the Rose Festival mot yesterday after-noon and furthered plans for the spec-tacular parade which is to usher in the big demonstration. General Finzer, grand marshal of the street pageant, will cover the line of march of the procession this afternoon with Superin-intendent Cooper, of the Portland Railway, Light & Power Company. EAST MORRISON TO BE READY

Thoroughfare to Be Completed for Decorated Automobile Parade.

The East Side Business Men's Association has been assured by the contractors in charge of the improvement of Rast Morrison from Water street to Grand avenue that the payement will be in place by the close of this week. The payers have been dilatory and have apparently been trying to shirk the payers have been trying to shirk the payers are the contraction. The pavers have been dilatory and have apparently been trying to shirk responsibility for the early fulfillment of their contract. They would probably have been able to "pass up" the job entirely until after the Festival if the East Siders had not forced them to become active and live up to the terms of their contract.

One of the conditions which was required in order to route the great automobile parade over the East Side as well as through the West Side district, was that all streets over which the motor cars might run would be put into shape. Unless East Morriosn is properly repaired, this parade, the long-

With the street in question dressed up and repaired, the motorcar pageant up and repaired, the motorcar pageant will be able to negotiate the 25 or 30 blocks across the river which are included in the line of march.

This parade will be several miles in length and will cover close to 25 miles of route on both sides of the river.

the Jefferson street depot.

The little fellow met his death while watching a crowd of his associates swimming in the river at 3 o'clock yesterday afternoon. He ventured too far out on a plank which hung over the river and was precipitated into the water. The was precipitated into the water. The boys in the river became scared at his cries and swam to the bank. Two men in a boat only a short distance from the drowning lad gave no heed to his

OVER THE FENCE Neighbor Says Something.

The front yard fence is a famou council place on pleasant days. Maybe to chat with some one along the street, or for friendly gossip with next door neighbor. Sometimes it is only small talk but other times neighbor has something really good to offer.
An old resident of Baird, Texas, got some mighty good advice this way once.
He says:

Drinking coffee left me nearly dead with dyspepsia, kidney disease and bowel trouble, with constant pains in my stomach, back and side, and so weak

I could scarcely walk.

'One day I was chatting with one of my neighbors about my trouble and told her I believed coffee hurt me. Neighbor said she knew lots of people was neighbor and she to whom coffee was poison and she pleaded with me to quit it, and give Postum a trial. I did not take her advice right away but tried a change of climate which did not do me any good. Then I dropped coffee and took up Postum.

"My improvement began immediately and I got better every day I used

"My son who was troubled with indi-gestion thought that if Postum helped me so, it might help him. It did, too, and he is now well and strong again.

"We like Postum as well as we ever liked the coffee and use it altogether in my family in place of coffee and all trees well." "There's a Passes" Band keep well." "There's a Reason." "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human

reported, but a similar one may be expected at any time, say people who live in that section of the city. This condition is a direct result, it is said, of the closing of the free swimming baths.

While the search for the body of young Tramblay was in progress a crowd stood on the bank and watched. A state of

For a time it looked as if no search for the body would be made last night. H. Tramblay, father of the boy, and an older son are at work in Vancouver. The boy's mother, a slight, dark-eyed French woman, was prostrated with grief at the news of her son's death. With a few neighbor boys an older brother, who is about 14 years of age, rigged up a hook and pole and went to the place where Edward was seen to sink and after searching for an hour and a half the body was found.
