NEW COMMANDER ARRIVES AT POST

General Maus Takes Charge of District and Meets His Old Regiment.

WAS SUBALTERN IN FIRST

Distinguished Head of Department Has Seen Wide Service and Bears Two Medals From Congress for Gallantry in Action.

When Marion P. Maus, Brigadier-General, United States Army, reported for duty at Vancouver Barracks yesterday forenoon, as the new commanding officer of the Department of the Columbia, it was to find himself again with the First United States Infantry, with which he entered the service 35 years ago as a humble second lieuten ant. Not any of the enlisted personnel of the regiment was left, and only one of the officers, Major Robert Noble remained.

The 35 years that have elapsed since General Maus entered the First Infantry have been eventful ones for him, and while merit and distinguished service have taken him up to the com-mand of a brigade, he admits that the days when he was a subaltern in the first were among the happiest of his life. The sentiment that attaches to this reunion with the regiment was fittingly expressed just before retreat yesterday afternoon, when the regi-mental band gave a concert for him in which a programme of stirring mili-tary airs was concluded by "Auld Lang

Notable Career in Army.

There are very few generals in the United States Army who have had such varied and distinguished service as has General Maus. The General himself isn't inclined to talk about his record. But the records bearing on the subject speak voluminously, He saw long service in the Indian wars, in which he was an important factor; participated in the Cuban, Porto Rican and later Philippine campaigns, and has repre-sented the Government at several European wars in the capacity of mill-

Traveling in all parts of the world he has seen the great armies of the world on dress parade and in the field. After which he has arrived at the con-clusion that the United States Army is superior to any other force of troops of equal size in the world, both as to its officers and its enlisted men. But of these things, too, the General is not inclined to be communicative. As a fighting man and officer, his associates in the Army say his peers are few. But talking of himself is a habit he doesn't seem to have developed.

Twice he has been decorated for gal-lantry in action. The General will not tell you that, but the records show for

After the surrender of Chief Joseph, the young officer took up the pursuit of a band of fugitive war-riors and pursued them from Montana to the Canadian frontier, where he broke up the band. He served through the Sioux and Cheyenne campaigns, winning his double bars during the tribal disturbances. During the Cuban war he was on the staff of General Miles and was Inspector-General during the trouble in Porto Rico. Just previous to these campaigns he went as military observer to the Turkish war, and at its conclusion attended the military maneuvors of the French, German and Russian armies. He also was detailed by the War Department to attend the Queen's Jublice.

Captured Moro Forts.

In 1962 he was ordered to the Philippines for service. He commanded a provisional brigade during the Moro outbreak, effecting the capture of a chain of 35 Moro forts. He made a second trip to the Philippines in 1965 and went through Japan and China, observing the military forces of those countries.

It is said of General Maus that he more than earned every promotion he has received. He graduated from West Point in 1874, being a classmate, by the way, of C. E. S. Wood, of Portland. He was assigned to the First Infantry. He won his single bar in '79, double bars in '80, oak leaves in '99, when he was assigned to the Second Infantry; became Lieutenant-Colonel of the Twenty-second Infantry in '92, Colonel of the Twentieth Infantry in '94, and brigade commander June 10, 1909. He comes to this district from the Presidio at Monterey.

In the face of his long and arduous service, General Maus is in excellent physical condition, and considers it no trick at all to make the 90-mile test ride. He is a typical American officer, exacting, thorough, and tireless in his energies, although there is nothing suggestive

Twice he has been decorated for gallantry in action. The General will not tell you that, but the records show for themselves. The first time was for "fearlessly exposing himself in the line of duty," to use the unexpressive language of the official reports. The second time was for effective and gallant operations against the Nez Perces.

His first medal of honor was won in the campaign against the Apaches in 1886. He was campaigning against the renegades not far from the Mexican border.

This is the second dividend to be declared under the receivership of this This is the second dividend to be de-clared under the receivership of this bank which suspended during the finan-cial disturbance in the Fall of 1907. De-positors received a first dividend of 19 per cent 11 months ago when, on August 1, 1906, the sum of \$130,000, was distribut-ed under Receiver Howard's administra-tion of the property. The first annual interest dividend was paid on January 8 last. This payment amounted to \$70,000. By these three disbursements the obli-gations of the bank to depositors will be reduced to about \$1,000,000, and there is a possibility that the creditors even-tually will receive dollar for dollar on their claims.

When Receiver Howard succeeded to when Receiver Howard succeeded to the management of the estate 18 months ago the indebtedness to depositors aggregated \$1,500,000. In addition to the dividends which have been declared, that fotal was further reduced through the fulfillment by W. M. Ladd of his agreement to meet the claims of the small depositors, aggregating \$151,000. During the last 18 months, 4900 of the smaller depositors, whose deposits did not exceed \$250 each, have been paid off in full. Another dividend from the suspended bank at this time was made possible through the recent sale to Ben Selling and associates of the southwest corner of Sixth and Alder streets for \$250,000. Principal among the assets of the bank yet to be realized upon are the Marquam building, the bank building and the Rankin loans. The latter aggregate \$650,000, fully secured.
