OREGONIAN NEWS BUREAU. Washington. May 17.—No matter how unpopular the Aldrich-Payne bill may prove to the country, its enactment in something like its present form will not cause many changes in the next Senate. That is to say, but very few of the 30 Senators whose terms expire March 4, 1911, will be defeated principally because of the stand they take on the tariff question this session. However, the enactment of a bill along the general lines laid down by Senator Aldrich will unquestionably force the retirement of several Republican Senators if they support it.

Of the 30 Senators in question, only six are Democrats, and of the Democrats the only one likely to be criticised by his people is Rayner of Maryland. Rayner may be defeated if his State Legislature is carried by the Republicans, but if the Democrats remain in control he will probably be returned, notwithstanding his tariff views. But the enactment of an Aldrich tariff bill will not have a tendency to aid the election of Republican Senators in place of Democrats—quite the contrary. Therefore it may be set down as reasonably certain that none of the six Democrats in the retiring class are in danger of defeat on account of the tariff.

Of the 24 Republicans, however, some are sure to be left at home—among them several who are doomed to defeat regardless of their position on the tariff, as a sure to be left at home—among them several who are doomed to defeat regardless of their position on the tariff question. Of this latter type may be mentioned Depew of New York Dick of Ohio, Filmt of California and McCumber of North Dakota. Depew has been doomed for some time past; Dick was marked for slaughter when the Tet Dick has long been Foraker's leuterant and was his chief chamber and this last fight!): Filmt announced a year ago that he would not be a candidate for re-election, and McCumber was a "dead one" when his atate adopting primary method of choosing Senators and first eliminated his late colleague, Hansbrough. That leaves 20 Republicans to be accounted for. First on the alphabetical list leader in himself. Hale, one of the old Republican warhorses in the Senate, is not in such imminent danger as Lodge; his defense of tariff schedules of most importance to his atate has been of benefit to him rather than a detriment, but he is now accused of being a large owner in a big wood pulp company, of which his son is owner, and it was largely because of this interest that Hale used his mighty influence to keep up the duty on wood pulp and print paper, contrary to the demands of publishers everywhere. This stand on a single schedula of the tariff bill may return to do him harm.

Are Impossible Without Rich, Red Blood-A Detroit Woman Expresses an

Opinion. The tonic treatment with Dr. Williams' Pink Pills for run-down condi-tions of the health is based on sound medical principles and on common sense. More and more men and women are be-

ginning to realize that pure, red blood means health and that the efficiency of any tissue or organ is entirely depend-ent upon the quality of the blood. There are thousands of people, who are without ambition or strength to do their day's work and who are always tired out, have but little appetite and a poor digestion, cannot get a refreshing night's sleep and are subject to head-aches, backaches and nervousness be-

aches, backnohes and nerrousness because their blood is impure.

Dr. Williams' Pink Pills give quick relief and permanently cure such men and women because they purify and build up the blood to its normal strength. As the blood becomes pure and red it strengthens the muscles, tones up the nerves, makes the stomach capable of digesting the food, and repairs the wastes caused by growth and work.

Mrs. George Morgan, of No. 115 Twenty-third street, Detroit, Mich., says:

Twenty-third street, Detroit, Mich., says:

"I suffered with general debility for over a year after gradually declining in health from overwork. I had but little blood, no strength or ambition and was weak and thin. My appetite was poor. I was reduced in feesh and was all tired out. I felt miserable all the time and could not do any work. I was sent on a visit to relatives with the hope that a change would benefit me, but after several weeks I had not improved.

"Most of this time I was taking the doctor's medicine without benefit and was getting discouraged. My aunt urged me to try Dr. Williams' Pink Pills. They gave me a better appetite, I gained in flesh and strength and took the pills until cured. Since then I have been strong, robust and healthy."
