ORDERS OUT FOR BIG RIFLE MEET

National Guard Marksmen to Engage in Annual Shoot Early in August.

24 TEAMS TO TAKE PART

Interest Centers About Governor' Trophy Match in Which Third and Fourth Regiments Will Compete for Supremacy,

Orders for the annual state rifle competition, in which 24 teams of riflemen representing every section of the state where National Guard troops are stationed will compete for trophies and medula,

ed will compete for trophies and medals, were issued yesterday from headquarters of the Oregon National Guard.

Four important contests to establish the supremacy in rifle markmanship of the various organizations are provided, together with a match for revolver marksmen. The competition will open August 1 and will continue until August 3, or until the matches are completed.

The four important rifle matches named in the orders are the state trophy match, the state medal match, the state individual match and the Governor's trophy match. The one about which the greatest interest centers is the Governor's

trophy match. The one about which the greatest interest centers is the Governor's trophy match, inasmuch as it will establish the regimental championship. Heretofore these laurels have gone to the Fourth Infantry, of Southern Oregon, owing to the better facilities for preliminary practice on the Southern Oregon rifle ranges. This year however, the Third Infantry his had the advantages of the new Clackamas Station range and is condent of a different outcome. This match will be hard fought and it will be hard to pick the winner in advance, although the Southern Oregon command would seem to have a slight advantage.

Hard to Pick Winners.

Hard to Pick Winners.

Hard to Pick Winners.

The outcome of the state individual match will be the most spectacular of the lot. Nearly every one of the 120 riffemen to be on the range will enter and each man will be for himself. That match also went to Southern Oregon last year, but the Third Infantry has developed several marksmen who believe they have a chance this time. The State trophy match will be for the company championship and the state medal match a context open to all riflemen competing in the state trophy match.

The firing of the various events will include every range. In the State trophy match there will be slow fire at 200 and 600 yards, and rapid fire at 200 yards. The same order of the fire will be followed in the state medal match. In the individual context there will be a skirmish run, 300 yards rapid fire, 200 yards slow fire, and slow fire at 600, 8000 and 1000 yards. In the Governor's trophy match there will be rapid fire at 2000 yards and slow fire at 800 and 1000 yards.

Shoot for Silver Cup.

Shoot for Silver Cup.

Shoot for Silver Cup.

In the state trophy match the prize will be a silver cup to become the property of the organization winning it three times. In the state medal match, the award will be a gold medal, to become the property of the officer or man winning it three times. The outcome of this match will be bussed on the highest individual scores of the company championship contest. In the individual competition there will be ten medals, one gold for the competitor making the highest aggregate score, two silver medals for the second and third highest aggregate scores, five bronze medals for the next highest aggregate scores, one silver medal for the nighest aggregate score, one silver medal for the highest aggregate in slow fire, a cilver medal for the highest aggregate in slow fire, a cilver medal for the highest aggregate score in skirmish fire. The state pistol match will be open to all officers and non-commissioned officers present on the range. There will be slow, timed and rapid fire in this event and the prizes will be a gold medal and two silver medals for the first, second and third highest aggregate scores.

Provision is made in the orders that all members of feams and competitors must have performed 75 per cent of military duty, such as parades, drills, encampments and other dutles, during the time they have been in the Guard. Certification of such service must be filed with the statistical officer in the Adjutant-General's office not later than July 20.

NEW ESTIMATE IS MADE

Dr. C. H. Raffety Believes Portland Has 289,259 People.

At the meeting of the Mount Tabor Improvement Association at the home of W. A. Laidlaw, Monday night, Dr. C. H. Raffety, who has been a member of the Water Board for the past 16 years and who retires tomorrow, spoke at some length. He said that at present there are 42,556 houses supplied with twater in Fortland, and he estimates from these figures that Portland has 1280,259 people.

Dr. Raffety said that the Portland water works system was no longer ade-

Dr. Raffety said that the Portland water works system was no longer ndequate to the needs of the city. The single pipe line to Bull Run has been overburdened by the growth of the city, he believed. A committee from Salt Lake, he added, made an examination of all the water systems of the Coast, and reported that Portland had the best, but that it was too small. In closing Dr. Raffety said he had every confidence that the new administration would lay the second Bull Run pipe line, enlarge the plant and carry on the system to the satisfaction of the people. He commended strongly the plan of laying water mains adopted at the June election.

"I have been 18 years a member of the water committee," said Dr. Raffety, "but have only two days more to serve. I have never received a cent of componsation, and have done what I thought was best for the people of Portland."

On motion of C. W. Gay, a vote of

Portland."
On motion of C. W. Gay, a vote of thanks was extended by the Mount Tabor Improvement Association for Dr. Raffety's long service and for the interest he had always shown in Mount

LIVE QUESTION AT FORUM

Full of Interest.

Discussions at Chantauqua to Be

Eva Emery Dye, of Oregon City, a prominent author on the Pacific Coast, will direct the Chautauqua Forum next Wednesday morning, at Gladstone Park. Social problems of great import will provide the subject and Rev. James D. Carby, of New York City, and Judge T. N. Strong, of Portland, will lead in the

discussions. "White Slavery" is a subject with which Rev. Mr. Corby is intimately acquainted, having been for some time the chaplain of the New York House of Refinge. Judge Strong will speak of "Charitable Experiences," gathered from his connection with the Board of Associated Charities in this city.

During the entire session of the Chautauqua, the White Ribboners will conduct a round table in the W. C. T. U. headquarters. These gatherings will take place every morning between 10 and 11 o'clock. Many of the most progressive leaders of the movement have been secured, each being allotted a subject, in which she is most actively interested. Among these women is Mrs. Margaret Dye Ellis, superintendent of the department of legislation for the National Woman's Christian Temperance Union. Her familiarity with the ways of Congress in the treatment of the temperance question makes her particularly interesting as a lecturer upon this subject.

During the W. C. T. U. meeting, in-formation will be forthcoming, it is said, regarding the Nation-wide progress of the temperance movement and the part that has been taken by the women in bring-ing it about

METHODIST SOCIETY HEARS FAVORABLE REPORTS.

Annual Conference Opens at Centenary Church With Almost 100 Delegates Present.

The Women's Home Missionary Society of the Oregon Methodist Conference opened its twenty-third convention yesterday afternoon in Centenary Methodist Church, East Pipe and East Ninth streets, with a large attendance of delegates, After the usual devotional exercises, Mrs. Helen M. Southwick, president, read her annual report, in which she gave a brief resume of the work of the year.

Mrs. Southwick said that at no time in the history of the Women's Home Missionary Society had so much real work heen accomplished. There had been marked increase in activity in all lines of work. Establishment of a mission among the Swedish people of Portland had been attended with gratifying success, she said.

The annual report of the correspond

Portland had been attended with gratifying success, she said.

The annual report of the corresponding secretary, Mrs. Fannie M. Penn, was heard with interest, as it gave in detail the story of the work of the year. She told how ministers in remote parts of the state had been helped, both with cash and with clothing. Cash to the amount of \$700 had been expended in this direction. The report also showed that the Swedish mission in Portland, provided for by the society a year ago, had been successfully established and was without debt. The report spoke of the industrial training schools assisted by funds raised in Oregon. Special mention was made of the work of Mrs. C. L. Weaver, state organizer.

Reports were submitted by Mrs.

the work of Mrs. C. L. Weaver, state organizer.

Reports were submitted by Mrs. G. E. Metcalf. temperance secretary, and Mrs. E. Sadle Smith, reading circle secretary. Then came a fine address by Mrs. F. J. Hard on the Alaskan work, setting forth what is being done in that district. Mrs. W. H. Saylor brought greetings to the convention from the Women's Foreign Missionary Society. An exercise by Home Guards was conducted by Mrs. T. H. Short. This was followed by reports from district corresponding secretaries.

Last night a public meeting was held in which Dr. Benjamin Young, Dr. J. H. Cudlipp and Dr. C. T. Wilson took part. Mrs. Fannie M. Penn spoke in behalf of the society. Bishop C. W. Smith delivered the principal address of the evening. This was followed by a reception to the delegates, of whom there are nearly 100.

The walls of the auditorium are lined with hundreds of pictures from the training schools and missions.

The walls of the auditorium are lined with hundreds of pictures from the training schools and missions of the society, and a table is covered with tracts telling where and how the society does its work. Today a number of important addresses will be delivered, including discourses by Miss Olivia Bostrom, deaconess of the Swedish mission: Mrs C. L. Weaver, state organizer: Miss Florence Twidwell and Mrs. E. Plorence Twidwell and Mrs. E. H. Belknap.

Seaside Will Celebrate.

SEASIDE, Or., June 29 .- (Special.) Senside will have a Fourth of July celebration, July 5. There will be parades and races and a pyrotechnical display from the pier over the ocean.

- CONTOUR MAP -

Simon Regime to Be Ushered in at Midnight.

AX OUT FOR CAMPBELL?

Rumor Prevalent at City Hall That Last Act of Administration Will Be to Decapitate Chief of Fire Department.

The administration of Dr. Harry Lane as Mayor of Portland will end at 12 o'clock tonight, and Joseph Simon's regime will be ushered in immediately. At 4 o'clock this afternoon the last session of the City Executive Board will be held. Mayor Lane presiding, and at the same hour tomorrow, the first meeting of the new Board will meet, Mayor Simon in the obster.

There is a feeling of unrest in official circles, which finds expression very freely at the City Hall. There is a rumor that Mayor Lane and the members of his Executive Board, at the meeting to be held this afternoon, will, as their last official act, order the discharge of several municipal employes, including David Campbell, Chief of the Fire Department. However, there is no special reason to believe that they will take drastic action such as this, although it is known that the Mayor and members of the Board are very hostile to Mr. Campbell. If they choose to oust him, it is well within their power now, as the amendment to the civil service rules makes it possible to discharge any employe without specific grounds, and it is then up to such employe to prove, if he can, that he was dismissed for reasons other than the good of the service.

Mayor Lane will fake a rest in the mountains before he resumes the practice of medicine. He has spent four strenuous years in the city's service, and feels the need of rest. He denies that he will run for Governor, as some have predicted he would, and indicates that he is well pleased to be out of office, at least for a time.

Mayor Lane has led the most specta-There is a feeling of unrest in official

pleased to be out of office, at least for a time.

Mayor Lane has led the most spectacular administration the city ever had, in many respects. Probing alleged scandals in various departments of the municipality has been one of his specialities. Closing the discreputable houses of the old North End district was a conspicuous instance of his activity. Formation of the late-lamented moral squad in the police department also characterized the regime. Personal inspection of sewers, sidewalks, curbs and streets will also compare with the first two named specialties. Dr. Lane says he has tried to do the best he knew how for the good of the great masses of the people, showing no official favors, but exacting from all who deal with the city good work or material for the money paid out.

The Simon regime will begin in earnest The Simon regime will begin in earnest tomorrow. Mr. Simon will take charge of the executive office at the City Hall, with his private secretary-stenographer, Miss Agnes Parsons. At 4 P. M. he will meet for the first time in his official capacity the new Executive Board, and will take up with the members the duties of the Board. Vast work lies ahead of these men, as there never has been a time when so much improcement work was in progress and so many new projects considered.

Mr. Simon has a few appointments to announce yet, the principal ones being Chief of Police and City Engineer.

UNITED STATES ENGINEERS PREPARE MAP OF COLUMBIA RIVER'S MOUTH

CONTOUR SKETCH SHOWS THAT PRESENT CHANNEL IS 261/2 FEET DEEP IN MOST SHALLOW PLACE.

United States Engineers, under direction of Major James F. McIndoe, have completed the compilation of data, secured during the annual survey of the mouth of the Columbia Rever and have issued maps showing the soundings taken at that time. The contour map is published showing the depth of water in the new channel. This lies a triffe west of the old channel, surveyed a year ago. The shoalest place shown by the the benefits derived from the filling in of the jetty. The channel is much more narrow this season than last but the water is deeper. Steamship masters operating out of Portland have suggested that the lightship from the ship to the light on Cape Disappointment. The lighthouse department will take up the matter of replacing the buoys and light vessel.

Item Welcomed By Many Men

This recipe can be filled at home, so that no one need know of another's troubles, as the ingredients can be obtained sep-arately at any well stocked drug store. They are in regular use and many different prescriptions are constantly being filled with them.

and many different prescriptions are constantly being filled with them.

This will prove a welcome bit of information for all those who are overworked, gloomy, despondent, nervous and have trembling limbs, heart palpitation, dizziness, cold extremities, insomnia, fear without cause, timidity in venturing, and general inability to act naturally and rationally as others do, because the treatment can be prepared secretly at home and taken without anyone's knowledge.

Overworked office men and the many victims of society's late hours and dissipation will, it is said, find the restorative they are in need of.

If the reader decides to try it, get three ounces of ordinary syrup sarsaparilla compound and one ounce compound fluid balmwort; mix and let stand two hours; then get one ounce compound easence cardiol and one ounce tincture cadomene compound (not cardamon), mix all together, shake well and take a teaspoonful after each meal and one when retiring.

A certain well-known medical expert asserts that thousands of men and many women are sufferers all because of dormant circulation of the blood and a consequental impairment of the nervous force, which begets the most dreadful symptoms and untold misery.

FLAMES IN WHEAT SHIP

FIRE BREAKS OUT IN HOLD OF INVERNESS-SHIRE.

Craft Puts Into Valparaiso, Chile, in Distress - Has Full Cargo of Grain From Puget Sound.

Merchant Exchange advices received yesterday from Valparaiso. Chile, announce the arrival at that port of the four-master British bark Inverness-shire, with fire in the hold. The dispatch is short, and beyond the information that fire was raging in the lower hold and that a portion of her cargo was damaged, nothing was given.

that a portion of her cargo was damaged, nothing was given.

The Inverness-shire sailed from Tacoma March 24 with a full cargo of wheat for the United Kingdom. She passed Port Townsend the following day and put to sea immediately. Her cargo was dispatched by Kerr-Gifford & Co, and she was the last grain packet of the season to load at Puget Sound. The craft was commanded by Captain Tyndall. Both the vessel and her master are well known in Portland. She loaded grain here two years ago for Europe. She

well known in Fortland. She loaded grain here two years ago for Europe. She is one of the Shire line packets and has been an old-time trader to the Pacific. She was built in 1894 at Glasgow and measures 2147 net tons. She has a capacity of about 140,000 bushels of wheat.

I Cure Men

I have treated hundreds of men who had long suffered a gradual decline of physical and mental energy as a result of private ailments, and my success in curing difficult cases of long standing has made me the foremost specialist treating men's diseases. This success is due to the study I have given my specialty; to my having ascertained the exact nature of men's ailments, and to the original, distinetive and thoroughly scientific methods of treatment I employ.

To those in doubt as to their true condition who wish to avoid the serious results that may follow neglect, I offer free consultation and advice, either at my office or through correspondence. If your case is one of the few that has reached an incurable stage, I will not accept it for treatment, nor will I urge my services upon you. I treat curable cases only, and cure all cases I treat.

DR. TAYLOR, The Leading Specialist

WEAKESS

I am confident that I have cured more cases of so-called "weakness" than any other physician. There may be doctors in the largest Eastern cities who have treated more cases than I, but they cling to the old and ineffective practice of dosing with tonics. "Weakness" is merely a symptom of local disorder that requires local treatment. This is a truth that I have discovered, and that has been fully established by my success in effecting permanent cures. My method is original with myself and is employed by no other physician.

CONTRACTED DISEASES

I cure these troublesome and positively dangerous diseases in but half the usual time required, thus forestalling chronic complications. A new and unique system of treatment that cannot fail to cure both quickly and permanently.

VARICOSE VEINS

Many who are but slightly afflicted with varicose veins believe that the trouble is of but little consequence. The opposite is true. Variouse veins is a disease of a progressive nature. As it advances, nervous complications come, one's vitality diminishes and the general health is impaired. I cure varicose veins in five days, without the use of a knife, ligature or caustic, without pain and without detention from business.

I also cure permanently, Hydrocels, Specific Blood Poisoning, Prostatitis, Spermatorrhoea and all reflex ailments.

PAY WHEN CURED

Consultation and advice free at my office or by mail. All medicines are prepared in my own lab-oratory from the finest standardized drugs.

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S. S. S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and stengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age.
