

BAPTISTS CHANT PEANS OF PRAISE

Delegates to Big Convention Sorry They Can't Stay Here Longer.

WANT TO SEE COUNTRY

Unanimous Verdict Is That 1909 Gathering Has Been Biggest and Best Ever Held—Interviews With Church Leaders.

One and only one opinion is held regarding Portland by the delegates at the Northern Baptist convention...

"This is the greatest convention we have ever had," said Dr. Fred Haggard, home secretary of the Northern Baptist Missionary Union...

Expectations Are Surpassed. "As to Portland, those of us who had been here knew just what to expect and we were in no way disappointed."

"We know more. We know that it makes no difference where the Northern Baptist Convention is held, for wherever it is held the Baptists will rally round us and make it a success."

"There have been absolutely no criticisms or complaints. There could be none. We all feel like our brother, Stackpole, when he told of the man who said, 'Oh, Lord, I ain't got nothin' agin nobody.'"

Rev. John Rogers, secretary of the convention, now knew that Portland had a beautiful future, however much she had been forced to disbelieve the fact in the past.

"In the convention, we have done the work we intended," he said. "With every one of us it has left its happy spiritual influence. I am heartily pleased with the convention and with Portland."

"We must, however, stop the system of committees meeting while the convention progresses. By next year we ought to be able to leave the convention during the afternoons and evenings."

"It has been a most serious obstacle to the perfect success of the convention knowing that so many of us had to be away at these different committee meetings."

Mr. Dean wanted incidentally to advertise Seattle and told of the work Evangelists Davis and Mills were doing on the "Pay Struck."

"The Judson Way" was what Dr. Leroy Stephens, secretary of the Pennsylvania Baptist Education Society, Philadelphia, talked about. The perfect and sane case of control manifested by Dr. Judson in his capacities as president had won Dr. Stephens' approval.

About Portland he was very careful, because he was sitting next to a visitor from Seattle. Dr. Stevens knew he had to be careful, for one reckless delegate said he did not need to see the city, but when he saw Tacoma and the doctor watched with appreciative eyes the result.

"All these Western cities are going to be great," said Dr. Stevens. "Don't know enough of the cities to forecast which will be greatest, but I am filled with admiration at your magnificent buildings, your superbly equipped churches, your magnificent homes, which are far more magnificent than I had dared to hope."

Some more opinions of leading delegates to the convention follow:

Predicts Rapid Progress. A. J. Rowland, secretary American Baptist Publication Society, regarding the Portland convention as marking the highest point of enthusiasm and efficiency yet reached by the Baptists of the North and Western States. From this time on the work of the Northern Baptist Convention and of the societies conducted with it should advance by leaps and bounds.

W. C. Bittling, secretary of the Northern Baptist Convention—The welcome we have received from the city and the White Temple is beyond praise. We shall never forget Portland.

H. L. Morehouse, secretary American Baptist Home Mission Society—The meetings at Portland have been almost phenomenal in the scope of subjects considered, in the intense interest and good judgment manifested, and in the spirit of good fellowship. The broadness of the city and the hospitable religious atmosphere of the Baptists of Portland have contributed to the enjoyment of the occasion.

Emory W. Hunt, president Denison University—I can scarcely conceive of conditions more delightful for a meeting of the convention than we have had in Portland. These are in large degree responsible for the success and interest of the meeting. It will be regarded as a convention of great historic interest.

E. C. McConnell, Kansas City, Mo.—This convention is great.

Dr. George T. Webb, official reporter of the convention and editor of the Daily Bulletin, has the honor of talking about Portland and the Northwest. At the same time, he has peculiar ideas about the duties the newspapers owe to the convention. Dr. Webb said:

Surprise and Delight. "The Portland meeting of the Northern Baptist convention has been in every respect a surprise and delight. In the large attendance of both delegates and visitors; the thoroughly representative character of the assemblage; the harmony that has prevailed, and the good feeling that has been uniformly observed, the convention is unique. The thorough organization of the local committee, their thoughtfulness and faithfulness have made it hard for any subsequent convention to equal the one of 1909."

Maccabee Installation. At an open meeting of Portland Baptists...

No. 1. Knights of the Maccabees, last night, the following officers to serve for the term ending with December were duly installed by J. W. Sherwood, state commander: Commander W. A. Kinney, Lieutenant-Commander F. H. Call, Chaplain W. F. Lashbaugh, Past Commander B. C. Short, Master at Arms J. R. Hart, Sergeant J. E. Johnson, First Master of Guards O. A. Cope-land, Second Master of Guards T. D. Castle, Sentinel W. H. Tiffany and Picket William Dredrick. Following the installation, those present were entertained with a variety of motion pictures and illustrated songs.

COX IS APPOINTED CHIEF

(Continued from First Page.) the state. The members first took seats at the tables in the Council chamber, the room having been beautifully adorned with choice roses. They then listened to the reading of their names by Deputy Auditor Grutze, after which they came forward and took the oath of office, which was administered by City Auditor Barbur.

The members were then called to order again, and the committee appointments were read, after which the Mayor nominated Mr. Cox for Chief of Police. Upon motion of Sig Siebel, who was assigned to the police committee,

A. M. Cox, Appointed Chief of Police by Mayor Simon.

the board confirmed the appointment, as provided by the charter, and fixed the bond of the new head of the department at \$10,000.

Sleuths Must Go to Work.

Mayor Simon then made a statement to the members of the board, in which he said he had prepared a resolution, which he wished adopted, ordering the Chief of Police to assign to duty Joe Day, Frank J. Snow, L. G. Carpenter and J. F. Resing, detectives, who were discharged nearly three years ago by order of Mayor Lane.

The Mayor said that, in this connection, he wished to say, for the guidance of the Executive Board, that he had talked with Chief of Police Gritzmacher about the four detectives under consideration, and that the Chief said all of them are good officers, and that it was not on his recommendation or by his department that they were let out. This being the case, said the Mayor, he wished them to report for duty, and Samuel Connell moved the adoption of the resolution, which carried. This, explained Mayor Simon, makes it obligatory upon the detectives to go to work or resign. Day and Snow will return to work, but there is some doubt about Resing and Carpenter.

Morris to Take Office July 16.

While the appointment of the City Engineer does not have to be confirmed by the Executive Board, Mayor Simon announced the name of Mr. Morris for that position, and said that the appointee will take charge of the office July 16.

The new City Engineer is 35 years of age and lives at 30 East Forty-seventh street. He was born and raised in Kansas City, Mo., and received his technical education at the University of Missouri. Ever since he has been employed by the Southern Pacific Company in various capacities doing construction and maintenance of way work, before leaving Kansas City, Mr. Morris was for a number of years connected with the firm of Tuttle & Pike, municipal engineers, Mr. Pike being ex-City Engineer of that city.

Mr. Morris came to Portland four years ago, having been transferred here from Houston, Tex., to take charge of the construction of the St. John line. Afterwards he was employed on the extension of the O. R. & N. from Elgin to Joseph. Since the Fall of 1907, Mr. Morris has been employed as chief engineer of the Valley Development Company, a water power development company with headquarters in Portland.

Executive Committees Named. J. H. Nolte, manager of the Peninsula hotel, was the first citizen to address the new Executive Board. He stated that the board order Superintendent Donaldson, of the street-cleaning department, to sprinkle certain streets and grounds about the Peninsula Park, where a big Fourth of July celebration is to be held next Monday. The Mayor referred the matter to the street-cleaning committee. The board then adjourned, having been in session less than 30 minutes.

The committee appointments, as announced by Mayor Simon, are as follows: Rules and order of business—Platt, Siebel, Campbell, Sieber, Brown, Bridges—Brown, Corbett, O'Shea, Smith, Siebel, Platt, Smith, Sowers—Smith, Brown, Campbell, Street-cleaning—Connell, Clarke, Pier, Light—Siebel, Connell, City Hall—Campbell, Clarke, Smith. Current expenses—Pier, Corbett, O'Shea.

The board will meet at 2 p. m. Friday following the second and fourth Wednesdays of each month. The Executive Board adopted a resolution, thanking ex-Mayor Lane and his Executive Board, for their offer of assistance to the incoming board.

HUGHES APPROVES PAPERS

Extradition of Brandenburg May Be Blocked by Illness.

ALBANY, N. Y., July 1.—Governor Hughes today approved the requisition papers of Governor Healy, of Missouri, for the return to St. Louis of Broughton Brandenburg, the writer, on a charge of enticing his stepson from his home.

NEW YORK, July 1.—Broughton Brandenburg is suffering from an attack of paralysis in a mild form, according to a statement made today.

20 WESTMORELAND REASONS

WHY SHOULD I BUY A LOT AND BUILD A HOME AT WESTMORELAND?

The following reasons will conclusively answer that question

- 1. BECAUSE your investment will be better than a bank account. Westmoreland property will rapidly advance in value. Portland is drawing its immense increase in population from every state in the Union; the whole country is, therefore, behind Portland, the city is bound to grow, it has grown, it is growing, and it's going to grow still faster with a solid, permanent increase. In finding a home, future Portlanders will follow the line of least resistance, they will flock to the most accessible point.
2. Westmoreland enjoys the advantages of suburban life and yet it is nearer the heart of the city than any other addition placed on the market in the past two years.
3. Westmoreland has by far the best transportation facilities in the city. Fifteen-minute service within one year—20 minutes now. Cars heated in winter. Westmoreland is easy to reach.
4. Cars are large, roomy and swift, they pass the property—not a block to walk.
5. There is fine scenery along the carline to Westmoreland. The property lies near the river.
6. Westmoreland soil is good, your trees, shrubs, grass, flowers and gardens will grow.
7. There is a good automobile road direct to the property.
8. Natural drainage.
9. Unexcelled beauty of surroundings, unapproachable view of the mountains for a distance of hundreds of miles, and this view can never be shut off.
10. Westmoreland improvements will be a decided innovation. The platting and character of improvements follow closely those of the college suburbs of Los Angeles—every home will be unique and in a class by itself.
11. Westmoreland is not troubled by those east winds that blow down through the Columbia River Draw and which make some suburban property so unattractive in winter. Westmoreland is sheltered.
12. Fifty per cent less fuel will be used in Westmoreland during winter.
13. The new Madison bridge will add actual value to Westmoreland property. It will be finished in less than one year.
14. The Madison bridge draw opens at least one-third less frequently than those of the other bridges. Westmoreland residents will thus have fewer delays—had you thought of this?
15. Westmoreland residents will pass through only the best parts of Portland to reach their homes.
16. Westmoreland is lighted at night.
17. Westmoreland edges on the beautiful Crystal Springs Lake and Johnson's Creek.
18. The balance of Ladd's Crystal Springs farm, of which Westmoreland is a part, will go on the market at prices ranging at least 50 per cent higher than Westmoreland property—more than that: Westmoreland is much nearer the heart of Portland than the rest of the farm.
19. There is absolute assurance of high-class homes at Westmoreland, the restriction is \$1500.
20. Westmoreland improvements go in immediately. You will not have to wait two or three years for them.
Graded streets.
Cement curbs and walks.
Ten-foot parking.
Shade trees.
Bull Run water.
Electric light and telephone.
Take the Sellwood car to Bybee street.
Send for one of our Westmoreland folders, it's just off the press. It gives a faithful panorama of the property looking in two directions. Council Crest, Portland Heights, South Portland, the Oaks, old Mount Hood and other points of interest are shown in the hazy distant blue. Use the coupon.

COX TO ASSUME CHARGE

NEW CHIEF WILL TAKE UP HIS DUTIES TODAY.

Head of Police Department Is Man of Experience and Is a Native of Oregon.

A. M. Cox, the newly appointed Chief of Police, will assume active charge of his department today. It will not be a new game for him as he has had long years of experience in police work, having been City Marshal of East Portland and Captain of Police of Portland after the consolidation.

Members of the alumni of the University of Chicago, with a host of friends, met in banquet at the Sargent-Perkins grill last evening. This annual affair which is always held in conjunction with the Northern Baptist convention, attracted 100 guests.

HEALTH BOARD QUILTS

RESIGNATIONS OF ALL THREE MEMBERS ACCEPTED.

Mayor Will Choose Successors Soon. Health Officer Pohl and Market Inspector Evans Report.

Mayor Simon received yesterday morning the resignations of Drs. George F. Wilson, E. J. Geary and R. C. Yenny, members of the Board of Health, and accepted each one. This will necessitate the appointment of a new Board, which the Mayor will do as soon as he has fully considered the situation. Health Officer Pohl will serve until such time as Dr. C. H. Wheeler, who will succeed her, qualifies and is ready for work. It was the desire of the Mayor that the old Board remain, but the members felt that they had given sufficient time in the city's service and therefore declined to stay.

Dr. Pohl made an exhaustive report of the work of the department, evidently for the benefit of the records, and for the information of the successors of the Board and herself. The report states that health conditions in Portland are excellent. Market Inspector Evans made a report, briefly summarizing the work of that department. In part it was as follows: Summing up the results of the past four years work, I count among the greatest accomplishments our market ordinance, for two years and a half the market work was conducted under our general health ordinance, which was very successful. Our "clean list," which was merely intended as a substitute until something better was provided, has gotten a National reputation, and I have had requests for it from every state, as it was adopted as a standard by an organization of 800,000 women. Our market ordinance is receiving the same recognition. It was adopted almost bodily by

CHICAGO ALUMNI BANQUET

One Hundred Graduates Meet at Festal Board at Local Hotel.

Members of the alumni of the University of Chicago, with a host of friends, met in banquet at the Sargent-Perkins grill last evening. This annual affair which is always held in conjunction with the Northern Baptist convention, attracted 100 guests. Dr. Harry Pratt Judson, president of the Chicago University and also president of the Northern Baptist convention, presided. Roy Merrifield, of baseball renown in college circles, was chosen cheer leader. Between the rendition of college songs, the exchange of good fellowship and the delicacies of the banquet a most enjoyable evening was spent. On a motion suggested by Dr. George E. Bunting, at the close of the festivities, the Oregon Alumni Association of the University of Chicago was formed. F. W. C. Parker, 514 Marquam building, this city, was chosen president. Dr. R. H. Wellington, of Portland, vice-president, and Mrs. W. J. Webber, of Canby, O., secretary and treasurer. Application will at once be made from the alma mater for credentials necessary to perfect the local association.

HARMON WILL BE ORATOR

CHEHALIS, Wash., July 1.—(Special).—Plans are all complete for a big Fourth of July celebration at Chehalis. Saturday there will be a ball game between Chehalis' champion team and the crack ball tossers from Kelson. The celebration proper will be held Monday. U. S. Harmon, of Chehalis, will be the orator of the day.

Tacoma, and Portland was given credit for it by the Tacoma papers when it passed their Council. Conditions in our markets cannot be calculated by mathematical figures, unfortunately, but the improvement is marvelous, due largely to the general agitation and education along these lines, and incidentally to a fear of the law. The markets are not perfect yet and our ordinance needs strengthening in some places, but the greatest hope for clean and sanitary conditions is in educating the merchants to acknowledge my grateful thanks. It gives me pleasure to report that the intense prejudice that I encountered when the office of Market Inspector was created, and my best work is accomplished through co-operation. But the greatest factor in whatever success I have had, has been the support, kindness and consideration I have always received from this board, and without which my work would have been of no avail, and for which I take this opportunity to acknowledge my grateful thanks. In a muffle furnace the temperature at the center is lower than near the walls.
