d'Alene City and Spokane.

The registration period will probably begin July 10 and end on August 15, thus giving five weeks' opportunity for all persons to go to one of the places above designated to register. At the close of registration, August 15, the drawing for numbers will take place for all three of the reservations at Coeur d'Alene City. The drawing is an unimportant item in the general plan and will occupy only one or two days.

Leaders of Unions Pledge Support, but Are Suspected of Bluffing. Many Strikers Resume Work and Collapse Is Near.

PARIS, May 14.—The striking postal nployes adopted resolutions at a meet g today appealing to the workmen's ganization to make common cause with hem. The meeting was attended by rep-esentatives of the workmen, who de-vered inflammatory speeches, promised the postal employes immediate support and threatened, if necessary, to place themselves under the direction of the revolutionary General Federation of La-bor. These threats produced a big scare, but there is strong suspicion here that the leaders of the movement are bluffing.

The strike of the postmen itself apparently has lost ground. It is reported tonight that the strikers are cutting wires.

This afternoon's meeting was attended by 9000 strikers and delegates from various sections. The strike leaders charged that the military precautions taken by the government proved that it was intended to "drown the strike movement in blood." They favored a direct appeal to the workmen's unions for cooperation and amid great enthusiasm the strikers voted unanimously for an alliance with the workmen, "with all its consequences."

It was declared that the moment had arrived for a solid revolutionary move-ment under the direction of the General Federation of Labor.

Battle to Death Proposed.

LONDON, May 14.-A comprehensive bill for the removal of Roman Catholic disabilities and providing for an alteration in the oath of accession taken by the British sovereign was introduced by William Redmond in the House of Commons today and passed its second reading by a vote of 133 to 123, but there is little prospect of its becoming a law at the present session. The fact that a majority of the House voted in favor of the measure, however, is regarded as a great victory for the Catholics. The Roman Catholics never have ceased to inveigh against the "insulting ceased to inveigh against the "insulting references" to certain beliefs in the monarch's accession declaration as "superstitious." The same opposition that hitherto had defeated any effort to alter the oath again showed up today when a petition signed by 400,000 persons against the removal of Roman Catholic disabilities was handed in just before Mr. Redmond rose. Mr. Redmond's bill not only removes what is regarded as the objectionable portion of the oath of accession, but it repeals the acts prohibiting residence and the acquisition of property by the Jesuits and other monastic orders, and abolishes the disqualification which prevents Catholics from filling the of-WOULD SYSTEMATIZE
