IDAHO OFFICIAL CHARGES BRIBERY

Secretary of State Declares He Was Offered $1000 for Improper Purpose.

NAMES MAKER OF OFFER

Charges That Effort Was Made to Obtain His Influence Toward Relocation of One of Idaho State Institutions.

BOISE, June 24.—(Special.)—Declaring that he had been offered $1000 to support Boise's claims to the permanent location of the Deaf, Dumb and Blind School, and later modifying his statement by saying the sum was offered to silence his advocacy of Weiser, his home town, Secretary of State Lansdon caused consternation in the ranks of the State Board of Education today. He first declared the tender was made by the Boise Commercial Club, but later said it came from A. E. Carlson, who is president of the club.

Miss S. Belle Chamberlain, State Superintendent of Public Instruction, and a member of the board, warmly resented the statement made by Lansdon. She said she did not for a moment believe the club would so degrade itself.

Governor Brady, in Caldwell, was called over the phone. He confirmed the report of Lansdon's statement, but said that later on in the meeting, Lansdon had indulged in so much squirming and qualification as led the Governor to believe whatever tender had been made, if any, was in the nature of a "josh."

"You may say for me," said Governor Brady, "that if I have any reason to believe that any such offer was seriously made to a member of the State Board, I shall institute an investigation with the view of prosecuting the offender or offenders."

A. E. Carlson, president of the Commercial Club, said:

"There is absolutely nothing to it, the Commercial Club or no one else ever asked me to offer anyone any money, and so far as the members of the club are concerned, they have not the funds with which to make any such offer."

PORTAGE ROAD GETS FUND

Attorney-General Finds Way Out of Legislative Blunder.

SALEM, Or., June 24.—(Special.)—Attorney-General Crawford today rendered an opinion to the effect that $75 a day appropriated by the terms of Chapter 89, laws of 1909, be used for the operation and maintenance of the entire portage railway system.

Under a strict interpretation of the act, the amount would not be available for anything but the construction of the line from Big Eddy to The Dalles, and the balance of the line would have to quit business for lack of money with which to operate. The Attorney-General, however, decided that it would be safe to be guided by the evident intent of the Legislature rather than by the strict wording of the law.

Judge W. J. Marriner and L. A. Lewis, of the Portage Railway Commission, came to Salem today to consult with the state officials regarding the matter. The Commissioners report that the road is doing a good business and that when the extension to The Dalles is completed the road will be self-sustaining.

ORCHARD IS NOT PARDONED

Warden Snook Makes Reply to Editorial in Socialist Paper.

BOISE, Idaho, June 24.—(Special.)—Warden Snook, of the Idaho Penitentiary, today made the following statement relative to the positive editorial announcement in the Appeal to Reason, Girard, Kan., that Harry Orchard, the murderer of ex-Governor Steunenberg, had been secretly pardoned:

"The ravings of that fellow are unworthy of attention. Of course Orchard is here. He is employed in the shoe department and can be seen by all visitors. If the Girard anarchist will call I will present him to Orchard, if the latter will receive him. Anyway, he can see Orchard at work and satisfy himself."

COMPANIES LOSE CHARTER

Fifteen Thousand Washington Corporations Delinquent in Taxes.

OLYMPIA, Wash., June 24.—(Special.)—About 15,000 Washington corporations will be wiped off the records of the office of the Secretary of State, and such of them as are not already dead will no longer be permitted to do business in this state. Under a law of 1905, all corporations which are delinquent two years or more in payment of annual license must be taken from the list.

The Attorney-General has just ruled that this delinquency cannot be cured by paying up now. Thousands of old corporations are delinquent and many hundreds more will fall in the class unless they pay up this month.

GWINN IS SPEAKER

President of Oregon Bankers Responds to Welcome.

SEATTLE IS ENTERTAINING

Financiers of Three States Are in Annual Convention—Visitors Are Tendered Reception in the Armory Building.

SEATTLE, June 24.—The tri-state convention of the Bankers' Association of Oregon, Washington and Idaho met at 11 o'clock this morning in the Moore Theater. Mayor John F. Miller and President M. A. Arnold, of the Seattle Clearing House, welcomed the bankers, and responses were made by Monte B. Gwinn, of Pendleton, president of the Oregon Association; Frank F. Johnson, of Wallace, president of the Idaho Association, and W. L. Adams, of Hoquiam, president of the Washington Association. J. F. Allen, of New York, spoke on "The Pacific Northwest from an Eastern Standpoint."

Six hundred of the 733 banks in the three states are represented. The members, with their wives, make the total number of visitors 1000. The Seattle Clearing House appropriated $15,000 for entertainment of the visiting bankers.

A reception in honor of the visiting bankers was given tonight in the Armory by the Associated Banks of Seattle. All of the Seattle bankers were on the reception committee and the handsomest of them constituted the floor committee. A large majority of the visitors attended.

Monte G. Gwinn, president of the Oregon State Bankers' Association, in responding to the address of welcome at the meeting of the Tri-State Bankers' Association here today, spoke in part as follows:

"On behalf of 'Mother' Oregon, it becomes my pleasant task to accept, in the same generous spirit in which it has been extended, the kindly and cordial welcome to this great city and this great state on this important occasion—the assembling of the Bankers' Association of three commonwealths.

"I use the term 'Mother' Oregon in the maternal sense. Some years ago she gave to her eldest son, Washington, a big slice off the old farm, including countless acres of productive lands, majestic mountains, beautiful lakes, abundant streams, wonderful forests, wealth in coal deposits, minerals and metals, and for good measure included a wide stretch of the Pacific Ocean.

"Set to housekeeping with such a start, much was to be expected, and it is a matter of the greatest maternal pride to 'Mother' Oregon to witness the remarkable manner in which the son Washington has made good and the warmth of greeting and affection and welcome demonstrates to the full that Son Washington is ever mindful of the obligation and ever filled with filial affection for the mother state.

"Oregon is justly proud of her son and daughter. What mother does not center her love and affection and ambition upon the struggles of her children, and what joy comes to her fond heart when success comes as the rewards for well doing. Idaho, with all the magnificent resources set apart and endowed by 'Mother' Oregon, has made and is still making the most of her advantages, increasing her talents, and we are as proud of her as of Washington for what she has done and is doing for humanity."

If the Captain's rifle works as efficiently on these denizens of the forest as it worked here yesterday, woe is due all who get within range.

The other games were lost to Portland teams. The hardest game played was with White Salmon, the score being 2 to 3.

The team is composed entirely of local men whose only time for practice is after their regular working hours. The manager has been liberally supported by the local merchants, so that the season will close without the usual debt to be met.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt. — "I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." — MRS. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.
