Rapid Change of Directors of United Copper Sets Baglin at Liberty.

### NO LONGER IN CONTEMPT

Grand Jury Evidence Shows How Heinze Spirited Away Books. Old Directors May Contest the New Election.

NEW YORK, June 2-Affairs of F. Augustus Heinze and the United Copper Company, which have kept the Federal authorities busy because of the disappearance of the company's books needed by the grand jury to clear up loans alleged to have been made by Heinze while he was head of the Mercantile Bank dur. ing the panic of 1967, were clarified so what today, and yet seemingly compli-

George Baglin, second vice-president of the United Copper Company, and secre tary to Heinze, who was placed in the Tombs yesterday for contempt of court, was released today. It is understood this action followed his removal from the board of directors. A meeting of the stockholders was held and this resulted in the election of a board in which Baglin's name does not appear. Heinze was re-elected a director, as was Stanley Gif-ford, of New York, and the new men were

chosen to replace seven old directors, in-cluding Baglin and John MacGinnis, Ches-ter Glass, Stanford Robinson, G. Abel, W. J. Curtis and Collis Warfield. F. Augustus Heinze was not present, but his representative, holding a proxy for 240,000 shares, was on hand, and it is presumed therefore that the board is un-der Heinze's control. der Heinze's control.

While the stockholders were meeting, the disappearance of the books was being further aired before Judge Lacombe in the United States Court. Judge La-combe agreed early in the day to give Sanford Robinson, who, as a director, faces prison for alleged contempt, until

The grand jury minutes were read, giving some details of Baglin's testimony concerning the disappearance of the books. This showed in effect that on May 19 he had been instructed by Helnze and Robinson to find the janitor and arrange to remove two trunks that had just been taken outside. He did so, and the trunks were removed. They contained the books of the company sought by the grand jury. Where they were taken to Baglin said he did not know. Robinson, it will of the company sought by the grand jury. Where they were taken to Baglin said he did not know. Robinson, it will be recalled, refused to throw any further light on the whereabouts of the books, on the plea that he was privileged to take this attitude because of his position as counsel. It is this stand which threatens him with contempt.

### Old Directors May Contest.

The question of the legality of the election of new directors was raised to-taight, and it was reported that mem-bers of the old board would meet to-morrow, maintain that they were still tim duly accredited directors, and vote to oust Heinze from the presidency of

SEATTLE, June 2.—(Special.)—"The investigating committee met with me this morning and we discussed the work it has performed up to this time," said Governor Hay in discussing his decision to convene the Legislature in extraordinary session. "Attorney-General Bell met with us and, after going over the committee's work and in view of the disclosures made in the administration of the Adjutant-General's office prior to the appointment of General Lamping, I am convinced a special session is necessary to determine what future action shall be taken in order to straighten out the affairs of certain departments inves-

decided the committee should continue the work, and it is the present intention to visit all of the state institutions for the purpose of checking them up. It is gratifying to me to be able to say that almost without exception requests have come from state officials for an investigation of their offices. The committee therefore will make its investigation complete and I personally favor the perpetuation of the committee or at least its retention, for an indefinite period. "The committee will visit the Washington State College at Pullman next Wednesday week. Senator Fishback, a member of the committee, left for Olympia today to obtain all vouchers issued on account of the Washington State College during the past several years and the affairs of that institution will be thoroughly scrutinized. The visit to the college by the committee will be made on a date convenient to Mr. Bryan, the president of the institution. Warden Reed, of the State Penitentiary, has asked the committee to visit that institution and it is planned to go to Walla Walla the early part of next week.

He said that he will bring a mandamus suit against Judge Webster and Commissioners Lightner and Barres in the Circuit Court tomorrow to compel them to pay him his salary. Judge Olson admitted that he intended for a time to send to County Auditor Brandes a letter telling him that he would be held personally responsible if he paid the salary to Judge Webster while the latter was out of town on private law practice, but he said last night that he had decided, after consulting his attorney, John F. ### AT THE VAUDEVILLE THEATERS.

Elizabeth Murray-Orpheum. It seems that there must be a best every-thing—the best vaudeville in the world is seen in Orpheum houses and the best woman singer of Irish and negro songs on the vaudeville stage today is beyond question of a doubt Miss Elizabeth Murray, now at the Orpheum. Nothing coarse about Miss Murray's performance.

Big Bill at Grand.

From the rise of the first curtain till the pictures there is not a dry moment at the Grand this week; the whole show goes with a vim and is one that would please the most skeptical. Weston and Young in "The New Reporter." is one continual laugh from start to finish and the work done by the great Nadje is nothing short of marvelous.

Extremely Clever Vaudeville.

The Paniages Theater is presenting the public with one of the best shows of the season. This week every act on the programme is away above the ordinary. The Saytons, European novelty symnasts, presenting their original Pracht alligator scene with apparently real live alligators crawling about the stage, are creating a sensation.

New Bill at Star Pleases.

"Oliver Twist," with Miss Elita Proctor
Otis as Nancy Sykes, accred another hit at
the Star yesterday. "Saved by a Waif," a
very pathette picture, also pleases. The
Star's educational film this week is "Tambourfue-Making." It shows the complete
manufacture of the tambourine and its uses.
The comedy is supplied by "A Crippie's
Marriage" and "The Good Token." Dow
Brink, vocalint, and Defrej, violinist, give
their usual good performances.

They Join Gore in Concerted Tilt at Aldrich Tariff-Gore Quotes Figures Which Worry New England Senators.

WASHINGTON, June 2 .- With the adoption of a resolution providing for day and night sessions beginning tomorrow, the Senate heard today a suggestion of a policy for limiting dilatory motions which caused an earnest protest from Bacon and others. The Vice-President, basing his action upon a precedent made in the latt Congress, when the Aldrich-Vreeland fair currency bill was under consideration, held that attention could not be called to the absence of a quorum if the Senator occupying the floor declined to yield for that purpose, Bacon declared this was one of the revolutionary rulings when the currency bill was under consideration and that under it there would be serious abuse of rules. He announced his intention to obtain a full consideration of this question by the introduction of a resolution to be considered by the committee on rules.

Raising Dingley Rates.

A long speech dealing with the pledge of party leaders, with respect to a provision of the tariff, was begun by La Follette and will be continued tomorrow. By numerous quotations he maintained that no question could be raised as to the pledge of the party for a revision downward and declared that before he should conclude his speech, he would demonstrate that on the whole, the pending bill placed the customs duties above the Dingley rates. Since the enactment of the Dingley law and until 1304, he said, the control of trusts had been extended to \$664 plants with a capital of more than \$26,000,000,000.

Nelson quoted numerous comparisons between the existing laws and the pending measure, with the intention of showing that in the cotton schedule, the rates had been raised from 20 to 50 per cent above the Dingley law by the substitution of specific for ad valorem duties.
