

# WICKERSHAM HAS DOSE FOR TRUSTS

Tells How States Can Shut Them Out Under Federal Constitution.

## BAR HOLDING COMPANIES

Exclusion of Corporations of Which Other Corporations Have Control Would Do It, Says the Attorney-General.

PADUCAH, Ky., July 7.—State control of corporations doing an interstate business was discussed in an address before the State Bar Association by Attorney-General Wickersham here tonight. The address, considered as outlining the attitude of the National Administration towards trusts, was notable chiefly for its recommendation that Congress should enact a law providing for nationally created corporations to carry on interstate commerce. An important feature was the speaker's effort to show the separate states how they may control the business of foreign corporations in their limits.

### Corporations Not Citizens.

Dealing with the citizenship and standing of corporations, Mr. Wickersham quoted decisions that these were not citizens in the meaning of the constitutional requirements "that citizens of each state should be entitled to all the privileges and immunities of citizenship of the several states"; that the power of a state to prevent a foreign corporation from continuing to do business in but the corollary of its authority to prevent such corporations from coming into the state; that the state in passing these questions might take cognizance of acts done elsewhere.

"It may be safely asserted," he said, "that the only limitations upon the powers of the states to exclude foreign corporations entirely from doing business within their territory and to prescribe such conditions as they deem proper for the carrying on by them of such business are: First, that the regulations so prescribed shall not deprive the foreign corporations of property without due process of law or deny to them the equal protection of the law; second, that such regulations shall not amount to an interference with interstate commerce or with other business of a Federal nature.

### Shut Out Holding Companies.

"It has seemed to me that an effective method of legislating on this subject would be to enact such a law as to foreign corporation should be licensed to do business within a state if 50 per cent of its capital stock or upwards were owned or held by any other corporations, domestic or foreign; and that if at any time after obtaining such a license more than 50 per cent of the capital stock of such corporation should be acquired by another corporation, the license should be ipso facto vacated.

"The device of the holding corporation is the only thing that has made possible the rapid growth of the great trusts and monopolies and such a law would go far toward their destruction.

## FENEY TALKS ON CALHOUN

Accuses Him of Having Incited Streetcar Strike for Glory.

SEATTLE, Wash., July 7.—Francis J. Heney, the San Francisco graft prosecutor, said today unless there is a sudden turn in the Calhoun case he will start for Alaska next week to hunt big game in the Copper River country. He continued:

"I doubt very much if we can bring Calhoun to trial again before the latter part of August.

Mr. Heney spoke of the gratitude of San Francisco to Calhoun because he broke the streetcar strike, and said:

"Yes, he probably did stop the strike, and he is known also that he himself brought on and deliberately caused the strike in order to create a sentiment which might help him out of his dilemma.

"As the outcome of elections is now dictated by the boss element or combination of men having \$300,000 to spend for the purpose can come into San Francisco at any time and control an election."

## SAVE TREES FROM FLAMES

Fire-Fighters Rescue Only Grove of Torrey Pines Existing.

SAN DIEGO, Cal., July 7.—The La Jolla grove of Torrey pines, said to be the only grove of those trees in Southern California, had a narrow escape from destruction by fire today, through the carelessness of some campers. Occupants of a passing automobile noticed that the underbrush in the grove was burning and hastened to La Jolla for help. A party of fire-fighters was summoned quickly to the scene. After several hours of hard work the flames were extinguished and the rare trees saved.

## BAKER COURTHOUSE DONE

A meek-looking man pulled a hurdy-gurdy, while Mrs. Sophia Loebinger and Miss Helen Murphy, the suffragettes, wore badges and streamers lettered, "Vote for women," carried copies of the Suffragette, and played the tambourine.
