

BULL RUN LINE TO BE LAD IN ONCE

Water Board Hires R. H. Thomson, of Seattle, to Help in Big Project.

THIRD TUBE UNDER RIVER

West Side Will Be Given Another Pipe to Provide for Future and Guard Against Accident—Meter System Is Costly.

Continued From First Page. Department, although it must technically be done by the City Engineer.

Only One Line Now. The bursting of one of the large tubes that carried the supply from the East Side to the West Side, which occurred recently, is one reason for the decision to construct another main across the river. However, the principal reason for the action is that in years to come it will be necessary to use the additional pipe in supplying the West Side. With the large pipe out of commission, as it has been for several months, there is but one other tube to be depended upon. If anything should happen to this one, the entire supply of Bull Run would be cut off on the West Side, and it would be necessary to use river water. The new pipe will, therefore, serve to obviate any such a situation as this.

Clarke Has Drawings Ready.

The greatest undertaking of the board, of course, is the construction of the second pipe line from Bull Run River, for which the large bond issue was made. The work will be done under the direction of the board, through Chief Engineer Clarke, assisted by Engineer Thomson of Seattle. Mr. Thomson will act very largely in an advisory capacity. He will inspect the ground along which the pipe will be laid, and will also look over Engineer Clarke's plans and specifications, and make any suggestions he deems wise.

Mr. Thomson's opinion will be given great weight by the members of the board, who, yesterday afternoon, went on record as having full confidence in him as an engineer competent to judge such matters. Having installed Seattle's gravity system, from Cedar River, Mr. Thomson is regarded as, perhaps, the best available man for consulting engineer on the Portland project.

Mr. Thomson has also made considerable of a study of the local system, being greatly interested in it from an engineering standpoint, when it was put in. He went over the work very carefully, according to statements made yesterday afternoon at the meeting of the board.

All Agree on Thompson.

Dr. C. H. Rafferty, who presided at the meeting yesterday, Mayor Lane being absent, declared himself fully satisfied with Engineer Clarke's ability to construct the new pipe line, but said that he regarded it as a matter of course that he should have a competent consulting engineer, and that he thought Mr. Thomson about the best man for the position. E. B. Lamson, Judge G. W. Allen and J. D. Hart, the other members, expressed similar views. Mr. Thomson's proposition to the board is considered by the members as exceptionally reasonable, especially since there is said to be no doubt as to his ability to pass upon this kind of work. He asked \$2500 for all that he is to do in connection with the project.

Superintendent Dodge recommended the employment of five more meter readers and inspectors of meters, but the impression seemed that the limit has been reached in this matter. While the Portland Gas Company employs four men to read 15,000 meters every month, the water board employs only three men to read and inspect 3500 meters in the same time.

Lanuson Wants New System.

This comparison was made by Mr. Lanuson, who said that, in his opinion, some new system of metering the meters should be evolved and put into force. Mr. Dodge withdrew his application, in view of the attitude of the board. He was allowed one more \$100 a month for the East Side office, at the request of Dr. Rafferty. The business of that branch is increasing very fast.

Bids for installing 6000 meters were opened by the board during the afternoon session. The bid of Hildon & Clark of Portland, which was probably the lowest, was \$100,000. The matter was deferred until the next regular meeting, which will occur next Tuesday. The meter system is fast running into large sums of money, but the members of the board declared that they feel justified in handling the system in this manner, because, it is said, it will save the city a large sum.

GEORGE GOSSETT DROWNED

Boat Capsizes in Columbia, off McGowan's Cannery. WARREDALE, Or., June 1.—(Special.)—The loss of George Gossett, a victim of the Columbia cannery, was an employee of McGowan's cannery. He lived at Vancouver, Wash., and had been employed at the cannery since April 1. This afternoon he took a small skiff and went fishing. While he was still some distance off shore a stiff breeze sprang up, making it difficult to handle the boat. Water was seen to splash over the boat, and despite the efforts of the young man, the skiff and capsized. The accident happened at 7:30 o'clock this afternoon. Gossett was 21 years of age. He has an uncle living near Oakley Green station. When in Portland he stayed at the residence of Thomas Grange, 84 S. Morrison street, and is well acquainted with the Grange family. His parents live on a farm near Vancouver.

Tacoma Middy Among Honor Men.

ANNAPOLIS, Md., June 1.—(Special.)—The gala season of the year at the Naval Academy, opened today with the reception of the Board of Visitors. The list of honor men of the graduating class, made public today, includes Harold T. Smith, Tacoma, Wash., No. 10.

EARLY STRAWBERRIES ARE AMONG FINEST EVER BROUGHT TO LOCAL MARKET.

BERRIES OF MARSHALL VARIETY, GROWN BY J. F. WATKINS, AVERAGE IS 18 TO 20 TO BOX.

Some of the largest and finest strawberries ever seen in Portland are being brought to the local market by J. F. Watkins from his farm near Hillsdale, three and a quarter miles from the Courthouse, on the old Slavin road. The berries which Mr. Watkins brought in yesterday averaged from 18 to 20 in a box. In flavor they could not possibly be excelled. The berries are of the Marshall variety. Mr. Watkins has an acre and a half of two-year-old vines now growing in a black sandy loam with a clay subsoil. The weather of the past two days has been very conducive to fast ripening. Mr. Watkins is now receiving 20 cents a box wholesale, and for his first load he received 25 cents, so that will make a large profit on his small tract.

LIKE OLD GUMS

Sperry and Uryu Sit Side by Side at Banquet.

NEW YORK, June 1.—Vice-Admiral Uryu, of the Japanese navy, and his old friend, Rear-Admiral Charles S. Sperry, who brought his globe-trotting United States battleship fleet back from the Pacific, sat side by side tonight at the Hotel Astoria as the guests of honor at a dinner given by the Japanese Society of New York.

BOTH PLEDGE FRIENDSHIP

Unbreakable Friendship Between Nations. The speeches of Admirals Uryu and Sperry were of brief. "We are fighting men, not talking men," said the Japanese Admiral. "As an Annapolis graduate, I am very deeply indebted to your country. Our whole nation, too, owes much to America. We shall repay you with lasting respect and friendship."

Japan's Debt to America Freely Acknowledged—Sperry Predicts

Unbreakable Friendship Between Nations. Rear-Admiral Sperry spoke of the hospitality which he had been shown at the battleship fleet during their stay here. "Never was there such good fellowship or such understanding between two nations," he said, "as was evidenced at that time. The kindness of Japan on that occasion will do much to bring the two nations into unbreakable alliance of friendship and good will."

Huntington Wilson made a brief speech

in which he congratulated the Japanese guests. "The Japanese are a people of great energy and ability," he said, "and it is to be expected that they will in the future play a prominent part in the world's affairs."

BUZGLARS GET \$20,000

ALKI POINT THIEVES MAKE RICH HAUL. Money Left Under Pillow Is Taken. Currency Had Been Sent From Duluth.

SEATTLE, June 1.—Mrs. George Shea, of Eveleth, Minn., who is visiting her sister, Mrs. John England, at Alki Point, had occasion to visit the bank here at midnight last night when she had been robbed of \$20,000 in currency. Mrs. Shea, who arrived in Seattle last Monday, in the company of her husband, who is a low her from Duluth shipped in \$100 bills and \$100 bills to her by the Great Northern Express Company, which delivered the package to her on Thursday.

DULUTH, Minn., June 1.—The Mrs. Shea referred to in Seattle yesterday is believed to be Mrs. A. J. Shea, of Eveleth, who left Duluth for the West last week. The money, which was received from the sale of timber on heated land, which she but recently received the patent. Her husband has been litigating for years for the claim in question. He testified on the stand that he had sold the timber for \$25,000, and that his wife was in the West with the money.

VETERANS DINE JUNE 10

Arrangements Made for Banquet to Indian War Soldiers.

A banquet for the Indian War Veterans of the North Pacific Coast, given by the Sons and Daughters of the Indian War Veterans, will be held June 10 in Woodman Hall, Eleventh street, between Washington and Third streets. Charles Henry Chamberlain, president of the order, will superintend the banquet. The committee is composed of Mrs. M. Parrish, Mrs. E. A. Chamberlain, Mrs. T. A. Wood, Mrs. Wishard, Mrs. Otto Kleemann, J. C. Probstel.

MISS GOODRICH, looking more stunningly lovely even than her former self

to Portland, has a nice role as Grace Morton, who goes West in search of a missing brother and finds both the brother and Nat. I mean John Warden, thereby killing two birds with one stone. There is no room for discussion concerning Miss Goodrich's beauty and her taste in gowns, while her acting is together surprising. She was entirely equal to her part and does much to make "The Easterner" a corking good play. The supporting company contains Nell O'Brien, a splendid actor, who has all the parts she is asked with, no matter how big they are. He plays the old sheriff admirably. Edward W. Morrison, a treacherous "kisser" gives a good account of himself, and a number of others acquit themselves very well.

NO FEARS OF JUNE RISE

Weather Bureau Officials Say Alarming Signs Not in Evidence. According to the reports received at the local Weather Bureau, the stage of water in the Willamette will remain practically stationary for the next few days, although there may be a slight rise tomorrow. From the Umatilla and Snake the reports are that the water is falling. Mr. Bennett said yesterday that from what he could figure out from his reports there is nothing alarming in the outlook for an unusual June freshet. At the same time Captain Archie Pease, of the pilots' office, said he could see nothing but prospect of very high water some time in the near future to sail.

Loss of Solano to Be Settled in Tacoma Court.

HOQUIAM, Wash., June 1.—(Special.)—It is stated that the libel case of Captain W. H. Wood, of San Francisco, against the Grays Harbor Tugboat Company for \$35,000, will begin in the Federal Court at Tacoma, before Judge Denworth, some time during this month. The case had its origin in the allegation that the tug company failed to have a tug on hand according to agreement to haul the schooner Solano to deep water after she had been practically hoisted, and becoming a total loss.

WEAR A FEEL RASH

Gulf Stream Arrives in Port With Cement. Weeping Eczema Kept Spreading on Little Sufferer—A Score of Treatments Prove Dismal Failures—Grateful Father Tells of CURE ACHIEVED BY CUTICURA REMEDIES.

DISABLED IN STIFF GALE

Craft Had to Stop En Route Here to Make Repairs at Port Stanley, Falklands—Consigned to Fuller & Co.

"It gives me great pleasure to express my deep gratitude in appreciation of the incalculable benefit that the Cuticura Soap, Ointment and Resolvent did my little boy. He had an awful rash all over his body and the doctor said it was eczema. It was terrible and used to weep awfully. Any place the water went it would become another sore and it would become crusted. A score of more physicians failed utterly and diamally in their efforts to remove the trouble. Then I was told to use the Cuticura Remedies. I got a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent, and before we had used half the Resolvent I could see a change in him. In about two months he was entirely well. When people see him now they ask, 'What did you get to cure your baby?' and they say, 'I used Cuticura Remedies.' So in your Cuticura will always be firm and warm friends. George F. Lambert, 139 West Centre Street, Albany, N. Y., February 26 and November 4, 1907."

STEAMER INTELLIGENCE

Due to Arrive. Names, From, Date. Argo, Tilamook, June 2. Breakwater, Coos Bay, June 2. Rose City, San Francisco, June 2. Allamuck, Coos Bay, June 2. Sue H. Elmore, Tilamook, June 4. State of Cal., San Francisco, June 7. Eureka, Eureka, June 8. Riverside, San Francisco, June 10.

Scheduled to Depart.

Names, For, Date. Argo, Tilamook, June 2. Breakwater, Coos Bay, June 2. Rose City, San Francisco, June 2. Allamuck, Coos Bay, June 2. Sue H. Elmore, Tilamook, June 4. State of Cal., San Francisco, June 7. Eureka, Eureka, June 8. Riverside, San Francisco, June 10.

Entered Tuesday.

Rose City, Am. steamship (Mason), with general cargo, from San Francisco. Argyle, Am. steamship (Dickson), with bulk oil, from San Francisco. Gulf Stream, Brit. bark (Nicoll), with general cargo, from Portland. Nome City, Am. steamship (Hanson), with general cargo, from San Francisco. Cleared Tuesday. Majestic, Am. steamship (Anderson), with lumber, for San Pedro. Argyle, Am. steamship (Dickson), in ballast, for San Francisco.

UTILIZE SUBMARINE SIGNALS

Hydrographic Office Makes Interesting Report on Experiments. Possibly one of the most interesting essays put out by the United States Hydrographic Office and on file at the branch office in the Custom House for public distribution, is that on submarine signals.

Since men grew from boys and have known of the carrying power of water through the experiment of clicking stones together under water, so that besides general cargo for other Portland firms of importers.

Tacoma Marine News.

TACOMA, Wash., June 1.—The steamer Governor arrived in port today from San Francisco and Seattle; the steamer St. Helena shifted from Seattle to load cargo for Tacoma and St. Michael. The steamer Edith is loading a Government dredge for Port Davis, Alaska. The British ship Marlborough Hill has shifted her cargo to the berth for the West Coast and will probably leave port Thursday.

German Ship Comes for Lumber.

Another charter for South African lumber arrived in the river yesterday, the German ship Lee Swarzenbek. The vessel is under charter to the Lee Lumber Company and will take out a cargo of probably 1,000,000 feet of 152' lumber burden. The rate is said to be 23¢ 5d.

Arrivals and Departures.

PORTLAND, June 1.—Arrived—Rose City, from San Francisco; Argyle, from San Francisco; Allamuck, from Coos Bay; Sue H. Elmore, from Tilamook. Departed—Allamuck, for Coos Bay; Sue H. Elmore, for Tilamook. Astoria, June 1.—Arrived—The mouth of the river at 5 P. M. Smooth sea, southeast; weather, cloudy. Arrived in and about 1:30 and left at 2 P. M. Arrived at 12 noon, from San Francisco. Steamer Clara, for Astoria. Arrived at 12 noon, from San Francisco. Steamer Clara, for Astoria. Arrived at 12 noon, from San Francisco. Steamer Clara, for Astoria.

THE CHINESE DOCTOR

This great Chinese doctor is well known throughout the Northwest for his wonderful and marvelous cures, and is today here, aided by all his patients as the greatest of his kind. He treats any and all diseases with powerful Chinese roots, herbs and barks that are entirely unknown to the medical science of this country. With these harmless remedies he guarantees to cure catarrhs, nervous, lung troubles, rheumatism, nervousness, all private diseases, and all ailments.

CUREMENT

"I claim to know a great deal about a few ailments, rather than a little of all human ills."

DR. TAYLOR, The Leading Specialist. MY CURES ARE PERMANENT.

I Cure the Cases That Others Cannot Cure

A bold statement, but just as true as it is bold. Not all cases that others fail to cure are curable by my methods, but fully 90 per cent of them are. The way is to use my Cuticura Remedies. So in your Cuticura will always be firm and warm friends. George F. Lambert, 139 West Centre Street, Albany, N. Y., February 26 and November 4, 1907."

YOU CAN PAY WHEN CURED

WHAT WEAKNESS IS AND HOW I CURE IT. "Weakness" is merely a symptom of chronic inflammation in the prostate gland, brought on by the improper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to its normal state, and this is accomplished promptly and completely without the use of internal remedies. My method is original, and entirely new. It is original, and entirely new. It is original, and entirely new.

VARICOSE VEINS.

A thorough cure without pain or cutting. Every case of Varicose Veins I treat by my superior method, and the following of resorting to surgery. In most instances it is even unnecessary to detain the patient a single day from his business. The treatment I employ is distinguished by its own, and can be had at my office only. Do not submit to the knife and hospital expenses, when a complete and permanent cure can be had without the loss of time, and without pain or cutting.

SPECIFIC BLOOD POISON.

Others dole the system with mineral poisons scarcely less dangerous than the disease from which they seek relief. To do by this treatment is to keep the disease from manifesting its presence upon the surface of the body. Under my treatment the entire system is cleansed. The last taint vanishes to appear no more. My method is original, and entirely new. It is original, and entirely new.

Vancouver Boat Again Fired.

VANCOUVER, B. C., June 1.—That efforts are being made to buy the fleet of coasting boats, appears from a blaze which occurred yesterday on the steamer Cassiar, when that vessel was on her way into port from the North. A month ago a fire was put out aboard the steamer Comox, but it was discovered in time to prevent serious consequences. Last week the Coquitlam took fire in an unexplained way, and was badly damaged. Three deaths occurred since the morning of the fire, as a result of the Coquitlam blaze, and the lives of a score of people were placed in danger.

French Artificial Silk.

The actual daily production of artificial silk amounts to about 44,000 pounds in France. About 20,000 hands are employed in the works manufacturing this material. It is exported chiefly to the United States and Germany, and it is reported that some is sent to Japan. This refers to the exportation of the thread and not the manufactured article.

Every Word Isn't Gold.

Exchange. Why so much talk? People do not pay any attention to 999 of every 1000 words you utter. The boilers of the turbine Mauretania, placed and to end, would measure 547 feet in length.

G.S.C. REMOVES

G.S.C. BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with broom acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S.S.S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S.S.S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.
