WHEAT YIELD TO BE NEAR RECORD

Reports From 350 Points Put Yield for Northwest at 55,000,000 Bushels.

RECENT RAINS BIG FACTOR

Prospects Much Brighter Than Few Weeks Ago and Though Bumper Year Will Not Be Equaled, Prices Are Much Higher.

(Continued From First Page.)

run from 3,250,000 bushels to 5,000,000 bushels, with most of the conservatives figur-ing on about 4,000,000 bushels. This figure

ing on about 4,000,000 bushels. This figure is greater than seemed possible a few weeks ago, but the heads have been filling out quite satisfactorily as harvest-time approaches, and the total output will not fall far short of 4,000,000 bushels. Union County has an excellent crop and 40-bushel yields will not be uncommon around Elgin and Summerville.

The Willamette Valley has ceased to figure in the export wheat market, but the yield is an important factor in the milling business. Dry weather has reduced the amount per acre, but the high prices caused a slight increase in acreage and present conditions indicate an outturn of 2,250,000 bushels. In the remainder of the state, wheat growing is almost exclusively for home consumption, but will help to swell the total for the state to approximately 14,000,000 bushels. approximately 14,000,000 bushels. a cavalry train

Washington Reports Good.

Washington Reports Good.

Washington reports are uniformly good. Walla Walla, with its never-failing foothill land, promises an out-turn of 4,500,000 bushels. It is an exceptionally poor year when this famous what county cannot show some 60-bushel yields, and they are in evidence this year, although there are also some poor yields on the light lands. Barley is also turning off well in this county, and has made some inroads on the wheat acreage.

ley is also turning off well in this county, and has made some inroads on the wheat acreage.

Columbia and Garfield Counties are both expected to turn off record yields of wheat and barley. This region was favored with rain at a time when the river counties in Oregon were missed. Columbia will turn out about 1,000,000 bushels of wheat, and fully as much barley, with Garfield not far behind. Some estimates credit Columbia County with 2,500,000 bushels, but the latter figure will hardly be reached.

Whitman, the banner wheat county of all the Northewst, gives excellent promise of breaking records. The acreage is large and the crop conditions are far above the average. Estimates run from 9,000,000 to 12,000,000 bushels is regarded as conservative. Whitman County has been steadily drifting away from wheatgrowing exclusively, and this year nearly one-third of the grain acreage is in oats and barley, the yield of these grains being estimated at nearly 5,000,000 bushels. The Whitman County crop is nearly ready for harvest, and binders will begin work next week, while it is expected that the combines will be in operation ten days later. bines will be in operation ten days

Weather Cuts Down Lincoln.

Lincoln County, which in "light land" Lincoln County, which in "light land" years has come very close to Whitman's yield, has suffered this year by dry weather. A few good yields are reported between Davenport and Edwall, but the big wheat acreage in the vicinity of Wilbur, Almira and Hartline has been seriously affected by the dry weather. Lincoln County will be doing extremely well if the final out-turn is half as large as that of Whitman. Adams County is still in the uncertain class, as the crop is late in that region and even the Winter wheat is not out of the woods. At the best the crop will be only fair, except down in the southeastern part of the

of the woods. At the best the crop will be only fair, except down in the south-eastern part of the county, where some of Whitman County's exceptionally favorable weather prevailed. Douglas County lost the greater part of its wheat territory when the new county of Grant was carved out this year, and Grant, which has an increased acreage as well as a fair yield, gives promise of about 3,000,000 hushels. Some new wheat land in the northern part of Douglas County will make the yield for the old county in excess of 500,000 bushels.

Spokane County was in the moisture Spokane County was in the moisture belt with Whitman, and as a result has a fine crop in prospect. Not only is the yield above the average, but the quality is excellent. Estimates as to the probable yield vary between 1,250,000 bushels and 2,000,000, with 1,500,000 bushels regarded as very conservative.

Franklin Somewhat Behind.

Franklin County is somewhat behind its neighbors in yield, and in the vicinity of Connell the crop will be smaller than that of last year. Farther east the outlook is more favorable, and at Eltopia the prospects are excellent. The best crops in this county lie along the line of the O. R. & N. Kilokitat County, which has always been in Port. County, which has always been in Portland territory, gives promise of a very good yield, with some increase in acreage. Not only will the outturn be much greater than that of a year ago, but the quality will be far above the

The Horse Heaven country, lying just across the Columbia from the river counties in Oregon, suffered from the dry weather that cut down the Oregon yield. Spring wheat in this district is almost a total failure, but some of the Winter wheat will make a fair crop.

Asotin County was also in the rain beit and promises to turn off a cross

Asoth County was also in the rain belt and promises to turn off a crop that may break records. No pooryields are reported in the county, and on the upper portion of Asotin flat estimates of 50 and 60-bushel yields are heard.

The crop for the entire State of Washington will approximate 35,000,000 bushels.

Idaho to Set Record.

Idaho to Set Record.

Idaho has the best crop on record. There is not very much increase in acreage, and there is a big crop of barley and oats, so that the wheat yield may not quite reach that of 1907. Latah County will probably harvest nearly 1,000,000 bushels of wheat, and Nex Perce and Idaho counties will have from 5,000,000 to 6,000,000 bushels. These estimates are only about one-half as large as some that are in circulation, but are the figures generally given by grain men and railroad men in closest touch with the situation. They are believed to be ample for any surprises in the way of a greater out-turn.

while the crop of the three states will hardly reach the proportions of the record crop of 1907, the prices at which it will be marketed are so much higher than those which prevailed two years ago that it will bring into the country many millions more than were disbursed for the record crop. CONDITION REPORTED AT 80

Federal Figures Given Out on Oregon Crops.

OREGONIAN NEWS BUREAU, Wash-OREGONIAN NEWS BUREAU, Washington, July 8.—Crop report issued today by the Department of Agriculture shows that the condition of Oregon Winter wheat at harvest time this year was 80, and on June 1, 1909, was 87. At harvest time last year condition in Oregon was 86. The 10-year average condition at harvest was 89. harvest was 88.

harvest was 88.

Washington Winter wheat at harvest this year was 90, and on June 1 was the same. At harvest, 1908, the condition was 79. Ten-year average is given at 91. Of the total Winter wheat acreage in the United States 1.9 per cent was in Oregon and 2.4 per cent in Washington.

The condition of Spring wheat in Washington on July 1 was 90, and June 1 was 93. On July 1, 1908, it was 55. For 10 years the July average was 90. Four and nine-tenths of the total acreage of Spring wheat in the United States is reported in Washington.

ported in Washington.

The report does not show any Spring wheat in Oregon, and neither Winter nor Spring wheat returns are reported from Idaho.

ERMEN OBEY LAW.

Receipts of County Clerk's Office From This Source \$3600 Since Beginning of Year.

Since the first of the year approximately \$3600 has been received in the ffice of County Clerk Fields from the issuance of fishing and hunting licenses. To date there have been issued 2320 fishing licenses at \$1 each; 282 combination huning and fishing licenses at \$2 each and 658 hunting licenses at \$1 each. The receipts from these licenses are trans-mitted to the State Treasurer at Salem and become a part of the fund estab-lished for the use of the State Game and Fish Warden for the protection of the fish and game of one state.

There has been considerable activity among anglers in securing licenses, particularly since the trout season opened, with the result that a good part of the time of Deputy County Clerk Schneider time of Deputy County Clerk Schneider is occupied in this work. Fishermen who are apprehended without possessing an angler's license are liable to a fine of from \$25 to \$150. The fact that a number of arrests have been made and fines imposed has been followed by a general application for licenses from those who engage in this sport. Under the provisions of the law, lads 15 years of age and under are not required. under are not required to pay the license; but may fish to their hearts' content without fear of molestation from some

without fear of molestation from some intrusive deputy game warden.

Thus far this year only 658 hunting licenses have been issued, as against 5000 last year. This is due to the fact that the demand for these licenses does not begin actively until the hunting season opens. Beginning next month the demand from the hunters will be on. August 1 the season for buck deer opens and it will be then that sportsmen will begin securing their credentials. There will be no hunting for does this year, the season being entirely closed for their protection.

SENTENCE WIFE DESERTER Man Who Long Foils Officers Will

Receive Punishment.

COLFAX, Wash., July 8.—W. H. Mc-Nabb today pleaded guilty to the charge of wife desertion. Judge Canfield gave the indeterminate sentence of three to six months in the penitentiary at Walla Walla.

McNabb deserted his wife and twin boys at Thornton in December, 1907. He was located in his old home at Knox-He was located in his old home at Knox-ville, Tenn. Deputy Sheriff Dailey was sent after him. McNabb, while under suard at the home of relatives, placed a dummy in his bed and made his escape before Dailey arrived. He then wrote the officers a bold challenge to catch him, adding that they were not smart enough. At the expiration of Sheriff Ratcliff's term Sheriff Carter took up the work. After running down several false clews, he struck McNabb's trail at Walla Walla, Wash., Yakima and Butte, finally arrest-

he struck McNabb's trail at Walla, Wash., Yakima and Butte, finally arresting him at a sheep camp near inkham, Idaho, just as he was leaving for other fields. McNabb stated that he saw Daily at Walla Walla and Ratliff at Spokane, and made his escape, as he knew they were after him. McNabb's warrant was the first ever issued in Whitman County for wife desertion. The case has cost the county over \$500.

COMING IN CROWDS fort or be compelled to defer that portion of their journey another day or two.

Tourists From East Are Flocking to Portland.

HOTELS FILLED TO DOORS

Estimated That 20,000 Visitors Will Be Here This Month and Many of Them Are Looking for Chance to Invest Money.

More than 1000 tourists, it is estimated, were in Portland yesterday, en route to or from the A-Y-P Exposition at Seattle.

Most of the week the leading hotels of the city have been crowded to capacity, and most of them have been turning away intending guests to seek rooms at the smaller houses.

The great influx of some second of July rush to the exposition. With Independence day over and the Summer vacation season now on in the East, the Harriman estimates are just as high. There appears to be no actual figures of the traffic kept by any of the roads and it is estimated that if travel continues in its present volume Portland will injure injure in its present volume Portland will injure inju The great influx of tourists this week PORTLAND HUNTERS AND FISH- of July rush to the exposition. With

Most of the exposition tourists remain in Portland from two days to one week These are persons who have no intimate friends or relatives to visit and who are bent on seeing the country. Many, say hotel men, remain not longer than two days. Most of those who stay but that length of time take the trip up the Columbia River to The Dalles one day and spend the other day in the "rubber neck" autos, the observation streetcars or in private automobile parties viewing the attractions of the city.

The auto rental agencies are doing a big business with the tourists, as the rapid transit offered by them enables the travelers to get at least a passing view of all the points of interest in the immediate vicinity

Come Here to Invest.

That the hotel men and the business buses which supply their tables are not the only ones who are profiting by this travel is indicated by one or two char-acteristic incidents of the tourist season that have occurred within the last few days. At the Nortonia Hotel are Robert L. Clinton and J. M. Murphy, wealthy mining men of Butte, Mont., who are on their way home from the Seattle exposition. During their brief stay in Portland Mr. Clinton has invested in 200 land Mr. Clinton has invested in 180 acres of land near Cottage Grove, and Mr. Murphy has made a purchase of 100 acres on the Oregon City electric line. Hundreds of tourists who are coming West this year are apparently bent also on seeking profitable investments in a new and rapidly-developing country. They are looking for opportunities to place idle capital, as well as searching for amusement, recreation and instruction

The list of the after Fourth of July travel reached Portland in greatest volume Wednesday, continuing practically unabated yesterday. Eleven down-town hotels were reported filled to their capacity, harboring approximately 2000 people. The managers of these hotels say that a large proportion were tourists from other states

Many States Represented.

In the hotel arrivals yesterday 30 states aside from Oregon were represented. These were North Dakota, Nevaua, Missouri, California, New York, West Virginia, Ohio, South Dakota, Illinois, Nebraska, Idaho, Colorado, Pennsylvania, Georgia, Oklahoma, Wisconsin, Arizona, Indiana, Michigan, Montana, Florida, Iowa, Texas, Massachusetts, Utah, New Jersey, Washington, Minnesota, Louisi-ana and Kansas. In adultion there were travelers here from Ontario, Manitoba, British Columbia and the Hawailian Is-

Indications point rather to an increase in tourist travel from now until late in September, rather than a decrease. That September, rather than a decrease. That the season is yet early is shown by the fact that the parties that have engaged special cars or trains from Eastern points to the West are coming later in the year, and a guess that Portland will be visited this Summer by not less than 75,000 people from states east of Idaho and south of Oregon's southern line is probably not far out of the way.

At the present time the four trains each

At the present time the four trains each way daily between Portland and Seattle are invariably crowded. Hotel men are taking pains to advise their guests who are going through to Seattle to engage berths or parior car seats a day or two in advance. Those who wait until their intended day of departure to make reservations are likely to travel in discom-

MANY SIGHTSEERS ARE HERE

Great Increase Shown in Number of Tourists Now Visiting Portland.

More than 78 per cent more people are being carried on the "seeing Portland" cars than was the case a year ago. This as much as anything else is a striking indication of the number of tourists spending a few days in Portland. The hotels seemed to be just as full a year ago and just as enthusiastic reports were turned out by the railroads, but there has been no such startling indication suck as this of the enormous volume of traffic of a tourist nature that is passing through the city.

through the city.

Each car is running double according to Portland Rallway, Light & Power Company officials and often there is not sufficient accommodation. On Saturdays, Sundays and holidays many people are left behind.

Estimates place the number of people coming into Portland daily from the East at about 1500. This is exclusive of the large number of private parties given sometime ago in The Oregonian, that arrive in the morning and depart before night. Were these to be included the daily average would be increased 25 per

daily average would be increased 25 per cent.

Northern Pacific railroad officials say about 3000 people a day enter over their lines. W. A. Robbins yesterday said No. 8, on one trip this week carried out 1000 tourists alone destined for Eastern points. Many of the visitors merely pass through the city without stopping a night and in compiling the daily average of 1500 attention was only paid to those who passed one or more nights in the city.

have been visited during the month of July by from 15,000 to 20,000 tourists. WAITING FOR THE WORD

BERG AND YOUSIFF FINISH TRAINING FOR MATCH.

Heavy-weight Wrestlers Say They Are in Fine Fettle for Their Contest at Exposition Rink Tonight.

John Berg and Big Yousiff, the Turk, will wrestle at Exposition Rink tonight. Both men are in the pink of condition. The preliminary event will be started at \$.30 o'clock, and the main event will

commence immediately after the curtain raiser is over.

Berg and Yousiff completed their training yesterday and announced last night that they were in fine fettie.

"My ankle that bothered me so much last Winter and handicapped my work, is all right now," said Berg. "There is all right now," said Berg. "There isn't a bit of pain any more, and it holds up as though there had never holds up as though there had never been anything the matter with it. I made a better showing against Roller than my opponent did, I think, and that is one of the reasons why I know that I can beat him tonight."

Yousiff talks in the same vein as Berg. He is as big as all outdoors with his native costume on, and has created a lot of comment stalking about the streets. He is a quiet, reserved fellow, who pre-

of comment stalking about the streets. He is a quiet, reserved fellow, who prefers to wrestle rather than talk. He said the following last night: "Over in my country the wrestlers don't say much about what they are going to do. Sometimes they do not do it and then they about what they are going to do. Some-times they do not do it, and then they do not feel just right. I am always in very good condition. We wrestle in our bare feet in oru own country, and I think that that will be something new here in Portland. We have always wrestled that way and I will not make any change now. I believe I can defeat my opponent, and that is enough." Jack Curley has charge of the match

The preliminary event will be between Walter Arndt and Chick Merrill. Merrill is said to be a crackerjack for a lightweight, and if he beats Arndt he will weight, and if he beats Arndt he will come out with a challenge to meet Buz-ukous, the Greek wrestler, who wrestled a draw with Roger Cornell, the trainer of the Portland baseball team last Sunday

Indications are that there will be a large crowd in the Expo rink tonight to see the match.

TO SELL \$60,000 BONDS Will Raise More Funds for Towage

and Pilotage.

New Courthouse May Be Built of Oregon Products.

ADVERTISEMENT

County Commissioners Have Been Urged to Prepare Plans That Will Call for as Much Local Stuff as Possible.

There is a possibility that Multnomah County's new Courthouse may be constructed and furnished from basement to cupols with Oregon materials and products. This suggestion has been made to the members of the Coun-ty Court and Judge Webster is inclined to adopt that policy in providing a new building for administering the county government. The idea at any rate will be considered by the members of the Court before further proposals are in-

clined personally to favor the sugges-tion. There is no question but that there is to be had right in Oregon all of the materials and furnishings neces.

with the Havana taste

has a wrapper of real Sumatra—the smoothest and most delicate of all leaves. It has a long filler, the rarest selection of tobaccos. Because very good stock is used, PUCK can be made up into the same shapes as imported brands. You never knew such a cigar for a nickel. If five cents is your price, smoke PUCKS and improve your taste. If you've smoked imported cigars, try PUCKS and improve your bank-balance. Good enough for anybody-sold everywhere. There's least profit for the dealer-he can make more money out of any other nickel brand, but he's glad to have you ask for PUCKS because he can make most customers.
