GOOD FOR HARVEST

Improved Weather Causes Selling in Wheat Market.

SENTIMENT IS BEARISH

Heavy Unloading by Leading Cash Interets Is the Feature of the Day's Trading-Close Is Weak.

Wheat merchants believe that as soon as the crop is harvested, the selling movement on the part of farmers will be an active While growers all have bullish views one. While growers all have builtsh views, as is to be expected after the high prices of last year, and are now talking \$1 wheat, it is believed that most of them will be ready to sell when they have their crop in ready to sell when they have their crop in hand. Not much contracting has been done yet, as there is but little disposition on the part of either buyers or sellers now to get together. The spot market is also dull for the lack of supplies. Oats and barley are also quiet.

SALES OF BURNT RIVER WOOL Miles Lee Pronounces the Quality of the

After purchasing a quantity of wool from Burnt River, Miles Lee, the veteran wool ourer, stated it was the best he had seen this year, says the Baker City Herald, Mr. Chamberlain was one of the sellers. His daughter, Miss Edith, had 18 sheep, which might be considered an unitalky number but in this case it was not. The lambs and wool from the small band netted the young lady \$6.40 a head. Mr. Whitehead, another Burnt River rancher, had 125 sheep and received the same amount of profit per | \$7.70.

Cable advices from Europe report vermin still prevalent in England. One correspond-ent's estimate for the English crop is 340,-900 cwt., as compared with 470,000 cwt. in 1908. Germany and the Continent, scord-ing to present indications, will be one-third short of last year's yield.

"Wool is coming in rapidly now," said Mr. Lee, "and I think by July 1 it will practically be all marketed. It is the best this year that I have ever seen and weights well. Burnt River people are entering the sheep business more extensively than here-tofere, due to its proving more profitable than cattle. Lambs fiscees this year average about 3 pounds and ewe fleeces about 10 pounds."

Practically No Movement in New York Market.

LITTLE CHANGE IN PRICES

No Disturbance in the Money Market Expected to Result From the July Settlements - Export of Gold.

July 1 is one, traditionally, of quiet stock This normal tendency was emphusined today by several additional circumstances which combined to throw the market into a state of stagnation not approached for many months. After the first hour the market was practically idle.

Oponing prices showed insignificant changes tom last week's closing. Slight fractional dvances in Union Pacific and Reading had he most influence on the speculative senti-nent. Room traders curtailed their opera-lons greatly and fluctuations were, in contions greatly and fluctuations were, in consequence, of little importance. The market closed irregular and almost lifeless.

Confidence is unimpatred that the July
money settlements will offer no factor of
disturbance and money markets remained
in the saft and yielding state that has
characterized them for some time past.

Engagement of \$2,300,000 gold today for
shipment to Europe was in spite of, a show
of growing abundance of money in foreign
markets, which lowered the discount rate
today both in London and Berlin. The shipments of gold going on from New York are ments of gold golng on from New York are a measure of relief from a plethoric money market, due to the excess of the tnflow of money from the interior over the outgo by gold exports, the amount of the latter since the first of January having risen slightly over \$60,000,000, while the excess of receipts from the interior over shipments in that time is estimated at no less than \$100,000,000. is estimated at no less than \$100,000,000.

More Business in New Hops at 15 Cents-Fruits Arriving Freely and in Good Demand-Poultry Is Doing Better,

CHICAGO, June 25.—Domestic conditions again dominated in wheat and as nearly all reports today teld of the steady advance of harvest and claimed generally good yields, sentiment was bearish. The feature of trading was liberal sales by two of the leading cash interests, which selling was based, in all probability, on greatly increased offerings of new wheat. An advance of 35 d at Liverpool, due, it was said, to bullish advices regarding the wheat crop of France and Argentina, caused firmness at the start, but before the end of the first half hour sentiment became increasingly bearish. Improved harvesting weather inspired selling and the Weather Bureau predicted better weather. The range of July was between \$1.14% and \$1.16%. The market closed weak with prices from %c to %c above the low point, final figures for July being at \$1.15. CHICAGO, June 28 .- Domestic conditions being at \$1.15.

The men, who had packed their belongings preparing to leave the city, had engaged Montgomery to haul the baggage to the Southern Pacific depot.

It is claimed by the Greeks that Montgomery had agreed to haul the baggage for 50 cents, but upon arriving at the depot told them it would be \$1. This the Greeks refused to pay, and after some arguing the Greeks set upon the teamster. Grant, picking up a beard, beat Montemery over the head, while the other man used his fist, knocking it out of joint. Grant was fined \$20 and Caras \$10. Both men were lodged in the County Jall, as neither had enough money to pay his fine.
