Mayor and Executive Board to Stop Giving Contracts for Repairing Pavements.

LEAVE PROBLEM FOR SIMON

New Executive Will Decide Whether to Continue Old Practice or to Erect Municipal Plant, as Permitted by Charter.

Mayor Lane and the members of the Executive Board have decided to discon tinue the practice of awarding mainten ance contracts for hard-surface pave-ments, and at the next meeting there will be a recommendation from the street committee to carry the maintenance only on streets in the business districts, where it is necessary to have many repairs dur it is necessary to have many repairs during the first few years of the life of an improvement. A large number of bids for maintenance are to be rejected by the Board, which will meet next Friday afternoon. If the city desires to repair any pavements, it has full authority, under the charter, to proceed to establish a plant of its own and to perform the

Because of the recommendation of the street committee to the Executive Board in this respect, it is certain that when Senator Simon takes office as Mayor he will face a situation that will call for the adoption of one policy or another. It will become necessary to award maintenance contracts to contractors, as has been done in the past, or to proceed with been done in the past, or to proceed with the construction of a plant for that pur-pose, to be operated by the city. If the Simon regime decides to carry on the repair work by the maintenance system, It will have to advertise for bids for a large number of streets, which will be left without any protection by such a plan after next Friday.

Mayor Lane and the members of the street committee agree that the down-fown streets, where there is constant and heavy traffic, should have a mainand heavy traffic, should have a maintenance contract, running for a number of years. Ten years is the life of the average pavement, so far as a guarantee by the city is concerned. For that length of time, it has been the custom of the city, until now, to let a contract for maintenance at 2½ cents a square yard. This sum the contractors have been collecting, whether or not there were any repairs to be made in the pavement during the life of the contract. Mayor Lane and other officials believe that the time has come when Portland has so many miles of hard-surfaced streets that the municipality ought to streets that the municipality ought to build a repair plant of its own and do all of its maintenance work on the vari-ous pavements. Because of this belief he caused the street committee of the he caused the street committee of the Executive Board several months ago to lay aside all of the maintenance bids on streets and keep them until the close of the tenure of office. Thursday afternoon was the last regular session of the street committee, ag on July 1 Mr. Simon and the new Board will take charge. In order to have matters cleared up in this respect, the Mayor ordered that all maintenance bids be rejected with the extenance bids be rejected with the exrespect, the Mayor ordered that all main-tenance bids be rejected, with the ex-ception of such streets as are in dis-tricts where there is heavy fraffic, and where repairs are constantly needed. It is argued that, in such places, the award of a maintenance contract is a good thing for the city, it being a paying in-vestment. On streets where the travel is light and the pavements are conse-quently not worn so fast, the Mayor behing for the desirable for the city to do its own repair work, as he declares that it can be done for much less money.

The property to open the street is owned to open t

Washington Bridegrooms Balk at Giving Physician's Certificate.

Can Washington couples secure mar-age licenses in Oregon? County Clerk Fields says he is receiving an average of a letter a day from prospective bridegroom in the State of Washington who find themselves "up against it" on account of the new law there compelling them to tender to County Clerks a physician's certificate of physical soundness before the license is issued. One lovelors Seattle waste. issued. One lovelorn Scattle

of physical soundness before the license is issued. One lovelorn Seattle swain even went so far as to ask Mr. Fields if it is necessary in Oregon for a divorced man to show the County Clerk a copy of the decree in order to obtain a license, and whether the Deputy County Clerks may act as witnesses.

The Oregon marriage license law provides that the prospective bride must be a resident of the county in which the mariage license is issued. But unlike the election law, which requires electors to live in the county six months before registration, the marriage license haw does not say how long a residence the bride-to-be must have. Local hotel clerks have been known to swear for a young couple that the lady was a resident of the county, of legal age, and that there was no legal impediment to the marriage. Residence of one day is generally considered ample. No physician's certificate of health is required under the present laws. the present laws.

PASTOR TO BE INSTALLED

Rev. T. H. Walker to Begin Work at Calvary Presbyterian.

Rev. Thomas Holmes Walker has been called to the pastorate of the Calvary Prosbyterian Church, Eleventh and Columbia streets. He comes from the Hermo Presbyterian Church, of Philadelphia. and succeeds Dr. Ben Emra Stiles Ely, who was called to Chicago. The installation takes place tomorrow at 3:30 P. M. crimes, but because I do not wish my relatives in the East to know that I am in trouble." This was the way John Stanton explained to Presiding Circuit Judge Bronaugh yesterday his reason for defending himself under an alias. He pleaded not guilty yesterday to having stolen jewelry worth \$250 from Benjamin Gadsby.

An interpreter was necessary to explain to K. Nishi the nature of the crime with which he was charged. He said if he were given a short term in the penitentiary he would not ask for an attorney, but that if a long term were given him he wanted an attorney to defend him. Judge Bronaugh gave him the minimum, one year, after he had pleaded guilty to having stolen a certificate of deposit worth \$160 from B. Morishige.

C. C. Vaughn said, through his attor-

C. C. Vaughn said, through his attor-ney, John H. Stevenson, that he would plead not guilty to assault on Robert Dunkel, June 9. Oscar Cross pleaded guilty to a statu-tory offense. Cora Irene Johnson was ready to plead to the same offense, but at

ready to plead to the same offense, but at the request of her attorney the case was continued until 2 P. M. Monday.

C. M. Robinson is to stand trial on a charge of having falsely represented to the Union Guarantee Association that he owned property, thereby obtaining a bond. Marlon Shockley and Georgie L. La Petit said they did not conduct a disreputable house June 8. Sam Boue was arraigned for shooting at Jim Sing February 17.

COUNCIL COMMITTEE RULES. AGAINST OPENING OAK.

Big Property-owners Block Extension-Stark Street Will Be Widened at Thirteenth.

After a strong delegation, representing large interests, laid before the street committee of the City Council yesterday afternoon a protest against the proposed opening of Oak street, from West Park to Burnside streets, a recommendation to rescind proceedings was carried. Those opposed to the opening of Stark street, from Thirteenth to Burnside street, however, failed in their efforts to secure the same action, and the thoroughfare will be opened, if the report is adopted by the Council.

The proposed opening of Oak street was very strongly opposed, and those favoring the proceedings were unable to show sufficient cause for entailing to show sufficient cause for entailing the large expense upon propertyowners to secure the adoption of the report of the viewers and a recommendation to continue with the work. It will now go before the Council at next Wednesday's session upon the recommendation

to rescind.

While there were several large prop-While there were several large property-holders who wished the opening of Oak street executed, there were many more equally interested who opposed it. The Wells-Fargo people, the Henry Welnhard estate and the Commercial Club, all heavily interested, had representatives present to enter vigorous protest. John H. Hall represented John Clark, and Zera Snow the Wells-Fargo Company. Those who wished the street opened are E. Henry Wemme, Percy Blyth, W. D. Fenton, Gay Lombard and H. L. Corbett. A large number opposed to the opening were not at the meeting. The total were not at the meeting. The total assessment for the opening was \$223,-000, making the individual levies very

high in some cases.

On Stark strept there is a small point that extends into the street near Burnside, and it is this which the committee yesterday afternoon voted to have removed, so that there will be a continuous thoroughfare. This action was opposed by several large propertyowners, but without avail. The report of the viewers was adopted and a recommendation from the committee will go to the Council, calling for the opening of the street. in some cases.

ages to her land.
Yesterday's session was the last regular one to be held during the present regime. Councilman Vaughn, chairman of the committee, will retire from office July 1, as will also Councilmen Cottel and Heppner. All of these were present yesterday. A special meeting will be held next Tuesday afternoon to clear up all unfinished business.

Y. M. C. A. TO HAVE TENT

Will Provide Conveniences for Guardsmen at Clackamas.

Continuing the plan followed last year at American Lake, the Y. M. C. A. will maintain headquarters this year at the annual O. N. G. encampment to be held near Clackamas. July 12. A tent, measuring 40 by 50 feet will be erected. Within there will be tables, reading matter, stationery, games, phonograph, plano and other things to furnish amusement to the guardemen.

in there will be tables, reading matter, stationery, games, phonograph, plano and other things to furnish amusement to the guardsmen.

Various forms of entertainment will be provided for the campers. A musical entertainment will be given every night, and there will be numerous lectures and addresses. An effort will also be made to stage a minstrel show some time during the encampment. The work of the Y. M. C. A. at American Lake last year was commended by Brigadier-General Brush, who said:

"I consider the work of the association one of the best features of the encampment. It helped to make it one of the most orderly encampments I have ever attended."

The association tent will be used for the officers' meetings. Two men will be in charge of the tents all the time.

FIRST CAR OF THE SEASON DUE AT SEATTLE TODAY.

Slump in Old Potatoes-Lake Washington Berry Crop Is Short. Eggs Are Lower.

SEATTLE, Wash., June 18 .- (Special.)-Word was received here this afternoon that the first car of watermelons will reach the city tomorrow afternoon. The stock comes from Texas and will be quoted at 3 cents per pound, or a cent under the opening price a year ago. The first straight carload of cantaloupes is due Sunday morning and will be quoted at \$6 to \$7 per crate.

Old potatoes dropped suddenly today and sold as low as \$37 this afternoon. Apparently there is a light demand for old stock and individual shippers, despairing of securing higher prices, are unloading all their available stocks. As a result, many cars of poor potatoes are on the tracks. New potatoes have also dropped to 2 2-3 to 3½c.

Berries were a little stiffer today, Clark's holding as high as \$2. Reports from the Lake Washington berry fields are that the plok will be one-fourth short, owing to cold weather and lack of rain.

Pineappies were quoted at \$3.75 today. More pineappies are being sold here than ever before.

Eggs dropped to 27 cents. the first car of watermelons

Eggs dropped to 27 cents.

As high as \$1.05 was offered for new wheat on the exchange today but note would be to the exchange today.

ings Increase.

The tendency is toward improvement in the general crop situation, manufacturing industry and bookings for Fall showing further gains. In industrial lines the tendency is toward further expansion of operations. The building trades probably lead in volume of

activity. The iron and steel industry maintains previous activity, though operations are still below normal. Railroads are buy-

ing more freely. Business failures in the United States for the week ended June 17 were 213, against 197 last week and 253 in the like week of 1908. Business failures for the week in Canada numbered 28, against 29 last week and 23 in the same week of 1908.

What implifies flows account from

Wheat, including flour, exports from the United States and Canada for the week ended June 17 aggregate 1,085,-590 bushels, against 3,419,944 this week last year. For the 51 weeks ended June 17 this year exports are 65,964,350 bushels, against 198,735,211 in the corresponding period last year.

BUSINESS ADVANCE CONTINUES

Print Cloth Situation Is as Strong

NEW YORK, June 18 .- R. G. Dun & 's weekly review of trade tomorrow

will say:
The advance recently made in industrial activity and business is fully
maintained. The print cloth situation maintained. The print cloth situation is as strong as ever, and some good sales have been made. In the woolen goods division the market for cheaper grade of men's wear has been open. The volume of business in packer hides at Chicago continues fair. Foreign dry hides were well cleaned up recently at a slight decline from the highest point reached a while ago.

NEW YORK, June 18.—Bradstreet's bank clearings report for the week ending June 17, shows an aggregate of \$3,449,376,000, as against \$5,414,926,000 last week, and \$2,161,423,000 in the corresponding week last year

4 - DISEASES - 4

A potential influence in the life of any individual is health; without good health every ambition must wait and every success must be postponed. The wise man who equips himself for any future enterprise always looks to the physical side of life as well as the financial or industrial side. He knews that though he possessed the wisdom of Solomon and the gold of a nation he would be barren of results without a healty mind and body.

A clear intellect free from worry and despondency is one of the most important elements of success. If at times you are unable to sleep soundly no matter how comfortable the bed, specks before the eyes, bad dreams, gloomy forebodings, or if the nervous system is completely or partially exhausted from being overtaxed at some time in the past, remember that these are nature's warnings of an ultimate breakdown that is sure to come it is too late.

These Danger Stonnals

These Danger Signals because you have been foolish and indiscreet at some time in the past that you are in a class alone, and thus sacrifice valuable time on account of false modesty. Don't add criminal neglect to past mistakes and thus add fuel to the flame.

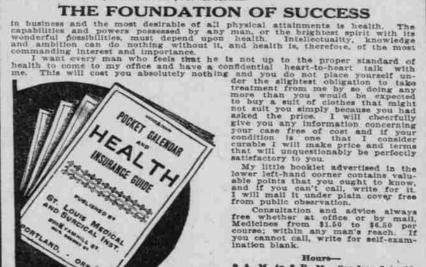

BE PAID UNTIL CURED It correct these conditions the same as a shoemaker would mend a pair of shoes. I make men strong enough to succeed because my whole time and study for years have been in this one line of thought, and my knowledge and experience have brought me to a point of proficiency that the average doctor has found it impossible to reach in the general practice of medicine and surgery. There are just four diseases that wreck men:

BLOOD POISON VITAL WEAKNESS VARICOSE VEINS and the aftermath of INFECTIOUS DISORDERS

These are the things in the life of men that MAIM, CRIPPLE AND KILL and the thing that gives them more power than they would have otherwise is neglect and indifference of the indifference of the indifference of the motivational ineglect and indifference of the indifference of the individual. Neglect russts the mind, is the mother of poverty, and the root of all evil. Habitual neglect shows not only a weak head but a faint heart. If you intend to succeed in life set "The Today Habit" of doing your duty.

Men who, from natural conditions, must know that they are near the last mile-stone, still have the mad gleam of a bloycle rider in their eye, peering ahead, straining every nerve in an effort to make a few more doillars. Other men in the prime of life, for fear of losing a dollar, will not stop to correct a physical wrong or rest their weary brain. Are the lives of such men to be envised? No; they are mentally wrong. The man who enjoys life is the man with good digestion and good health, who thinks no more of a doilar than it is worth. He seeps as soundly as a haby, and gets up in the morning refreshed. He can smell a meal cooking for a block, and it sharpens his appetite. He knows he can not be up late nights abusing his stomach and be fit for business the next day. If you are not observing nature's laws, it is time to communing the fit of the property of the state of the laws, it is time to communing the fit of the property of the property of the property of the community of the property of t

Handwriting Expert Is Severely

PENDLETON, Or., June 18.—(Special.)

—Professor W. W. Williams, the hand-writing expert who declared yesterday that the alleged will to the J. W. Young estate is a forgery, has been subjected to a grilling cross-examination since late

being made to have him contradict his statements, but so far this has failed. Another handwriting expert will be placed upon the stand as soon as Williams has finished.

The men of Australia outnumber the

starts the circulation and leaves a glow equal to a Turkish bath.

witness-stand. A strenuous effort is

THE WORK OF A SPECIALIST IS THE DOING OF A FEW THINGS BEST

There is not a physician living who can claim to be proficient in the treatment of all human aliments and diseases. To attain the highest possible degree of proficiency in all departments of medical science would require half a dozen lifetimes of study and as many more of practical experience. The regular practitioner is proficient in a large number of the commonest and most easily conquered diseases. The specialist must first become proficient for general practice, and must then go on to proficiency in a few of those conditions and diseases more difficult to understand and more difficult to cure.

Pay Me When I Have Cured You WEAKNESS

Functional weakness in men is in reality a comparatively simple ailment, and is but a symptom of local disorder, a state of chronic inflammation of the prostate gland. No stimulating treatment, whether internal or locally applied can do more than excite temporary activity. By my system of local treatment I restore absolutely normal conditions throughout the organs involved, which promptly results in complete and permanent restoration of strength. This treatment is original with me and is the only radical and certain cure yet devised.

tion from business. My cures are absolutely permanent and no ill effects whatever can follow my treatment.

Contracted Diseases

contracted Diseases

I have reduced the time required for curing contracted disorders about one-half. This is an important and the organs involved, which promptly results in complete and permanent restoration of strength. This treatment is original with me and is the only radical and certain cure yet devised.

VARICOSE VEINS

Varicose Veins is a relaxation, knotting and twisting of the most vital blood vessels of the organic system. It stagnates the local circulation and interferes with the processes of waste and repair. Neglect brings derangement of functions and injury to the general health. I cure varicose veins in one week without pain or deten-

CONSULTATION FREE

I state nothing in my announcements but the straight, square truth. It will cost you nothing to call and talk over your case. You can find out all about your trouble and you can later arrange to begin treatment any time you like. My offices, comprising 10 rooms, are the largest, most elegant and best equipped in the West. HOURS - 9 A. M. TO 9 P. M. SUNDAYS 10 TO 1. If You Cannot Call Write for Diagnosis Blank.
