Parsons Not Anxious for Mayoralty and Would Welcome Entry of Fit Candidate-Plan to Get Republican Voters' Choice.

BY LLOYD F. LONERGAN. NEW YORK, June 20.—(Special.)—Here is a Mayoralty candidate who has not been mentioned in public as yet, but his claims are being seriously considered by the Republican leaders. His name is William Loeb, Jr., and he

is Collector of the Port of New York.

"He would be the next beat thing to Roosevelt," is the remark made by a prominent Republican at the Union League Club, the other plant.

prominent Republican at the Union Island Club the other night.

Since Loeb moved into the Custom-House he has added to his strength every day. Even His factional opponents admit that Loeb has been the best Collector of whom there is any record.

Loch Shakes Up Custom-House.

Under former chiefs, while there may Under former chiefs, while there may not have been any great amount of "graft," there was a happy-go-lucky system, which benefited the people who "stood in" with somebody. In addition, the bulk of the inspectors were feeble old men, many being utterly incapalite of performing the duties to which they were assigned. And it was mighty easy for bright smugglers to trick them if they felt so inclined.

But Loeb "got busy" as soon as he had taken the oath of office. He broke up a

Politicians Taking Notice.

The new Collector's activity has aroused

The new Gollector's activity has aroused favorable attention from politicians, who believe that he would make an exceptionally strong candidate for Mayor, and would also recognize the claims of the "organization." Here is the way one district "leader, who has been buslly distributing the "Loob tip." looks at it:

"Anybody will tell you that Theodore Roosevelt could sweep the city, with or without fusion. Well, Loeb is Roosevelt's trusted friend, and should be able to hold the bulk of the so-called Roosevelt vote. "Since he has been in office here, the Collector has made a record that has strengthened him with all classes of voters. He has never been involved in local factional fights, and could be counted upon to 'play fair.' Senator Root is his great friend, and, when all is said and done, everybody who knows anything realizes that Root will have the final say when it comes to picking out a candidate."

The point was raised that Loeb is not a

The point was raised that Loeb is not a resident of Greater New York, and consequently not eligible as McClellan's suc-

"It is true that he votes in Oyster Bay, admitted the district leader. "But ever since Taft took office Loeb has resided in a Manhattan hotel. If he desires to claim residence here, there is nothing to prevent him. And the only qualifications necessary for a Mayor are that he must be of legal age and a resident of the city."

Parsons Not After Office. In the meantime, Congressman Herbert

Parsons, Republican leader of New York County, is busily engaged in Mayoralty politics. Mr. Parsons has nothing to say on the subject of Loeb, and in fact it would not be a surprise if later he for-mally launched the Collector's boom. mally launched the Collector's boom.

Parsons, a wealthy man with a wealthy wife, is fond of life in Washington. He has his eye on the Senate seat now filled by that poor old political ghost, Chauncey M. Depew. The only thing that will keep Parsons out of the race in 1911, is if Theodore Roosevelt returns from Africa and expresses a desire to return to public life. Then and only then, will Parsons consent to remain in Congress without a murmur of unhappiness. For Parsons knows better than anybody else what would happen if he stood on the track while the Roosevelt political

track while the Roosevelt political train started out for a record run. Plan to Poll Preferences of Voters.

The New York county chairman has a plan which he thinks will insure the nomination of a straight-out Republican as the fusion candidate for Mayor. He appreciates the difficulties in the way but thinks he can overcome them. His idea is to ask the enrolled Republican voters who will nerticized.

the September primaries to indicate the September primaries to indicate etr choice of a Mayoralty candite. That their preferences will fall in a majority of cases on a Republican he has no doubt, and he is said to be equally confident that with a word or two to the district lenders the primaries can be made to return a vote in favor of any particular Republican candidate whom he and his lieutenants may select in advance. in advance.

Parsons is quoted by his friends as saying that not even the committee of 100 would be likely to oppose a candidate "whose nomination has the expressed will of a majority of the enrolled Republican voters of Manhattan and the Bronx behind it."

Reformers Would Enthuse.

Practical politicians who know how such a primary vote could be manipulated would probably have slight respect for the "Parsons" referendum," but it could probably be counted upon to impress reformers, who are usually far from practical.

Last Fall, when Parsons found it would be suicidni to longer oppose the renomination of Governor Hughes he "let himself down" by holding "direct primaries" in certain selected districts. The majority was in favor of the Gov-ernor, although it is not denied that had Parsons so desired, the figures could just as easily have been fixed

the other way.

The official primaries are fixed by law for September 14. According to the present plan, the county committee will, prior to that date, provide for a direct

And before the meeting Parsons will have his candidate picked out. As it looks today it would not be a surprise if the name of the county chairman's choice was William Loob, Jr.

The possibility of sending the bill back to the House by July 1 is now considered remote. The discussion of a duty on hides will occupy the Senate for possibly a day or two. The wood pulp amendment offered by the finance committee, which practically doubles the duty on wood pulp, will then be taken up.

Wife Not Able to Travel and Congress Keeps Him Home.

TOO LATE TO GO TO ALASKA

If Congress Adjourns President May Yet Come West, but Lawmakers Are Expected to Keep Up Talkfest Until September.

WASHINGTON, June 20.—(Special.)—
For several days there have been increasing indications that President
Taft might, after all, decide not to
make that Western trip this Summer.
Now it seems to be almost certain that
he has abandoned it.
For one thing, there is no certainty
that Mrs. Taft will be able to take such
a long and fatiguing trip. Unless she
can go, Mr. Taft said some time ago
he would not care to go either, as his
wife's absence would rob him of half
of his pleasure.

wife's absence would rob him of half of his pleasure.

Mrs. Taft has been improving very slowly. Last week she was downstairs for the first time, and while it was thought she might be able to go for a drive tomorrow, it is not likely that she will be able to go on any journeys, except to Beverly, before Winter. Then again the President abandoned the Alaska part of his trip some time ago. The season was drawing on too fast to make such a trip feasible.

Now Cohgress has taken a new lease of life with the discussion of the income tax and the tax on corporations, and there are so many items still to talk over that the date of its adjournment is a subject for conjecture. The President wants a rest of a month before undertaking the trip he has been talking about, and he also wants to complete his message before taking it, and to write that will take about a month. On the whole, breaking it gently, there seems to be no prospects that he will go West this year.

There is, perhaps one chance. If Congress should adjourn July 3 he might go, but wiseacres say it is more likely to be still here and talking on September 1.

WANTS MIKADO TO INTERFERE IN HAWAII.

Alleges Sons of Nippon in Islands Are Not Given Fair Treatment in Courts.

HONOLULU, June 20.-In an editorial Jiji, the organ of the leaders of the Japanese strike movement, an appeal for interference in the Hawalian strike situa-tion is made to the Japanese government. The article alleged that the Japanese have been accorded unfair treatment by the courts and by the Federal and terri-

torial officials of the Islands. The Jiji has supported the leaders of the higher wage movement ever since the strike of the Japanese sugar plantation hands was called. The offices of the paper were searched on June II, and numerous papers were selzed by the territorial authorities which, it is alleged, contained evidence of a widespread conspiracy among the Japanese on the islands.

among the Japunese on the islands.

Y. Soga, editor of the Jiji, was indicted twice by the territorial grand jury, following the seizure, once on a charge of conspiracy to incite riot and once on a charge of conspiracy to compile the seizure. charge of conspiracy to commit murder. He was released on furnishing \$2250 ball bonds to cover both indictments. The efforts of certain of the Japanese to give the Hawaiian situation an Interna-tional aspect are apparently concentrating here, as evidenced by the Jiji's special to the Japanese government.

BIG YIELD IS ESTIMATED

Walla Walla County's Wheat Crop May Be 5,000,000 Bushels.

SPOKANE, Wash., June 20 - (Special. Estimates of the grain yield for Walla Walla County being made by Walla Walla dealers place the figure at about 5,000,000 bushels for this season. In all the foot-hill lands and on Eureka Flats the stand is thick and the wheat has headed well, although there will be much less straw than usual.

In some places, however, the fields have

burned and the yield will be light. Farmers and dealers, look optimistically toward harvest, believing substantial ers and dealers, toward harvest, prices are assured.

Senor Nabuco Analyzes Conditions of America.

IS CONTINENT OF PEACE

In Baccalaureate Address to Wisconsin University Declares Social Equality of Nation Is Contribution to Civilization.

MADISON, Wis., June 20 .- "If I were asked of what good America was to Europe, I would say that Columbu cut large doors and windows on the west side of the old European manor, which received its ventilation only from the east. America has regenerated the old World since the 16th century as effectually as the influx from Central Europe regenerated it in the middle ages."

This was the declaration of Senor Nabuco, the Brazilian Ambassador, who today delivered the baccalaureate address to the graduating class at the University of Wisconsin. The Ambassador's subject was "The Share of America in Civilization."

With the prodigious growth of the United States, he said, its peace sentiment would have to be tested when its national aggrandizement meets with the first serious obstacle. "The question is," he said, "if you then would not proclaim the holy national war. As yet no one could say peace is a permanent article of faith with you, such as are democracy and religious toleration, for instance."

Another great contribution, he said, was the equality of social conditions among all classes of the Nation. "This," he said, "is the explanation why it has become the adoptive country, the elected home of men of all races, born and reared under the contrary principle of unequality."

Coming to the question of American education, Ambassador Nabuco declared that it seemed to be the only one that was not wholly conventional. "You alone," he said, "give as the greatest of all human teachings, self-reliance. And, new to mankind, you teach self-reliance not only to men but to women."
