Statesmen, Scientists and Aeronauts Assemble to Pay Them Honor.

TAFT PRESENTS MEDALS

Declares Dawn of Era of Aerial Flight Has Come—Orville Wright Will Resume Flights at Fort Meyer June 21.

WASHINGTON, June 10.—The appreciation, good will and congratulations of the American people were extended today to Wilbur and Orville Wright, the American aviators, by the President. The occasion was the presentation of the gold medals awarded to the Wright brothers by the Aero Club of America to commemorate the conquest of the air.

Dawn of Age of Flight.

President Taft expressed keen admiration for their work, and ventured the belief that their machine would be the basis for the future aerial craft and propulsion of the dawn of the age of aerial flights was here.

Prepare to Resume Flights.

The day was one of celebration in honor of the Wrights from the time they arrived until 7 o'clock tonight, when they left for Dayton. The two brothers consulted General James Allen, chief signal officer, about the official trials of their airplane, which are to be resumed by Orville Wright, C. B. Taylor, the mechanic who accompanied Orville to Fort Meyer last summer, will meet them at Fort Meyer, and it is expected the flights will be resumed on June 21.

Great Step in Discovery.

In presenting the medals the President said: "I esteem it a great honor and an opportunity to present these medals as evidence of what you have done. It is especially gratifying thus to note a great step in human discovery by paying honor to men who bear it so modestly."

Found True Principles.

"Mr. Justice Brown, in commenting on the law of patents, says in the patent law it is the last step that counts—that is the difference between failure and success, and that step you gentlemen have taken. I don't know how many improvements are breaker made in machines heavier than air, the principles you have discovered and applied and the method of their application will be the basis of all successful flights."

NEW YORK BALLOON MAY WIN

Final Adjustment of Race May Disqualify Both Leaders.

NEW YORK, June 10.—The official figures compiled by William Welch, of this city, cartographer of the United States Signal Corps, indicate that the balloon New York, operated by A. Holland Forbes, acting president of the Aero Club of America, and Clifford W. Harmon, of this city, won the National balloon race, which started from Indianapolis last Saturday. The distance covered by Forbes and Harmon in the New York was 268 miles, they having landed at Corinth, Miss., after spending 25 hours and 10 minutes in the air. It is possible that Forbes and Harmon also will win the endurance cup, for although Carl Fisher, in the balloon Indiana, stayed in the air more than 48 hours, he touched land twice to take on water. It is the opinion of balloonists that this will disqualify Fisher for the endurance prize. Mr. Harmon returned to New York yesterday and announced that he and Mr. Forbes would make a try for the long distance record of the world as soon as arrangements can be made. He said the start would be made from either St. Louis or Kansas City, according to the quality of gas to be procured.

CHECK RUSHING TORRENT

Hard Work at Soo Canal Lessens Flow of Superior Water.

SAULT-STE. MARIE, Mich., June 10.—After a night of hard work the employees of the Canadian ship canal succeeded in partially shutting off the torrent of water which has been racing through the canal since the lock gates were torn out yesterday by the steamer Perry G. Walker.
