

# CALHOUN TRIAL TO BE FINISHED SOON

Indications Now Are That Case Will Be Submitted to Jury Within Fortnight.

22 WEEKS USED UP SO FAR

Attempt Made by Defense to Repudiate Testimony of Prosecution Takes Up Whole Day—"Fake" Raid Is Described.

SAN FRANCISCO, June 7.—The 22d week of the trial of Patrick Calhoun opened today with a session devoted to evidence corroborative of testimony previously introduced. Samuel F. Scott, a witness for the prosecution, who alleged that he had been induced by an employee of the United Railroads to manufacture evidence favorable to the defendant, withstood a severe cross-examination during the day, as did Ray C. Schindler, one of the men who participated in raids upon the office of the United Railroads when stolen documents are alleged to have been found in the desks of officers of the corporation. Predictions relating to the length of the long trial were shattered today, when the prosecution introduced representation of matters already introduced. It is the general belief that the case will be submitted to the jury within a fortnight. Since the prosecution outlined the actual case against the president of the United Railroads, an entire month has been devoted to proof of an alleged conspiracy on the part of the defendant and his associates, who were charged with attempting to destroy or manufacture testimony.

# GRAFT AMONG DOCTORS

COMMISSION ON SPECIALISTS' FEES IS DENOUNCED.

Academy of Medicine Gives Heed to Scheme for Salaries to Poor Men's Doctors.

ATLANTIC CITY, N. J., June 7.—Payment of commissions by specialists to general practitioners who call them in for operations or advice was characterized as "graft, pure and simple," by Dr. E. Gerd Edwards, of La Junta, Colo., today before the American Academy of Medicine, meeting here in annual session. Dr. Edwards also condemned the practice of many specialists who performed operations and then have their patients placed under the care of the local practitioner, who "receives the blame if they die and none of the credit if they live." Eminent physicians speaking at the closing meeting advocated "contract practice" by physicians as a solution of the problem of securing proper medical attention for wage-earners at small cost. The plan presented favors small monthly payments by clients of the contract physician, who is expected to attend them in case of illness without extra charge. Dr. L. Benedict, of Buffalo, said that under the present system the poor, unable to pay doctors' bills, often die calling a physician until the disease was beyond easy cure. He said that the contract physician plan would secure the doctors against loss in unpaid bills and guarantee the young physician a living income. James H. McBride, of Pasadena, Cal., was elected president.

# BROTHERS HOLD REUNION

Seven Coopers Meeting in Annual Gathering at Independence.

INDEPENDENCE, Or., June 7.—(Special.)—The annual reunion of the Cooper brothers was held at the home of J. S. Cooper today. W. H. Cooper, of Stayton, was the guest of honor, it being his 75th birthday.

Once a year the seven Cooper brothers gather together, renewing the recollections of their past life. The average age of the seven is 65 years. They are William H. Cooper, Daniel Jackson Cooper, James Shelby Cooper, Jacob Calvin Cooper, Riley Davis Cooper, John Emerson Cooper and Elbert Woods Cooper, the last two being twins.

# HAWAIIAN STRIKE BROKEN

Japs Return to Work at Old Scale, Though Others May Quit.

HONOLULU, June 7.—All of the Japanese strikers on the Ewa plantation and a portion of those at the Waialua returned to work today at the old wage schedule. It is feared that the trouble is not entirely over, however, as it is now reported that the men on the Kaula plantation will walk out.

# EMBEZZLER GETS APPEAL

Woman Convicted of Robbing Hospital Funds May Escape Sentence.

DENVER, June 7.—Mrs. Elestra H. Baird, convicted of misappropriating about \$2000 of the funds of the Children's Hospital Association, while she was acting as treasurer of that institution, was today sentenced to serve from 15 months to three years in the penitentiary. The court granted a stay pending an appeal.

# WESTON TRAMPS IN RAIN

Reaches Rawlins, Wyo., After Hard Day's Work.

RAWLINS, Wyo., June 7.—Edward Payson Weston, the pedestrian, reached Rawlins at 8 o'clock tonight, after walking 40 miles, part of the distance in a heavy rain.

# MORE COAST MEMBERS

Lorimer's Election Opens Way on Rivers and Harbors Committee.

OREGONIAN NEWS BUREAU, Wash., June 7.—The election of Representative

representative Lorimer, of Illinois, to the United States Senate creates another vacancy on the House committee on rivers and harbors, making seven in all on the Republican side. Great pressure is being brought to bear upon the Pacific Coast delegations to secure representation on this committee, because of the present and growing importance of the waterways of the states bordering on the Pacific. California is now the only Coast State represented, McClachlan being her member. The election of Jones of Washington to the Senate took away the only other Coast member. With so many vacancies to be filled and with such great pressure from the Coast, it is possible that both Oregon and Washington may be given representation, when Speaker Cannon makes out his list. Hawley is an active candidate from Oregon, and Humphrey is the Washington aspirant. There are 13 Republican members and three places accorded to the Pacific Coast would not be out of proportion. Whether the Speaker will be willing to hear from the Pacific Coast is unsettled. On the Senate committee on commerce, however, corresponding to the House committee on rivers and harbors, all three Coast states are represented, by Piles, Washington; Bourne, Oregon; and Perkins, California.

# ASK PROFESSOR TO QUIT

BAPTIST PASTOR SHOCKED AT BOOK ON RELIGION.

In Course of Stormy Meeting, Chicago Ministers Also Say Unitarians Bad Lot.

CHICAGO, June 7.—(Special.)—Demand that Professor George Burman Foster, of the University of Chicago, resign from the Baptist ministry was made today at a special meeting of Baptist ministers of Chicago in Stetson Hall. The action came as a result of the publication of Dr. Foster's book, "Functions of Religion." The motion demanding the resignation of the university professor was voiced by Rev. Johnston Myers, of the Emmanuel Baptist Church, after those present had been startled by an address of the Rev. W. A. Matthews, in which he declared that Christ should return to earth he would visit the Unitarian Church and call down upon its members. The meeting became one of the stormiest in recent history of the Baptist Church. No action was taken on the demand for resignation of Professor Foster, because the constitution of the ministers' organization provided that such a motion must elapse before official action of such nature can be taken.

# LA GRANDE LAND FLOODED

Sugar Company Suffers Considerably From Overflow of Creek.

LA GRANDE, Or., June 7.—(Special.)—The rains and the hot weather of the past week have resulted in the flooding of the Tule Marsh, near Hot Lake, and the farms of the Amalgamated Sugar Company and several wheat farms. The flats are inundated to a depth of from 12 to 14 inches. Manager Samuel Star, of the sugar company, stated last night he considered the danger point past, but that until the waters abated he could not estimate the damage that had been done. Catherine Creek, the source of the flood, is higher than the neighboring flats, and consequently is hard to keep in bounds in the high-water season.

# PRAIRIE CITY MAN KILLED

Train Mangles Oliver Dotson Three Miles From Arlington.

ARLINGTON, Or., June 7.—(Special.)—The body of Oliver Dotson was picked up on the O. R. & N. tracks, about three miles east of Arlington, yesterday evening. It was terribly mangled, showing that a train had passed over the body. It is supposed that he had been riding on a brake beam of some train and fell under the wheels. The engineer of train No. 4 saw the body and stopped the train, his crew picking up the remains and taking them to Arlington. Dotson was a resident of Prairie City, Or.

# MISS FLOY DUMDI QUEEN

Vancouver Contest In Float for Rose Festival Ended.

VANCOUVER, Wash., May 7.—(Special.)—The contest under the auspices of the Vancouver Commercial Club for the

Miss Floy Dumdi, Chosen Queen of Vancouver Float for "Spirit of Golden West" Parade.

selection of a queen of the Vancouver float for the Portland Rose Festival closed tonight with Miss Floy Dumdi, the winner.

# HOQUIAM SENDS ANIMALS

Wild Cats and Elk Sent to Fair and Others Are Hunted.

HOQUIAM, Wash., June 17.—(Special.)—Three live wildcats, two female elk and one bull elk left today for exhibition at the Seattle fair. Two large cougars were killed near here recently and traps are set in the hope of obtaining a live specimen for exhibition in Seattle. The largest of these cats recently killed measured 4 feet 4 inches from tip to tip.

# WHISKY IS WHISKY

Solicitor-General Enlightens Taft on Legal Point.

COLORED WHISKY IS O. K.

But Colored Something-Else Can Never Be Whisky, No Matter How Much It Tastes Like the Real Stuff.

WASHINGTON, June 7.—Lloyd V. Bowers, Solicitor-General of the United States, today submitted to President Taft his opinion as to what the term "whisky" means in law. Solicitor-General Bowers holds that the public does not consider that added coloring or flavoring matter can make whisky out of what otherwise is not whisky. Whisky is regarded generally and naturally as having a flavor and properties of its own. "On the other hand," he said, "the mere addition of harmless coloring or flavoring matter to what is previously whisky does not destroy its whisky character, unless such addition unduly dilutes or affects the essential properties of the whisky." A mixture of whisky with alcohol, or neutral spirits, is entitled to the name whisky. Mr. Bowers holds, provided the mixture retains a substantial amount of by-products in proportion to the volume of the mixture, Bowers says the addition of alcohol to whisky is not the introduction of a foreign substance, but is merely an enlargement of the proportion of one proper constituent. It is merely a form of dilution, just as the addition of water is. President Taft authorized the opinion of Mr. Bowers to be made public but announced no opinion himself because it was his desire to hear further testimony taken from what are known as "straight whisky" distillers.

# SOLONS LOOK INTO CHARGES

Take Up Cases of Devlin and T. Cader Powell in Committee.

WASHINGTON, June 7.—The Senate committee on Judiciary today considered charges that have been filed against Robert P. Devlin, renominated for United States Attorney for the district of California, and of Thomas C. Powell, renominated for marshal for the second district of Alaska. The charges against Devlin grew out of a prosecution of a land fraud case in which the defendant was acquitted upon what the Superior Court found was perjured testimony. The charges against Powell are that while serving as clerk of Multnomah County, Oregon, a shortage was found in his accounts. It is shown that he returned the amount of the alleged shortage, and that he has served four years in his present position in Alaska in an entirely satisfactory manner.

# TAR AND FEATHER COAT

WOMAN AND MALE COMPANION URGENTLY TREATED.

They Promptly Cause Arrest of Five of Mob, Not Ashamed of Strange Garb.

PITTSBURG, June 7.—Fifteen masked men took Mollie Ridge from her home in a suburb early today, stripped and beat her, dressed her in tar and feathers and threw her into a stream. H. O. Wright, who was in the house with the woman, was given like treatment. Such inconvenient apparel as tar and feathers did not, however, prevent the unlucky pair from appearing before Justice McKean later in the day to swear out warrants for their unjust callers. As a result five men were arrested tonight, including a brother-in-law of Wright. The woman insists that other warrants will be issued. She had been warned, it is said several times to leave the suburb, but could not see until today why she should.

# PROBE READY FOR COLLEGE

Investigating Committee at Pullman Ready for Work.

PULLMAN, Wash., June 7.—(Special.)—The investigating committee of the Washington Legislature, composed of Senators Fishback and Egan and Representatives Taylor, McMaster and Hubbell, are here to begin the investigation of the college, which was to have commenced Wednesday, but which has been set a day earlier at the request of President E. A. Bryan. The college Regents, J. J. Brown, of Spokane; F. J. Barnard, Seattle; and Foster McGregor, are in town tonight. Lee A. Johnson and Dr. A. H. Anderson, the other members of the Board, are expected tonight or tomorrow. Brewer's wife and daughter were severely burned during the fire, and later Mrs. Brewer became prostrated with exhaustion and had to be cared for by neighbors. Aside from the loss of his home, Brewer's orchard, most of his chickens and several stands of bees were lost. The damage amounts to more than \$1000.

# FARMHOUSE IS DESTROYED

F. W. Brewer, of Castle Rock, Suffers Loss in Noontime Blaze.

CASTLE ROCK, Wash., June 7.—(Special.)—Shortly after noon today fire destroyed the farmhouse, barn and outbuildings of the home of F. W. Brewer, about a mile below this city, across the Columbia River. Mayor Robin, of this place, accompanied by several men, hurried to the scene of the fire to give aid, but arrived too late to be of service. Brewer's wife and daughter were severely burned during the fire, and later Mrs. Brewer became prostrated with exhaustion and had to be cared for by neighbors. Aside from the loss of his home, Brewer's orchard, most of his chickens and several stands of bees were lost. The damage amounts to more than \$1000.

# DOCK FALLS; ELEVEN DIE

Excursionists Crowd on Small Pier and Cause Its Collapse.

MANDEVILLE, La., June 7.—Eleven bodies have been recovered from Lake Pontchartrain at the scene of Sunday's collapse of a small pier upon which scores of excursionists had crowded to board the Margaret. So far as can be ascertained, no other persons are missing, but searching parties continued to drag the lake. The responsibility for the catastrophe

TWO ARE KILLED IN MINE Explosion of Powder Fatal in Cornucopia District. BAKER CITY, Or., June 7.—Robert N. Betts, manager of the Union Companion mine in the Cornucopia district 75 miles from Baker City, left this city this morning at 4 o'clock in company with Coroner Ison in answer to a message from the mine stating that two miners, Lishman and Anderson by name, were killed yesterday afternoon by an explosion which occurred underground. The miners were working in a drift and had several holes drilled preparatory to setting off a shot.
