CREDITABLE ROSE Show GIVEN.—The North Albhna Rose Culture, organized a year, conducted a rose show yesterday afternoon and evening in the firehouse on Albina avenue. Mrs. A. B. Stone, president of the club, Mrs. D. Baughman, Mrs. G. J. Gossett and Mrs. Barnard were in charge. Some of the finest roses grown on the Peninaula were placed on display. It was demonstrated that although the Peninaula furnished many thousands of roses during the Rose Festival, it has many more left. The roses were displayed on long tables and on shelves along the sides, where they could be seen to the best advantage. The best-known varieties are grown on the Peninaula and to a high degree of perfection. Mrs. Stone, president of the club, said the affair was more a rose exhibition to show what had been accomplished in rose culture during the year than a contest. A portion of the roses were entered in the contest and the alth awarded blue and CHEDITABLE ROSE SHOW GIVEN.-The portion of the roses were entered in the contest and the club awarded blue and red ribbons. Church Gymnasium Success. — After having been in commission one year, Rev. Paul Rader, pastor of the Hassale-Street Congressitional Church

Paul Rader, pastor of the Hassalo-Street Congregational Church, reports that the gymnasium, erected at a cost of \$7500 by this church, has proved a success in all lines. Mr. Rader says the gymnasium has paid its way, without calling for outside financial help. This is considered a remarkable showing, considering that a skilled instructor and a janitor had to be paid. Mr. Rader expressed himself as entirely satisfied with the outcome of the first year. Many Y. M. C. A. gymnasiums, he said, are not maintained without outside financial help. He says it has resulted in securing the attendance of a large number of young men and of a large number of young men women from business circles. At the gathering Thursday night 80 young people were present. However, it should be said that much of the success of the year is due to Mr. Rader himself, who is a trained athlete and entered heartily in all the activities of the gymnasium. LEG BROKEN BY FALL.—Climbing into a tree on the heights near St. Vincent's Hospital late yesterday afternoon, Richard

lsey, who resides at the Princes Hotel, made a misstep and fell to the ground, breaking his leg. Attracted by the splendid view from this point, he had wandered up from the street alone and, delighted at the scenery, tried to bet-ter his view. The bones of his left leg at the ankle were terribly crushed and it is thought he may have to have the in-jured leg amputated. Constable Wagner, who lives in the vicinity, was attracted to the scene and called an ambulance to the scene and called an ambulance from the Central Stables, in which the in-jured man was removed to St. Vincent's Hospital, where he was operated upon by Dr. Fred J. Ziegler. Mr. Woolsey is about 30 years old and a former traveling salesman, who came to Portland about six months ago from Montana and invested in some timber lands in Oregon No Laterals Yet.—No laterals to connect with the Brooklyn sewer can be provided for until the main conduits have been accepted. MANY CASES ARE WON

Government Has Been Successful in All Criminal Proceedings in Which It Was Party, Except Two Indian Trials.

A verdict of \$350 against the Southern Pacific Company for violating the Federal statute requiring railways to unload stock, after not more than 28 hours' confinement in cars, into pens suitable for rest, feeding and watering, was returned by a jury in the Federal Court yesterday afternoon.

The pen alleged in this case not to be up to the standard was at Ashland. On the preceding day the Southern Pacific

the preceding day the Southern Pacific was fined \$250 for maintaining an unsuitable pen at Grand Junction.

This closed the Government cases pending for this term of court until July 12, and with the exception of two cases completes the calendar of causes in which the Government is interested as a party. The two cases to be tried in July are for alleged violations of the statutes prohibiting the setting out of fires in Government forest reserves. The decodors prohibiting the setting out of fires in Government forest reserves. The defendants are Tony Spray, accused of burning timber in the Umatilia reserve, and Charles Page, accused of setting fire to timber in the Siskiyou reserve.

So far this term of court the District Attorney has secured a verdict in every case of criminal or quest criminal nature.

Attorney has secured a verdict in every case of criminal or quasi criminal nature, with the exception of three cases in which indians were defendants. Two particularly difficult cases in which the Government was successful were the prosecution of Charles A. Straus for mishandling of postoffice funds, and the prosecution of William Hanley on a charge of illegally maintaining an inclosure of Government land.

Yesterday Judge R. S. Bean issued a bench warrant for the juror's arrest, but the latter gave such a good excuse that Judge Bean did not impose any penaity.

and costs.

The other charge was against Closset & Devers, who were accused of selling lemon extract in May, 1907, that did not come up to the standard of single extract, but which was labeled "triple extract of lemon."

In entering the plea Attorney Winfree called attention to the fact that the law went into effect in the January preceding the date of the offense charged and that the law was subjected to question as to its constitutionality at that time and was not fully understood in all the phases. He asserted that subsequently the Government had adopted a policy of not prosecuting for violations of the law committed prior to October 1, 1908. Judge Bean, however, imposed a fine of \$25 and costs. In speaking of the proceeding afterward District Attorney McCourt said that the policy referred to by Mr. Winfree only applied to resurrecting old violations of the law and that proceedings instituted within a reasonable period after the violations were committed were not subject to withdrawal because the offense was committed prior to October 1, 1908.

It was the contention of the Consul that Orsi as the servant of the company was instructed to go out on the logs in the pond and run them into the mill chute; that he was inexperienced in that kind of work and that its dangers were not explained to him and that he did not know it was necessary to wear calked shoes.

No one witnessed the drowning, and It was the theory of the plaintiff that Orsi slipped on the logs and fell into the water.
