

RECEIPTS FROM CALIFORNIA ARE INCREASING.

CATS TRADE IS STEADY

But Little Business Being Done in New Crop Wheat—Cantaloupes Will Be Feature of Fruit Trade—Hops at 15 Cents.

There is not much inclination shown by grain men to trade in new-crop wheat. Only a few contracts for comparatively small quantities are known to have been made with farmers.

Local jobbers yesterday announced a 5-cent reduction in all grades of sugar. There was no change in refinery prices, merely a rearranging of the local selling schedule.

The canned corn market shows much strength. A number of Iowa and Illinois packers have withdrawn future quotations from the spot market to allow their firm.

Local jobbers yesterday announced a 5-cent reduction in all grades of sugar. There was no change in refinery prices, merely a rearranging of the local selling schedule.

Wheat harvest in Oregon is now arriving freely and is expected to be harvested at \$1 per bushel. The old crop in the Northwest is practically exhausted.

Spot oats are selling in a steady way around \$4.25 a ton, with offerings gradually diminishing. Business in new-crop oats has been done at \$2.50 a ton.

Local receipts in oats were reported by the Merchants Exchange as follows: Wheat harvest in Oregon is now arriving freely and is expected to be harvested at \$1 per bushel.

The weekly grain statistics of the Merchants Exchange are as follows: American visible supply—June 21, 1909, 12,000,000 bushels.

Whitman crops never better. Fine samples sent from the Colfax section to Seattle.

COLFAX SPECIAL. Samples of wheat measuring 18 1/2 to 19 1/2 inches today sent to J. B. Harris, manager of the Colfax section.

California hops bring 15 cents. Big contract signed by Philip Wolf & Co. in Sonoma.

The California hop market is firm at 15 cents a bushel. It is a matter of surprise why some one should not have secured at the same figure in Oregon.

Crop conditions in New York State are reported in the Waterbury Times, of June 18, as follows:

There is much better and stronger feeling among hopgrowers regarding the prices for the coming crop. The fact that the well-known small quantity of old hops left the port cut outlook in the West and the fact that efforts are being made to secure contracts at 20 cents also has some influence in strengthening the market.

Work in our hopyards is in full swing. The roots have passed the long and hard winter in good condition, and the new plants are already out of the soil and tied to the posts.

In the last weeks we have had again a steady business on our market. England, attracted by the low prices, has again taken off big quantities. Stock of 1908 hops is very small and the quality is poor.

CRASH IN STOCKS

Selling Is Heavy and There Is No Demand.

UNLOADING OF WABASH

Rumor of Harriman's Sudden Attack, Though Denied, Has Had Effect on Sentiment—Amalgamated Copper Is Weak.

NEW YORK, June 21.—It took several hours of waiting among the operators in stock markets to demonstrate today that the sharp fall in prices last week had not attracted the demand sufficient to form a basis for a recovery.

Selling was almost as constrained during the early part of the day as was buying, with the resulting dullness, such as has not been seen for weeks.

DECEASED BY RAIN

Harvest in West and South Is Interrupted.

CAUSES STRONGER MARKET

Cables and Weekly Statistics Are Also Bullish—Sharp Bulge in Oats, Due to a Green Bug Scar.

CHICAGO, June 21.—Possible delay to harvest because of wet weather was the chief factor in creating a strong market in the wheat pit.

The weather bureau announced that showers had occurred during the last 48 hours in the Middle West and Southern States.

The market closed steady. The principal demand was for September and December deliveries, although July was bought freely by the shorts.

The oat market was also strong, with a bulge in wheat caused a strong market for corn.

The leading futures ranged as follows: WHEAT—July, 1.15; August, 1.12; September, 1.09.

CORN—July, 75; August, 72; September, 70. OATS—July, 45; August, 42; September, 40.

MEAT—July, 10.00; August, 9.75; September, 9.50. LARD—July, 11.00; August, 10.75; September, 10.50.

SEATTLE SENDS PART OF ITS SUPPLY EAST.

Inspector Armstrong Estimates the Washington Wheat Crop at 27,000,000 Bushels.

SEATTLE, June 21.—The heaviest berry shipments ever known in this market were made today by houses which were most active in accumulating the stock.

The recent advance was in progress, it was argued that an unfavorable turn must have taken place.

Amalgamated Copper also proved weak and the over-speculation abroad in copper left the reactionary tendency there still in force.

The rumor that Harriman had offered a sudden and fatal seizure in Vienna was put out late and was not traced to any authoritative source.

Heavy individuals selling orders there appeared, first in one stock and then in another.

The mystery surrounding the Wabash movement has been a source of growing speculation for days and when enormous blocks were sold today by houses which were most active in accumulating the stock.
