

NIGHT SESSIONS ON TARIFF BILL

Senate Will Hasten Action at Call of Aldrich in Spite of Bailey.

TEXAN TALKS OF THREATS

Lodge Pleads for Protection of Poor New England From Cheap Foreign Labor—Cotton Tariff is Reduced.

WASHINGTON, June 1.—After, in effect, receiving information from Chairman Aldrich that night sessions for the consideration of the tariff bill would be held, beginning with tomorrow, the Senate began consideration of the cotton-cloth schedule today. Smoot and Lodge, both majority members of the finance committee, were the principal orators, and both spoke in support of the committee provisions. Lodge spoke of the general policy of the Republican party with reference to tariff revision. He contended that the purpose of the party had been merely to revise the tariff as to protect American manufacturers against cheap foreign labor. He declared New England factories were returning only small dividends to their owners, and traced the general increase in the prices of commodities to the enlarged volume of gold in the country, rather than to the advances accruing from the protective system. The House was in session only 13 minutes today, adjourning until Thursday without transacting any business.

Call for Night Sessions.

Aldrich indicated his intention of presenting a resolution providing that, beginning Tuesday, the daily sessions should begin at 10:30 A. M., and continue until 11 P. M., with an intermission of 2 1/2 hours for dinner. Culberson, the Democratic caucus leader, objected, forcing the resolution over until tomorrow. Aldrich, however, gave notice that he would move a recess at 5:30 today until 10:30 A. M., tomorrow, with the intention of then asking for night sessions and the carrying out thereafter of the programme as indicated in his resolution.

Denies He Makes Threats.

During the discussion caused by his resolution, Aldrich stated that unless greater progress should be made during the next week, still longer hours would be necessary. Bailey characterized the remarks of the chairman of the finance committee as a "threat," but Aldrich declared that such was not the case, and in support of his declaration, called the Senate to witness the fact that there had been no effort to curtail debate on the tariff. Martin suggested that business might be accelerated by the earlier reporting of the finance committee's recommendations on hides, wood pulp, zinc, lumber and coal, to which Aldrich nodded assent.

Cotton Tariff Reduced.

Cotton minimums were reduced from 25 to 20 per cent ad valorem on suggestion of Aldrich, following which a clash ensued between the Rhode Island Senator and Deliber, when the latter attempted to secure an amendment replacing with ad valorem rates a line of specific rates on cloth not dyed or otherwise treated.

"ROASTED" BY BOTH SIDES

German Government Attacked for Giving Tariff Statistics.

BERLIN, June 1.—The charges made in Washington by various American Senators that the German government was endeavoring to influence tariff legislation in the United States by supplying official information regarding wages which, upon examination, proved them to be much higher than the wages attributed to German manufacturers in the hearing before the ways and means committee of the House, has caused a disagreeable impression in governmental offices here. This is especially the case in the Ministry of the Interior and the Foreign Office, where the information in question was prepared in reply to a request sent in by the State Department.

The German government has been subjected, during the last two months, to attacks by German trade journals for having supplied America with German trade secrets. This knowledge of German wages, it is alleged, made it possible to adjust the new tariff to a level where German goods could not be exported to the United States. The abstract of the Foreign Office's communication, through Ambassador Hill to the State Department, appeared in these dispatches March 29, and was later reproduced in the German newspapers. It brought savage attacks on the government for yielding to the "impudent demands of the Yankees" for official reports on wages, thus arming Germany's competitors with vital information.

The mass of reports was first assembled by the Ministry of the Interior, and then by the trade division of the Foreign Office. It was transmitted about March 27, and arrived at Washington about April 8. Some surprise is expressed here that for two months the material apparently did not reach the American Congress, or if it did reach either House it must have been pigeon-holed. The matter is likely to come up in the Reichstag.

FIERCE BATTLE WITH OFFICERS AT VANCOUVER.

Two Americans Are Held Without Bail After Row Over Lease Rights.

VANCOUVER, B. C., June 1.—E. R. Kinman and F. L. Gartley, two Americans, the latter a capitalist from New York, are in jail today, held without bail, as the result of a battle with the police today.

The prisoners represent a syndicate which proposes to erect an amusement park at Dead Man Island, which the city claims is a part of the public domain. The New Yorkers claim the island under a lease from the Dominion government granted 11 years ago.

This morning a platoon of police, headed by Chief Chamberlain, landed on the island and arrested Kinman under a warrant charging him with maliciously damaging the trees of a public park. Kinman was taken to the police station and released on \$1000 bail.

In company with Gartley he immediately returned to the island and, armed with clubs, attacked the police officers. Constable Kutny was knocked unconscious and another officer was knocked down before the two men were disarmed. They were hurried to the police station and locked in a cell.

Cleminson's Story of Being Chloroformed by Burglar Is Discredited.

HE LOVES ANOTHER WOMAN

While She Lay in Hospital, He Paid Daily Visits—Property He Declared Stolen Found in His House.

CHICAGO, June 1.—Dr. Haldane Cleminson today was formally booked for the murder of his wife, Mrs. Nora Jane Cleminson, who, he alleges, was chloroformed by burglars. The woman's stomach is in the hands of experts for chemical examination.

Chief of Detectives O'Brien stated that Dr. Cleminson's declaration that his wife had been chloroformed by burglars, and that he himself suffered from the poison, was utterly unworthy of credence. The money and spoons which the physician is quoted as having reported stolen were found in a closet of the house.

A woman to whom Dr. Cleminson is said to have sent flowers was found to be Miss J. M. Berg, 21 years old, a patient at the Chicago Union Hospital from May 20 to May 26. According to Dr. E. E. Zanghan, house physician at the hospital, Dr. Cleminson made almost daily visits to the hospital while Miss Berg was there, and left large bunches of flowers each time. It has been impossible to locate Miss Berg.

Dr. Cleminson admitted tonight his story in regard to a burglary was false and that he had deliberately hidden the silverware to make it appear more real.

REOPENS LIQUOR SHOPS

Haskell Acts on Rejection of Change in Dispensaries.

GUTHRIE, Okla., June 1.—Governor Haskell today issued a proclamation reopening the state liquor dispensary agencies that were established under provision of the prohibition law and closed last Fall, when a proposed constitutional amendment affecting the agency system was voted down. Under the proclamation agencies may be opened in towns of 2000 or more in county seats without regard to population.

We Secure the Great "Century" Distribution

We have just made an arrangement which enables us to present to the people of Portland and vicinity a remarkable literary and educational opportunity. It all comes about through the enterprise of that progressive magazine, The World's Work, which is just now making a vigorous and systematic National campaign to increase its circulation by adding a large number of desirable new subscribers. To do this quickly the magazine is offering the great ten-volume CENTURY DICTIONARY AND CYCLOPEDIA AND ATLAS as a supreme inducement, and is actually distributing the latest-revised, regular edition of the work—the very best edition published—at a price that cuts the original cost of The "CENTURY" in two, and on terms that touch the pocket very lightly.

The \$80 "Century" \$43.50 \$1 Down and Then Only \$2.50 Monthly

This great bargain is alone possible in connection with THE WORLD'S WORK. The "Century" is the standard authority of the U. S. Government. Over 3000 sets in Washington. The World's Work is \$3.00 yearly, which makes your "Century" cost only \$40.50.

What It Is and How It Helps

A Notable Literary and Educational Undertaking. The Century Dictionary and Cyclopaedia and Atlas represents many years of continuous labor and the expenditure of more than a million dollars before a single set was produced. Professor William Dwight Whitney, Ph. D., LL. D., was chosen as editor-in-chief. Under his direction each department of learning was given over to the care of the specialist whose knowledge of that special subject best entitled him to be chosen from the world of scholarship. The total number of contributors who helped build The "Century" exceeded 500. No work ever published in this country has such an array of scholars behind it.

Comprehends All Branches of Knowledge. The "Century" is so planned and prepared as to answer quickly the questions and meet the needs of everyone. It is not only the greatest dictionary and the best encyclopedia and the finest world-atlas, but also a library that sums up all existing knowledge in art, science, literature, history, biography, geography, trade, etc.

Delay Means Disappointment. All who are interested should place their order NOW. Come and see The "Century" set in our Book Store. We show several bindings, all on the same easy terms—\$1 down and \$2.50 monthly. This edition is the regular "Century" standard in presswork, paper and binding, and is guaranteed by The "Century" Co., the World's Work and The J. K. Gill Co. To accommodate out-of-town folks and others who cannot conveniently call, we will send, upon receipt of a postal, The "Century" Co.'s book of specimen pages, which fully describes The World's Greatest Reference Library, but it will be safer to send \$1 and thus make sure of a set. Remember, this is an offer for a short time only. Hundreds in other cities who delayed have been disappointed in securing sets. GET THE "CENTURY" NOW. IT WILL SOON BE TOO LATE.

Ten Massive Volumes, Full Buckram Binding, 310 Maps, 8000 Illustrations, 150,000 Encyclopaedia Subjects, 200,000 Geographical Entries, 300,000 Quotations, 500,000 Encyclopaedic Dictionary Definitions. Size of volumes 12x9x2 1-2 ins.

OUR PART IN THIS ENTERPRISE. Recognizing the educational importance of the undertaking, we naturally desired that the distribution for Portland and vicinity should be made through our Book Store, justly claiming that through us the limited allotment of this great library of reference and THE WORLD'S WORK would be placed to the best advantage. We are conducting the distribution at a merely nominal charge per set, to cover the cost of handling and delivery, but chiefly to popularize our store, and continue it in public favor, by helping to place the "Century" within easy reach. We only regret that the apportionment of the greater part of the edition admits of
