

HILL'S PROMISE IS TURNED DOWN

Spokane Inquisitors Not to Be Given Documents in Case Against Gordon.

DIRECTORS ISSUE LETTER

Declare They Have Nothing Which Would Be of Value to Jurors, and Refuse to Allow Company Documents Out of State.

ST. PAUL, June 9.—Louis W. Hill, president of the Great Northern Railroad, this afternoon gave the Associated Press the first authentic statement of the position of the Great Northern Railway Company relative to demands recently made upon it by the grand jury of Spokane County, Wash.

out the Northwest, and then only by the faculty taking starvation wages. The representation from the different counties in this year's class is as follows: Multnomah, 3; Clatsop, 2; Tillamook, 5; Yamhill, 6; Washington, 2; Polk, 3; Douglas, 2; Clackamas, 3; Lane, 3; Malheur, 1; Hood River, 2; Marion, 2; Baker, 1; Union, 1, and the class roll is as follows:

The class sermon will be delivered on Sunday, June 13, and on Monday will be the usual field sports, the closing assembly of the students, and at noon the president's breakfast to the class, and the evening will be occupied with the joint programme of the literary societies. Tuesday will be given to the tennis tournament, faculty reception and class day exercises, with a concert in the evening. The graduation of the class will occur Wednesday, and the address to the class will be given by Dr. J. R. Wetherbee, of Portland. The business meeting of the alumni is expected to be held at the hotel, and plans will be laid for the continuation of the association during the next year that it is now expected this school will be closed.

ST. PAUL NOT IN DEAL

TRANSCONTINENTAL LINE TO FIGHT BIG COMBINE.

Road Will Make Independent Rate From Tacoma Terminals to Eastern Points When Open.

CHICAGO, June 9.—(Special.)—The Chicago, Milwaukee & Puget Sound Railway Company, which is the Pacific coast extension of the St. Paul system, has decided to become a free lance with respect to traffic, and with that end in view has refused to join the Transcontinental Freight Bureau.

This bureau controls the making of transcontinental freight rates, and is said to be largely dominated by the interests. The action of St. Paul officials is taken to indicate more or less of a breach between that road and the independent freight carriers.

After a conference at the White House yesterday between President Taft and Senator Aldrich it was said that the finance committee would consent to placing a 2 per cent tax upon the net earnings of corporations if it supported the income tax amendment would accept it and withdraw their proposition.

By an order of the Senate the income tax proposition will come up tomorrow for a vote, but in view of the unsettled condition a motion will be made to postpone action. It is expected that Senator Bailey will protest vigorously against this delay. In view of the situation that remains before the date popularly fixed in the public mind for adjournment of the Senate chamber, it is declared, the advocates are not inclined to support a vote at the present session, if the proposition is referred to the judiciary committee.

So far as the pending tariff bill is concerned, some Republican leaders fear that any plan to tax the net earnings of corporations might be hailed as a Democratic idea, for the reason that Daniel has pending an amendment to do that very thing.

DINGLEY WOOL RATE REVIVED Senate Votes Down Amendments.

WASHINGTON, June 9.—The woolen schedule of the tariff bill was still under consideration by the Senate today when the recess for dinner was taken. The committee amendment increasing the rate on wool to 20 cents and other waxes from 20 cents to 30 cents was adopted by a vote of 40 to 30. This was a finance committee change and the committee scored its usual majority.

Discussing an amendment increasing the House rates on woolen rags, mungo and flecks from 6 cents to 10 cents a pound, Warren and Smoot insisted that the lower rate would displace pure wools with shoddy in the making of American woolen cloth for clothing.

Dolliver said he wanted the duty high enough to keep the organization of a "rag trust." The amendment was agreed to by Dolliver levying a duty on wool advanced from the amount of 20 cents to 30 cents a pound, when valued at not more than 40 cents a pound, and 35 cents when valued at more than 40 cents, together with an additional ad valorem duty of 20 per cent in place of a duty equal to that imposed upon manufacturers of wool, was defeated by a vote of 42 to 23.

Dolliver also offered a substitute for section 37 providing for a duty of 27 1/2 cents a pound on yarns valued at not more than 40 cents and 23 1/2 cents a pound on yarns valued at not more than 40 cents, together with an ad valorem duty of 35 per cent.

Woolen Mill Men Fooled. Discussing this substitute, La Follette read telegrams appealing to him to support the committee's schedule on wools as of equal interest to wool growers and the duty on wool. He said these telegrams were signed by owners of small woolen mills and all of them read alike. "Because," retorted La Follette, "they have been fooled into signing such telegrams and did not know what they were doing."

The Senator from Wisconsin is probably a judge of fooling business," replied the Wyoming Senator.

During an acrid colloquy between the Senators from Wyoming and Wisconsin, La Follette declared: "I want to believe that there are men on this floor who do not know the interests they are serving."

East Becoming Enlightened. Asked as to the results of his campaign of enlightenment, La Follette, showing much feeling, said: "They have been pretty good. When I came here I stood alone, and now there are a dozen who stand with me."

La Follette continued: "Let me tell the Senator from Wyoming. The lines will be broken not only in the middle and extreme West, but in the East as well. I think I know what I am talking about."

Another Row With Warren. With 46 Senators present La Follette resumed the floor at the night session, taking up the compensatory duty of the woolen schedule. He read from a report on the American woolen industry by the British Tariff Commission in 1905 to the effect that conditions in the United States were restored. It declared also that the difference in the wages worked both ways and the difference in the cost of production for the increased efficiency of labor in America.

La Follette endeavored to show that the cloth upon which was assessed a compensatory duty upon the ground that it contained four pounds of wool to the yard did not as a rule contain that much wool, but that the tariff was based on La Follette's authority, asked if it were not true that it took more than six pounds of wool to the yard of cloth.

A heated argument resulted, in which La Follette declared that he was not in the habit of juggling facts.

Warning to Majority. "The Democratic party is not going to neglect the issue," said La Follette in warning the members of the majority of the house of the danger which he maintained a re-enactment of the Dingley rates would have on the Republican party.

"And if it does, I know some progressive Republicans who will not," he added.

La Follette asked if the members of the finance committee intended to have any vote taken tonight. He suggested that the Senate might adjourn. Flint explained that Aldrich would return to the Senate chamber at once. Overman suggested the absence of a quorum, necessitating a roll call.

Reading the closing pages of the record of the finance committee, which was this morning made an earnest protest against what he called a perversion of the rules when his demand for a division on Senator Aldrich's motion to adjourn was denied. He took the floor as soon as possible after the Senate convened and made a brief statement. He had desired, he said, to have the subject taken up at the last night, which right he said was improperly withheld from him.

Mrs. Guggenheim Insists She Is Still Wife of Smelter Man.

NEW YORK, June 9.—The suit started in Chicago yesterday by Mrs. Grace D. Guggenheim to annul her divorce of 1901 from William Guggenheim, the smelter trust king, is taken by New York lawyers as a step preparatory to the pushing of the suit filed against Guggenheim in this city last January for support. Mrs. Guggenheim brought suit for absolute divorce in the Supreme Court here, alleging then, as now, that her Chicago divorce from Mr. Guggenheim was invalid.

The plaintiff made no mention of the amount of alimony, but claimed that as the Chicago divorce was not legal she was still his wife and, therefore, was entitled to alimony. She set forth that her marriage to Jules Kogler, who subsequently had had nothing to do with her rights to sue Mr. Guggenheim. Incidentally, she asserted that Mr. Guggenheim's second marriage was invalid.

Following the introductory arguments Justice Gerard adjourned the hearing for a week. Mr. Guggenheim's counsel asked for an indefinite adjournment that he might take the deposition of witnesses abroad. Mrs. Guggenheim opposed this, declaring that she was in want.

IDAHO LAND TO BE OPENED 64,000 Acres of Lemhi Reservation Land to Be Settled Up.

TAFT PROPOSES CORPORATE TAX

Offered as Compromise to Unite Factions, It Is Rejected by Both.

MAY DELAY INCOME TAX

Progressives Would Defer Vote Till Regular Session, but Bailey Objects to Delay and Will Fight for Early Vote.

WASHINGTON, D. C., June 9.—(Special.)—How a 2 per cent tax on dividends would hit the largest corporations of the country is shown in the following table:

Table with 3 columns: Company Name, Dividends, Tax. Includes Standard Oil, Am. Tobacco, P. & M. Co., etc.

WASHINGTON, June 9.—In a canvass of the Senate today to determine what would be the fate of a proposition to place a tax upon net earnings of corporations as a substitute for an income tax it was developed that there is an overwhelming sentiment in opposition to such a plan.

Practically all of those opposed to the income tax idea are against the corporation tax and the supporters of the income tax refuse absolutely to be sidetracked from the principle for which they are contending.

Taft Suggests New Tax. After a conference at the White House yesterday between President Taft and Senator Aldrich it was said that the finance committee would consent to placing a 2 per cent tax upon the net earnings of corporations if it supported the income tax amendment would accept it and withdraw their proposition.

By an order of the Senate the income tax proposition will come up tomorrow for a vote, but in view of the unsettled condition a motion will be made to postpone action. It is expected that Senator Bailey will protest vigorously against this delay.

LAWYERS DECLARE NO FRAUD IN CASE

Counsel for Mrs. Guggenheim in Former Action Defends Manner of Proceeding.

CLIENT WELL - INFORMED

Attorney Says if Any Fraud Was Committed Mrs. Guggenheim Knew About It Herself, but Said Nothing.

CHICAGO, June 9.—(Special.)—The claim of Mrs. Grace B. Guggenheim that her divorce from William Guggenheim, the youngest of the seven millionaire brothers who control the smelting interests of the West, was obtained by fraud was attacked today by Eli B. Felsenthal, who acted as Mrs. Guggenheim's attorney when she was granted the divorce here eight years ago.

"If there was any fraud, it was practiced by Mrs. Guggenheim herself," said Mr. Felsenthal, who acted as her attorney in the divorce case. "She brought us instructions from her husband, a reputable person, and we had no reason to doubt her word in connection with the divorce here. I say positively that we knew nothing whatever of such arrangements."

"Mrs. Guggenheim may have been ignorant of the statutes of Illinois, but I should say that she seemed fairly well informed in regard to the statement that she did not have a residence in Chicago at the time of her divorce here. I may simply say that the law of Illinois does not demand a residence when the divorce for which the divorce was granted had been committed in the state. As to any collusion for the purpose of securing the divorce here, I say positively that we knew nothing whatever of such arrangements."

Mr. Felsenthal, who presented Mrs. Guggenheim's affidavit to Judge Honore, on which the case was reopened, is firmly convinced that Mrs. Guggenheim's divorce was secured through fraud and conspiracy.

He affirms that he believed Mrs. Guggenheim to have been a legal resident of Chicago when she was granted the divorce here, he granted the divorce.
