Must Kemp Opp Section Road,—Extension of the Hawthorne-avenue railway, which ends at the Lower Mount Tabor reservoir, is receiving favorable consideration, according to J. E. Rand, president of the South Mount Tabor Push Chub. However, the extension of the line cannot be naide on the Section Line road, because the county will refuse to give a cannot be ninde on the Section Line road, because the county will refuse to give a franchise, having spent considerable minney on improving it. Mr. Rand said yesterday that the plan is to secure night of way through the land between the Section and Powell Valley roads for the extension. He seems to think that there will be no difficulty in obtaining rights of way. A committee is now working on the extension and public sentiment in favor of the branch is being worked up.

It is expected that the old building will be moved to a vacant lot so soon as the contract for the new church has been let. It is desired to start on the new building within the next two so it may be completed by the end of the year.

No Provision for Drainage.—At Tagart and East Ninth streets, at the south end of the big fill across Stephens Stough no provision has been made for drainage. At this intersection there is a depression and water will flow down East Ninth street from the south and endanger the south end of the big fill. The contractor, Frank Stevens, said no provisions were made in the specifications for drainage, but he would put in drain pipes if the property-owners would pay for the work. It is the general ophion of those who have looked over the improvement that a storm will do immense damage to the fill unless drainage is provided.

PIPR BURSTS; DEPARTMENT CALLED.—
The keenness of observation or defective sense of sight of a passing pedestrian sent the Fire Department scurrying to the Willamette Fuel Company's dock at the foot of Everett street shortly after 8 o'clock last night. The difficulty was adjusted before the department arrived on the scene.

LANE DEMURRER LOSES

Judge Bronaugh Overrules Mayor' Objection to Mandamus Suit.

Counsel for the American La France Fire Engine Company, of Elmira, N. Y. by A. G. Long, general agent, of this city, yesterday won the opening skirmish in the mandamus suit filed against Mayor Lane to compel him to sign the contract and approve the bond for the purchase from this company of two additional fire engines for the city. engines for the city, at a cost of \$12,200. After hearing arguments, Presiding Judge Bronaugh, in the State Circuit Court, overruled the demurrer of Mayor Lane to

the complaint.

As a consequence, Lane will be required to file an answer to the complaint and try the case out in the courts on its merits. George Pipes, who appeared as attorney for the city's executive, informed the court that he would file such an answer in two days. John F. Logan, who is prosecuting the suit for the fire engine company, hopes to bring the case to issue and dispose of it before Lane relinquishes his office as Mayor, on July I. In support of the demurrer Attorney Pipes argued it was not mandatory on the Mayor to sign and approve any contract the complaint. Pipes argued it was not mandatory on the Mayor to sign and approve any contract executed by the Executive Board. It was contended that the approval of any such transaction by the Mayor was one of discretion on his part.

Attacking the demurrer, Attorney Logan quoted from the city charter to show

gan quoted from the city charter to show that the Mayor had no discretion matters; that it was compulsory on him to ratify all contracts negotiated and executed by his own Executive Board. Attorney Logan scouted the idea advanced by counsel for Lane that the Mayor was infallible and superior to the

Executive Board. In overruling the demurrer Judge Bro-naugh held that it was incumbent on the Mayor to approve the bond filed by the plaintiff company for the faithful per-formance of the contract awarded by the Executive Board. The court further in-limated that to justify his action in re-fusing to sign the contract it would be necessary for the Mayor to show that it was obtained irregularly

New Bills Open at the Vaudeville Houses

BY ARTHUR A. GREENE. THE very essence of stage success lies, or should lie, in applied originality. It is true that in vaudeville the ancient song-and-dance stunt of the ancient song-and-dance stunt of our grandfathers still gets by with apologies, but, after all, the public is continually on the hunt for novelty. Because Margaret Moffatt and her company supply the much-sought novelty, their highly amusing little skit called "Awake at the Switch" takes precedence over all the others at the Orpheum this week. The sketch is by Sewell Collins, who never does a stupid thing, and the fact that it is admirably acted by Miss Moffatt, Joseph Graybill Sam Wiltse and a most realistic hotel "page" puts the final touch of excellence on the Orpheum's present feature act.

Miss Moffatt has studied the genus telephone girl to good purpose, and her airs, graces and affectations, borrowed from her social models

airs, graces and affectations, borrowed from her social models, are so lifelike that she keeps her audience in a continuous round of laughter. The stock market, delayed telephone calls, an imperative business engagement and some sentimentality form the groundwork of the clever little comedy.

A tabloid musical comedy, "Fun in a Schoolroom," given by the "Redpath Napanees," a mixed singing and dancing troupe of nine persons, serves twintroduce a number of catchy songs and some lively dance steps. Some of the dialogue is also decidedly funny.

A most refreshing and interesting

A most refreshing and interesting musical turn is offered by the Three Bohemians, an imported trio who get away successfully from stereotyped

away successfully from stereotyped musical-act lines.

One of the big hits of the performance is to be credited to Loney Haskell, a monologist, who "has a way with him." Haskell has a lot of individuality, most of his stories are new, and his mannerisms are highly amusing. Harry Armstrong and Billy Clark, song writers of note, who are joint authors of the popular "Sweet Adeline" and other hits, introduce a number of new and tuneful songs of their own and some diverting comedy.

Three remarkably capable women athletes calling themselves the Sisters Athletas fill in their assignment of time with surprising feats of strength and

The entire bill is well worth while this week, and amusement-seekers will find an entertaining show at their disposal. Don't forget the Orpheum this week.

Pantages.

THERE are several top-line acts on this week's bill at Pantages, a spectacular Chinese dramatette. "The Idol's Eye." presented by Ying Lee and Bobby Athon & Co., being one of those qualifying for first place. The scenic effects in this skit are pretentious and artistic, and furnish a veritable riot of Chinese color.

furnish a veritable riot of Chinese color. The comedy is of this year's brand, and Bobby Athon adds some happy ideas to comic song singing. Ying Lee is a rapid-fire artist, who attains some splendid results with lightning-like rapidity.

Jack Hawkins, a college man and clever athlete, gives a novelty jumping act, which is essentially clean and good. In point of numbers, Wise and Milton, in their musical comedy. 'In the Land of Bugaboo,' take the paim. In the cast there are all told, ten colored men and women who dance, sing and give a jolly jumble of jungle jingles. The leading 'loidy' of the aggregation is good to look upon, and a male quartet are among the pleasing features.

Cooper and Brown sing and give some supposedly funny comedy. The Wheelers, automobiling junglers have

supposedly funny comedy. The Wheel-ers, automobiling jugglers, have a stunt ers, automobiling jugglers, have a stunt that appeals. Their entrance is made in that appeals. Their entrance is made in a freak automobile that balks, bucks and finally evaporates. A papier mache duck, and jackass assist the performers in their entertaining mixup. The De Chantal twins are singers with a decided sense of harmony, who have the good taste to stick to ballad singing which permits of close harmony. Averagely interesting moving pictures complete the bill.

Grand.

STRENUOUS vaudeville; in verity, the Grand has to offer this week. The noteworthy feature is presented by Dumitrescu-Vermette troupe, a quartet of foreign acrobats, who have cornered the muscle terror. muscle trust. Their act consit of zontal bar exploitations, and is the head-

Virginia Grant, sings a lot of sweet old tuneful melodies in a good voice, with appropriate gowning in each instance. The Daring Darts are sharp-shooters who make good, and Kelley and Reno are masculine acrobats who do a roughhouse act with chairs.

Don and Thompon present a lot of really never-neard-before jokes, which take immensely well in spite of the laug's voice, the infantile qualities of which remind one forcibly of a carnival horn.

Fred Bauer 's in good voice this week and the grandascope presents some especially good moving pictures.

TILLAMOOK, Or., June 20.—(To the Editor.)—As to the launch Rose and Captain Johns' poor judgment in crossing the Yaquina Bay bar when the weatherwas so rough, I wonder if Captain Johns did as his passengers wanted him to do, or did he do what he thought was best? There is not a sea captain in the United States who can tell when and where a sea is going to rise and break no materials. States who can tell when and where a sea is going to rise and break, no matter how calm the sea is. If people in small hoats or large ones do not want to be washed by breakers, they had betterstay in the small pools. A person should not 50 cut on a vessel, and then come back and abuse the captain for what happened. Captains generally do what they think best. SEAFARING MAN.
