Brown, and Mra Edna Pickets, a stemographer, were forced to pass a night in the woods without shelter or food. Their sufferings, particularly those of Mra Pickets.

ings, particularly those of Mrs. Pickets, were severe.

WOMEN GO AFTER PATTEN

Patten has bought many Spring gowns, paid dressmakers' bills, produced theater tickets, inncheons, furniture for the house, ciothes and shoes for little Johnny and Mary, and rent money. Women don't, as a rule, risk big money. They quit quickly when lack is against them and take profits that would look 'pikerish' to a man, Most of them have quit now, too, rather than risk a big slump when delivery day for May comes. Oh, they're wise, Most of them are winnets in a small way, it is true, but that's better than being out."

Patten's operations in the market today were confined to small miss to local shorts in May wheat. The price declined to \$1.31% around noon. Evidence of the alleged big short interest in Pittsburg and New York was not apparent in the pit operations. The deferred options in wheat had a good decline upon optimistic crop reports in Kansus and the country at large. The trade was large and inclined to selling.
