# **OLSON BEGINS WAR** ON COUNTY COURT

Justice of Peace Obtains Mandamus Writ in Suit for Pay.

#### WEBSTER'S TRIPS HINTED

Judge Gatens, Whose Salary Is Also Withheld, Gives Defendants Ten Days to Show Cause for Coin Hold-up.

The threatened mandamus suit of Justice of the Peace Fred L. Olson against the County Court was filed by Attorney John F. Logan yesterday. Circuit Judge Gatens, whose salary is being withheld by the County Court pending litigation at Salem. last night signed an order directing Judge L. R. Webster and Com-missioners F. C. Barnes and W. L. Lightner to order County Clerk Fields to fraw a warrant for Justice Olson's salary at once, or show sufficient cause for refusal in court at 9:30 o'clock June 18.

Justice Olson's salary was withheld on the ground that he should have turned into the county all marriage for the county all marriage. into the county all marriage fees he re-

ceived.

The phrase in the petition for the mandamus, "the plaintiff was not absent from his office during the month," is significant when it is remembered that Judge Webster, against whom the writ is directed, along with Commissioners Lightner and Barnes, was absent from town on private law practice for upwards of three weeks last, month, the probate business of his court becoming congested in the meantime.

meantime.

a Olson contends that his salary of \$200 a month is regulated by law, and that the County Court has no right to withhold the account after it has been approved by the Auditor. With Attorney Logan, Dan J. Malarkey, Claude Strahan and F. H. Whitfield will appear as council for Olson.

MURPHY HOPES FOR VICTORY IN SEATTLE REGATTA.

Several Experienced Oarsmen Will Try Out With Old Men for Position in Shell.

Since Dan Murphy's arrival in the city the Portland Rowing Club has taken a new interest in rowing, and under the coaching of the well-known trainer the The Multhomah County grand jury for June will begin its deliberations tomorrow. Six of the jurors were drawn yesterday. F. O. O'Neill was drawn, but he complained that his eyesight is had and was excused from jury duty by President of the property of the property of the other six chosen yesterday are: F. M. Varner, F. H. Kearney, Arthur Schlegel, J. B. O'Shea, E. E. McClintock and S. E. Pierce. Judge Bronaugh excused them until Wednesday morning, when they will receive instructions as to their duties and select a foreman.

Of 120 jurors subpensed by the Sheriff only 49 remained to do jury duty when those who had valid excuses had been permitted to go. F. J. Smith told Judge Bronaugh that his time is work to serve on "a small jury." he said. Judge Bronaugh excused him.

But no so with T. E. McCultom, employed at the North Pacific Terminal Yards. He told the court that he had been threatened with discharge if he served on the jury. The court secured the name of the general yard foreman, and will have a talk with him.

J. Fremont Bow, of Nampa, Idaho, is somewhat chagrined over the fact that he was given a rather peculiar write-up by Scattle papers on being the first person to enter the gates of the Alaska-Yukon Pacific Exposition. It was stated that he did not appreciate the honor, but he resents this allegation. He was in Portland yesterday, being interested in the opening of the Rose Festival.

"I rather resent the style in which I was written up," said Mr. Bow. "I highly appreciate the honor of being the first person to pass through the turnstiles J. V. # THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S. S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and stengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice or persons of any age. #### SIMPLE WASH CURES ECZEMA

Why Salves Fall While a Simple Liquid Has Accomplished Thousands of Cures.

It is now thoroughly established among the best medical authorities that eczema is purely a skin disease, due to a germ, and curable only through the skin. It is not a blood disease at all; in fact, thousands of people suffer with skin disease and are perfectly healthy otherwise, and thereby prove they have no diseased blood.

Smeary salves cannot reach the germs because they do not penetrate the skin. The only way to reach the germs is by means of a penetrating liquid.

Such a liquid can be obtained by simply mixing ordinary oil of wintergreen with thymol, glycerine and other healing agents. This compound, known as D. D. D. Prescription, stops the itch instantly—and the cures all appear to be permanent. In fact, it took thousands of cures, case after case, before the best scientific authorities were convinced of the absolute merit of this remedy. D. D. Prescription kills the germs in the itching skin. Its effect is seen within one minute after the first application. We especially recommend D. D. D. Soap in connection with the treatment. Woodard, Clarke & Co.; Skidmore Drug Co.; J. C. Wyatt, of Vancouver; Howell & Jones of Oregon City, indorse D. D. D. Prescription.

WHY\_

The grains used in the distillation of W. H. McBrayer's Cedar Brook are especially selected with great care by experts who have made distilling a life study. Mashed in small old-fash-

ioned tubs, the same as in 1847. After its distillation it is transferred to our U. S. Bonded Warehouse on the premises and stored in specially made white oaken charred barrels where we allow it to remain for 8 years to become thor-oughly matured, thereby attaining the highest point in purity. This is of vital im-portance and increases the cost of production of W. II. cost of production of W. H. McBrayer's Cedar Brook, bottled in bond.

BECAUSE \_\_

The distillery, located in Anderson County, the heart of the Blue Grass region where famous limestone springs abound, makes this whiskey the peer of all

others. After W. H. Mc-Brayer's Cedar Brook Whiskey has been in bond 8 years, under the superofficers, it is reduced to 100 proof by using pure limestone water. It is then bottled in bond, a little "Green Stamp" placed over the neck of the bottle—being U. S. Government guarantee of its integrity—thereby insuring to purchasers a whiskey which is justly regarded as the "Flower of Kentucky."

# I CURE

I have treated men's diseases only for twenty-five years, and one year of my practice represents a greater volume of good experience than several years brings the average physician or specialist. In explanation of this statement will say that I have been the busiest specialist upon this Coast, curing several cases to other physicians' one. I be-gan my practice with accurate knowledge concerning men's diseases, and my patients have received thoroughly scientific treat-ment. I have not only treated an unusual number of cases, but have treated them rightly, thus acquiring an abundance of the very best kind of experience experience of positive value to those I treat and experience that enables me to offer cures with certainty of effecting them.

My ability to cure those derangements commonly termed "weakness" has done more men's diseases than any other thing. I was the first to discover that "weakness" is mere ly a symptom resulting from a chronically inflamed prostate gland, and that to remo this inflammation is the only method of permanently restoring lost vigor. To this day my system of local treatment is the only scientific one in use. In years I have not failed to effect a complete cure. There are two reasons for this. First, the unequaled effectiveness of my method; second, because I attempt to cure no incurable cases. My long experience enables me to to recognize those that have passed into an incurable stage, and I treat only such as I know I can

The Leading Specialist

If I did not know that I could thor-oughly cure any allment of men I could not afford to agree that you pay me after I cure you. Neither could I afford to undertake a cure for the low fee I charge.
