LANE GAINS POINT

Board Rescinds Award of Fire Engine Contract.

CASE PENDING IN COURT

Action Is Final Settlement of Contractors, Says Kavanaugh—Mayor Declines to File Letter Criticizing Campbell.

Mayor Lane achieved a notable victory over A. G. Long and the American-LaFrance Fire Engine Company yesterday afternoon when he called the Executive Board together for the purpose of laying before the members data concerning the recent award by the Board of a contract for two third-sized engines. Two weeks ago the Mayor refused to sign the contract, and an alternative writ of mandamus was issued by Circuit Judge Cleveland, citing the Mayor to appear in court tomorrow morning and show cause why he should not affirm his signature and complete the transaction. The action of Mayor Lane after the action of the Board, in rescinding the award of contract, read a scathing communication, in which he charged bad faith on the part of Fire Chief Campbell, and ended by saying that as Mayor he would hang a bell buoy over the Fire Department, showing that it is a danger point in the city's affairs.

The letter was the most peppery one ever handed in by the Mayor, but after the meeting adjourned, he withdrew it, and said that he had decided not to place it on file with the City Auditor. He did not read it to the Board until after the action rescinding the award of contract, and said later he does not regard it as necessarily a part of the proceedings.

Preceding the session of the Executive Board, there was a session of the fire committee, which formulated a report,

Must Pay for Wood Cut.

A jury in the United States court yesterday returned a verdict for the Government against C. Edgar Woolfolk for \$11.47 in payment for a quantity of wood cut from public land. The defendant had offered to settle the case by paying the Government \$20, but this was refused and the case was tried out before a jury. Including the cost in the case, the few cords of wood secured by the defendant proved expensive fuel.

A true beer, which is non-alcoholic, has been invented by a Pittsburg brewer.

BRIDGE TO BE EXPEDITED

First Step for Broadway Span to Be Approved by War Department.

Judge M. G. Munly, president of the North East Side Improvement Association, in anticipation of the action of the board of directors of the War Department, last night, has taken steps to expedite the first steps toward the erection of the high bridge at Broadway and Larrabee streets by having the City Engineer prepare a certificate of the election, at which the appropriation was voted. This will be forwarded to the War Department as soon as Mayor Lane issues his election proclamation. It is not expected that there will be any difficulties in the way of securing the approval of the War Department of the location and general plans for this bridge. There will be many details to settle after this approval has been given.

Judge Munly has repeatedly said in his bridge addresses that effort would be put forth to prevent a repetition of the delays that have embarrassed the building of the new Madison bridge. In this he will be supported by the North East Side Improvement Association and other Peninsula clubs. While Ralph Modjeski prepared plans in a general way for this bridge, they are not conclusive and the details were not worked out. There will be forwarded to the War Department to settle, besides details connected with the sale of the bonds authorized. It is expected that the whole matter will be discussed at the meeting Friday night.
