The strength of the barley market is as cribed principally to the reduction of old stocks. The new season will come on with nothing on hand except such new Cali-fornia harley as may be bought up. New crop contracts in the Pacific Northwest, which, at one time, were as low as \$2.4, are now quoted firm at \$26. Spot Cell-fornia barley is held strong at \$31@\$1.50. MOVEMENT OF CALIFORNIA FRUITS. Apricot and Cherry Shipping Season Nov Over,

The California Fruit Distributors say of the movement of deciduous fruits in the

the movement of deciduous fruits in the past week;

Cherries, 27 cars—Cherries are now nearly done, Further shipments of this fruit will cut no figure during the present season. Caing to the fact that less cherries have been required by the cannets this year than usual, shipments have exceeded these of 1905, the total shipments to date being 218 cars, against 208 hast year.

Apricots, 36 cars—The apricot season is now practically closed.

Plums and prunes, 186 cars—Shipment of this variety has been steady and of about as large volume as will be shipped at any time during the season. Abundance, Burbank, California Rod, Tragedy and Climax are now going forward and Wickson, Feach Plums, Chalico and Sugar are now beginning to appear in small quantities.

Feaches, 68 cars—Hales and Triumph are still going forward. St. Johns have made their appoarance and will be available for shipment in liberal quantities during the next two weeks. Early Crawfords have besun to color a little and will be going out in about ten days. All peaches will be in rather short supply this week.

Pears, 8 cars—Early varieties are now finished and Bartletts are coming along in good shape. The fruit is of good size and free from all defects. The movement of this fruit will increase from day to day and in another week liberal quantities will so frayer. The first Fontainbleau grapes have made their appearance, but the shipments of this variety will out no figure for another week or ten days. There has been no particular change in the grape situation except that we had three days of warm weather last week which affected vine-rards on thin soil and in exposed places. The individual loss in some instances from this cause was considerable, but the general effect on the crop will not be noticeable.

Wild, Neame & Co., London-Washing is wild. Neame & Co., London—Washing is general throughout the plantations, but so far has not proved effective in dealing with the severe attack of fly that prevails. Our market in consequence is more active and prices, for the comparatively small stocks offering, have advanced.

Manger & Henley, London—Our market is certainly more active—good bids are refused in some cases. The reports of vermin continue on every hand and washing is general.

W. H. and H. Le May, London—There is a decided upward tendency in the market. Stocks on offer are in a small compaes, most growers preferring to hold, owing to the persistent attack of blight.

and the shortage of good qualities causes
them to be more firmly. them to be more firmly held. The plantations have made fair progress considering the unfavorable weather experienced last week, but hight has increased very rapidly, necessitating repeated washings

FRUIT RECEIPTS ARE LARGER. Cantaloupes Sell Well at Lower Prices Lo ganherries Cheap.

Preduce receipts yesterday included a mixed car of peaches, plums and other California fruits, a car of cantaloupes, a car of red bnions, two cars of new potatoes and two cars of bananas.

Cantaloupe prices were cut 25 cents and this, together with the warmer weather, stimulated the demand to a considerable degree. Peaches and most other Southern fruits also sold well.

Receipts of loganberries were the larges of the season and the market weakened, some lots selling as low as 75 cents a crate and the best only bringing \$1.25. Black caps were weaker at \$1.25@1.50, but red raspherries and strawberries were scarce

NEW YORK. July I.—A further shrinkage in the volume of dealings in stocks
today reflected the seasonable duliness of
the Summer hot spell.

There was a large diversion of attention
to the gradually emitted facts of the Delaware, Lackawanna & Western plan involving a recasting of the organization to conform to the Supreme Court decision in the
commodities clause cases, and the distribution of large special company and stock
dividends. Early in the day there were
sales of Lackawanna stock for cash at
680. The stock sold at that price on April
22 of this year. The regular quarterly
dividend of 2½ per cent came off today
and when the stock sold ex-dividend at
649, the discrepancy with the eash price
brought out the information that the special disbursements, announced only today,
were payable to stockholders of record today. Only buyers of the stock for cash
today, therefore, would be entitled to the
extra dividends. The closing quotation was
610 bid, 680 asked.

Grain crop news was favorable.

The money market was easy, both for call

Twenty Thousand Acres Suitable for

Orchard to Be Thrown Open in

G. W. Thompson, a Lewiston capital-

settlement under the terms of the Carey act, this project will reclaim 20,000 acres of the choicest orchard land in the West, and divided into 40-acre

tracts will provide homes for 5000 set-tlers. In addition to the fertility of the soil under irrigation, the district

"When the project is completed, no "When the project is completed, no spot in Southern Idaho can equal it. The reasons for this are the large flow of water available, the fact that a mainline railroad is already on the ground, and the remarkably low elevation, which insures against extremes of climate. The district is part of a low valley in the center of a plateau 760 or 800 feet high, and is entirely surrounded and protected from cold winds by rim rocks.

"Last winter, which was one of the

winds by rim rocks.

"Last winter, which was one of the severest the Pacific Northwest has had for many seasons, only an inch of snow fell in the valley. Severe frosts are unknown. At a place nearby named Garnett they have raised the finest peaches in the state for 18 years and have never had a fallure of their peach croy.

"Under the terms of the Carey act, "Under the terms of the Carey act, settlers who were formerly in the velley relinquished their titles to she Government, with the right given them by the state board of getting this same land back when the project is completed. This insures a speedy settlement and rise in valuation, for these necessary and their friends will come persons and their friends will come back at once and will make improve-ments to the land.

'Most of the water will come from the Bennett Mountains, 40 miles away, and from the Malad River, which has as large and steady a flow as the Snake. We expect to have the place open for settlement probably by October, and settlement probably by October, water on the tract by next Spring.

SALOON ORDINANCE VOID 255 Mayor Smith Insists Shops Must Close at Midnight Saturday.

ASTORIA. Or., July 1 .- (Special.)-This ASTORIA. Or., July 1.—(Special.)—This morning. Mayor Smith vetoed the ordinance passed by the City Council at its recent session providing that saloons may remain open until 1 o'clock on Sunday mornings. The reason for the veto was that it would create strife and confusion, as it is in conflict with the state law and also at variance with an ordinance which it does not repeal and which provides that all saloons must close at 12 o'clock on Saturday nights.

22 o'clock on Saturday nights.

The Mayor also vetced the measure granting a right of way for an electric carline through Ocean View Cemetery to the Oregon Coast Rallway Company. The veto was based on the ground that the ordinance does not state the width of the right of way granted.
