GIVE SHIP SUBSIDY

Humphrey Starts Campaign for New Bill, Backed by President.

REGISTER FOREIGN SHIPS

Leaders of Subsidy Forces Eat Dinner Together and Launch Boom for Old Scheme With New Set of Trimmings.

WASHINGTON, June 23.—Ship subsidy was revived and a new form of campaign inaugurated at a dinner given by the Merchants' Marine League at the New Willard Hotel tonight. A new bill will be Introduced in the House on Thursday by Representative Humphrey, of Washington, and in the Sonate by some of the friends of the ship subsidy, probably Senator Gallinger.

Speaker Cannon was the guest of honor at the dinner. President Taft gave encouragement to the promoters by drepping in about 9 o'clock, remaining for a short time. He declared he would do all in his power to rehabilitate the American merchant marine.

Free Ships in Foreign Trade.

At present Americans owning foreignbuilt ships are not permitted to fly the
American flag or have the vessels admitted to American registry unless they
are more than half rebuilt in American
shipyards. The bill proposes to admit
to American registry foreign-built ships
of 5000 gross tons or more wholly owned
by Americans. These ships are to be
restricted to foreign trade or the trade
of the Philippine and Hawalian Islands,
and are to be barred from the constwise
trade and from all mail compensation
under the act of 1891, or the Humphrey
act.

In a statement summarizing and ex-plaining the provisions of the bill, Mr. Humphrey said in reference to the free

thip section:

Personally I do not believe that this portion of the bill would have any effect whatten of the bill would have any effect whatten, but it has been urged by many that his privilege should be extended it will five those who have been urging this an apportunity to vote the way they have been alking. Every time that a mail subsidy still has come before Congress it has been alking. Every time that a mail subsidy still has come before Congress it has been alking. The insertion of this clause will rive an opportunity to ascertain whether hose who have been talking for free ships were in carnest, or whether they were simply useing it as an excuse to defeat legislation.

Changes in Tomage Tax.

Mr. Humphrey continued:

Changes in Tonnage Tax.

Mr. Humphrey continued:
Section 2 reduces tonnage taxes from searby countries from 3 to 2 cents per ton, and in the aggregate from 15 to 10 cents per ton in any one year. In the ports of North America, West Indies and Venezuela sur American ships still have some share and our flag is better represented there than a the trans-occanic trade. This will be a listinct help to American vessels in this grade.

trade.

It repeals the so-called reciprocal tonnage tax exemption law, not primarily to increase revenue, but to keep the revenue as nearly as possible unchanged, and especially to forestall the possibility of a heavy decrease in revenue under laws nominally reciprocal, but as a matter of fact not admitting of reciprocity because in many of the ports claiming the advantages of this reciprocity American vessels do not enter, while vessels from that port do come to the United States.

Raise Trans-Coursel.

Raise Trans-Oceanic Taxes.

The bill proposes in the trans-ocean ade to increase tonnage taxes from 6 rents per ton, and from 30 to 60 cer fon, maximum, per annum. This case will fall almost entirely upon forel ships and it is proposed to tax these foreign ships that are now carrying our trade
and have all the advantages of our rivers
and harbors and our lighthouses and other
coast protections, so that they may help
boar the burden of these improvements. Almost the entire burden of this increases will
fall upon foreign vessels. Certainly no
more striking illustration can be found in
our history of taxing the foreigner for the
benefit of our own industries. By this increase the revenues from that source will
be deubted or increased approximately \$1,000,000 per annum. The tonnage taxes in
this country are lower than those of the
European nations, with the single exception
of Holland.

Premium on Training Seamen.

If American vessels engaged in trans-oceanic trade should carry American boys, one for each thousand net tons, and train them is seammanhip and engineering. So per cent of their tonnage taxes will be rebated. This is a most important provision, as there is great fixed of training American boys in seamanship, if we are to have a merchant marine or a navy.

I have introduced this bill after consulta-tion with many of the shipping interests

I have introduced this bill after consultalow with many of the shipping interests
broughout the United States and with many
f the foremost men in the country who wish
o see our flag once more restored to the
eas. I have great faith that this hill will
to passed at the next session of Congress,
will have the approval of the President
and I believe that it will meet the approval
of practically the entire Republican maorder, and that it will be supported by sevral Democrats both in the House and the
senate.

The bill seeks to establish new mail lines to South and Central America, Japan, China, the Philippines and Aus-tralia, the compensation of these lines being paid out of the mall receipts.

Jules Waterbury Arrested in New York After Chase.

Man Represented Himself as Preparing Book Under Auspices of Associated Press, and Took Cash for "Write-Ups."

WASHINGTON, June 33.—Jules Waterbury, Indicted last Summer and charged with fraudulent representations, was arrested in New York City today by special agents of the Department of Justice. Soon after his indictment he forfeited a \$2000 bond and disappeared.

Using the name of the Associated Press, with which he had no connection, Waterbury, it is alleged, obtained from many members of Congress and prominent Government officials sums of money raiging from \$50 up. In return Waterbury is alleged to have promised the persons he approached that he would exploit them in a book which he was preparing to publish. This book he represented himself as preparing, with the sanction of the Associated Press. paring, with ciated Press.

Waterbury opened an office here which he called "The Associated Press Bio-sraphical Bureau." He is alleged to have informed those whom he approached not only that their biographies would be published in this book, but that the papers having membership in the Associated Press would be furnished with copies of those articles.
