SPOKANE SOUVENIRS FOUND

Eight Sacks of Stolen Mail Recovered in Schoolhouse Attic-Robbers Wear Western-Made

Clothing.

OMAHA, Neb., May 28.—That W. D. CUPID WORKING OVERTIME Wood, Gordon and Fred Torgenson, the three men arrested by the local police on suspicion of being implicated in the recent hold-up of the Overland Limited, near this city, are also implicated in the Spokane train robbery of a few weeks ago, is the belief expressed by detectives tonight,

While the evidence in this direction is purely circumstantial, it is strong, and consists of the following points: The men are all Westerners; they have been in the West recently, as indicated by the fact that the names of Western firms have been found on their clothing; and for a week or so after their arrival here they bought the Spokane papers each day, and afterwards made bonfire of these papers and burned them all at once.

A sweater in the possession of one of the men has also been identified as one worn by the Spokane robbers; while another suspect had in his baggage a packet of letters from a resident of the Spokane restricted district.

Two Are Identified.

Tortensen and Wood were tonight identified as two of the men who robbed the Limited Saturday night. Engineer Nickeljohn and Fireman Prowl identified them as the men who forced them to stop the train.

Among the prisoners' effects was a small souvenir mirror, on the reverse side of which was a picture of the from enforcing its order that the North-Spokane Union Station. This adds to ern Pacific Railroad and the Harriman the belief that the same men held up the Great Northern train near that

Stolen Mail Found.

Eight registered mail pouches taken from the Union Pacific Overland Limited Saturday night were found in the attic of the Brown Park achool in South Omaha today.

Chief Biggs said tonight he expected a confession from one of the prisoners There is every indication that the robbers took the mail pouches to the retreat moved them to the schoolhouse attic Sunday night. The robbers were secure from detection in the attic, and were able to open the contents of the pouches The mail pouches had been opened, and every letter and package rifled. The robbers replaced the letters in their en-velopes after removing the money.

Photograph of Gang.

The men today deny being acquainted with each other, but in the belongings of one of them was found a photograph of all three, together with a woman, seated in an automobile. There is nothing to show where the picture was made

The Union Pacific Railroad offered a reward of \$5000 each for the robbers tonight. It is a matter of interesting speculation as to how this reward will be divided in the event of the men being convicted. Three boys, none of them over 8 years, were the first logical clew which led to the arrest.

Chief Biggs and two detectives made The police believe that if Gordon's room is located they will be able to find some of the money taken from the registered packages. All rooming-houses in the city are being searched. Gordon declares he cannot remember the location of his room, as he is not familiar with the city.

One Robber Escapes. The police dragnet has been put out

for the fourth man who made his escape. The capture of the three prisoners was not made without consider able difficulty. The first of the prisoners to see the detectives shouted to his companions to "beat it-here comes the coppers." All four started to run, with Asks Court to Postpone Hearing So the officers in pursuit. One was stopped by a detective near where he was discovered, and the other two ran into the arms of another officer and were forced to surrender at the point of a revolver. The fourth man escaped to the Missouri River bottoms.

"The elaborate equipment of this trio is evidence sufficient to indicate they are desperadoes," declared Chief Briggs. "I have never seen a better layout in my experience. There can be no doubt these men have pulled off some good jobs, and I believe further
