BUILT FOR BAKER

New Home for Stock Company Will Involve Expenditure of About \$150,000.

FUNDS ARE ALL SECURED

Bungalow Players Will Go on Road and Syndicate Attractions Will Occupy Morrison-Street House Until January 1.

Portland is to witness the construction of two new, modern, up-to-date theaters in this city in the next half year. In addition to the new Hellig at Sevent and Taylor streets, another playhause i to be built as the permanent home for the Baker Stock Company. George L. Baker, manager of this popular organization of thespians, has practically com-pleted negotiations whereby local cappleted negotiations whereby local capi-talists are to erect a modern theater under a 25-year lease in a central loca-tion. This theater, including the site, will represent an investment of about \$150,000. Present plans contemplate that both buildings will be completed and ready for negotiates.

ready for occupancy January 1 next. *
"All of the details incident to the lease and construction of a new home for the Baker Stock Company have been agreed upon," said Manager Baker last night. "Until the papers have been signed, however, I do not wish to announce the lo cation of the new playhouse or the name of the parties from whom the lease has been obtained. The lease will be signed some time this week, probably tomor-

Baker Company on Road.

Another announcement of Importance in local theatrical circles was made by Manager Baker yesterday. Negotiation have been concluded between Calvi Heilig and John Cort with Manager Baker whereby all of the high-class Klaw & Erlanger attractions, which hav-been booked for this city next season will be presented in the Bungalow The-ater. Manager Baker was authorized to make this announcement yesterday following a conference between Hellig and Cort at Seattle. The agreement by which Heilig and Cort take charge of the Bungalow will continue until the new Heilig is completed. Work on this structure, which is to cost \$125,000 with-out furnishings, will begin August 1 and the contract calls for its completion on the first of the year.

In the meantime, the Baker Stock Company, as it is being reorganized for the coming season, will go on tour, visiting the principal cities of the Pacific Northwest. The company will start at the opening of the season, about September 1. When the new Hellig is completed, the stock company will return to this city, but in all probability it will not again appear at the Bungalow. Mannger Baker confidently expects to be on their return to open up his new

The concession that has been made by Manager Baker is regarded as a mag nanimous act alike by the theater-going public and the local representatives of the Klaw & Erlanger attractions. The Bungalow was the only playhouse in the city available for the production of these hig attractions and but for the action of Manager Baker in placing this building at the disposal of Messra. Hellig and Cort, it would have been necessary to cancel these bookings and seriously curtail the feast of good things theatrically

Agrees to Lease of Theater.

"I did not desire to see these high class attractions cancelled," said Mana ger Baker last night, "simply because there was no other available theater building in which they could be presented. For that reason I have yielded to the requests of Messrs. Heilig and Cort who will present their attractions at the Bungalow until their new theater completed, in all probability January

"For a number of sensons I have re ceived many requests from the principal cities of the Pacific Northwest soliciting au engagement from the Baker Stock Company. Until new I have been unable Company. Until new I have been unable to grant these requests for the reason that they would interfere seriously with my plans. But I can do so now and from September I, when the season opens, until the new Heilig is completed the stock company will play these different points. I have every assurance that ent points. I have every assurance that the new home for this company will be completed simultaneously with the Heilig on January 1. If it should not be completed when the Heilig management sur-renders possession of the Bungalow, the Baker Stock Company may appear at the Morrisan-street play-house until their new theater is ready."

The imperative need for new theaters in this city was hastened recently by the action of the city authorities. Soon after the Hellig theater at Washington and Founteenth streets had been condemned, the City Council passed an ordinance notifying the owners and managers of all frame theaters in the city that all such property must be abandoned for theatrical purposes within two years.

CIRCUS PARADE TODAY Every Performer to Appear in

Pageant.

The street parade, for which the Hagenbeck-Wallace shows are distin-guished, will leave the grounds promptly at 10 o'clock. Nearly every perform-er in the shows will appear in the parade. The horses never fall to excite the admiration of spectators, and most of the animal cages, open, will give an excellent idea of the quality of the menagerie. An unusually large number of elephants and camels will be

The Hagenbeck-Wallace menagerie is perhaps the best ever exhibited in Port-land. In the collection are zebras, Bengal tigers, llous, emus, monkeys and giraffes. One of the most interesting animals shows is a giant hippopotamus, the largest living in captivity, and the only blue-faced mandril owned by any

Among the chief celebrities to be seen in the performance are the serial Delno troupe, the Beldinis, a company present-ing a number of astonishing equestrian Monsieur and Madame Thalero with their interesting trained dogs and ponies, and the Wallace troupe of high school performing horses. Other features are: The Deltons, a marvelous group of acrobats: Fred Ledgett and Dollie Julian, premier American eques-trians; Fraulein Hilda Hagenbeck and her trained parrots and cockatoos; a

elephants: Arabian stallions, ridden by full-grown African lions: leopards in startling feats of equestrianism; zebras, ridden by English bulldogs, and dogfaced baboons controlling and riding Shetland ponies.

The performance of the trained wild animals is one of the most astonishing feats of this aggregation of interesting wonders. This act is given in a steel cage 40 feet in diameter. In the feats performed by various wild animals sevral sensational new acts have been in-roduced. This section of the shows lone is considered enough to establish its high standard.

The afternoon performance will open at 2 o'clock, the evening performance at 8 o'clock. There will also be an afternoon and evening performance to-

The three special trains carrying the Hagenbeck-Wallace combined shows arrived in Portland yesterday afternoon and within a few hours the huge tents were in place on the grounds at Twenty-fifth and Raleigh streets and he scores of employes were busily en gaged in preparing for the four perrmances to be given here, the open ing one of which takes place this after-

BAILEY AND CASEY ARE NOT ON GOOD TERMS.

Patrol Clerk Would Change Reliefs Because He Does Not Get Along With Captain.

Said to have resulted from enmities growing out of departmental polities a clash took place yesterday morning at police headquarters between Captain Bailey and Patroliman Clerk Casey, both of the day relief. Casey is the Municipal Court bailiff and custodian of the arrest docket and transcript of the Municipal Court under Bailey's di-

Following the clash, Casey made application to Chief Cox to be transferred to the first night relief as a patrolman. The pay and hours are the same, althe pay and hours are the same, although considered not as convenient, and the work is more irksome. To be changed from patrolman to the position now held by Casey is considered a promotion in police circles. Casey has

held the place four years.

Since the change of regime, Captain Bailey has been mentioned as the chief of police detective slated to replace Captain Baty. In fact, this is said to have been definitely decided upon. Baty and Casey are close friends and this is said by Casey to be the cause of Cap-tain Bailey's alleged dislike for him. Captain Bailey denies this emphatically and when asked concerning the report ed clash between himself and Casey said: "I never quarrel with anyone."

"An Irishman and an Englishman can never get along," said Casey, who talked freely of the trouble between himself and his superior officer. Both are pronounced in their nationalities and are accounted among the most courteous and affable members of the department. Captain Bailey was talked department. Captain Balley was linked of prominently in connection with the chiefship prior to Chief Cox' appoint-ment and his proposed selection as chief of detectives is reported to have been the cause of his withdrawal from

Casey was assigned by Chief Cox to Captain Moore, of the first night relief, and Patrolman Fones was assigned by Captain Moore to Captain Balley. It is understood that Captain Bailey will as sign Patrolman Circle to the position

SPEAKS FOR OLD BOARD

RAFFETY EXPLAINS POLICY IN BUYING PARKS.

Ex-Commissioner Declares Members Desire of People.

In speaking of the attitude of Mayor Simon toward the park question and the solicy pursued by the old Park Board, ex-Park Commissioner Raffety said yes

"I have just finished reading the article concerning Mayor Simon's policy of retrenchment in the acquisition of parks. The general statement as to the amount of money expended is correct. As to the matter of stopping further purchase of park tracis, it may be said that the voters authorized the issuance of \$1,000,000 of park bonds by a considerable majority. The City Council appropriated \$5000 to secure the services of the Oimsteds to outline a plan of parks and houlevards. tiline a plan of parks and boulevards They did prepare this plan, and received their pay. In accordance with the verdict of the voters of the City of Portland the old Park Board proceeded to carry cut the orders of the voters. I don't see how the Commissioners could have done otherwise.

The plans prepared by the experts em-ployed by the city were being carried out closely by the old Park Board. I see that Mayor Simon proposes to stop the purchase of some of the park tracts in the interest of intrenchment, namely, the

that Mayor Simon proposes to stop the purchase of some of the park tracts in the interest of intrenchment, namely, the Montgomery tract in particular. It is my judgment that the Mayor will hear from the people of Albina on the subject of the Montgomery Park tract.

"If we have started on a career of retrenchment, I propose that we retrench in all directions. For instance, let us hold up the \$2,000,000 bonds for the Broadway bridge for several years to come. We can save a lot of interest money by simply not selling the Broadway bridge bonds for the present, and holding them for some future time. The O. R. & N. Company will soon erect a bridge wide enough so we can get along without the Broadway bridge, the same as we can get along without the park tracts. The people voted the Broadway bridge, and so they did the \$1,000,000 park bonds; but let us stop the sale of bridge bonds and hold up the construction of that bridge.

The Mayor thinks the Park Department has been costing more than in former years. Of course it costs more now than before. Mayor Simon does not seem to be aware that Portiand has been growing the past few years—years before he returned to political life. It costs more to operate all departments of the city than it did a few years ago."

GRANGE MEMBERS DIVIDED

Not of One Mind as to Value of Patent Medicines.

Before an attendance of nearly 75 mem bers at the meeting of the Lents Grange, Patrons of Husbandry, Saturday, W. A. Young, the lecturer, submitted the question of patent medicines, and read a pa-per on "the evils resulting in their use," after which he asked all who had never and none responded. Mr. Young used the fact that practically all present had used patent medicines to show the extent of the evils caused by them.

The subject of patent medicines is now being considered by the Grange, with a view to requiring all bottles and packages to have the formula printed in full wonderful group of gigantic polar ages to have the formula printed in fu bears, Bengal tigers riding monster on the face of the bottles and packages.

Man Drinks Poison Where Brother Died Recently.

KNIFE FAILS, TAKES ACID

Gottlieb Spillman, Jr., Quaffs Drug in Barn Where Kinsman Hanged Self Two Months Ago-Despondency Is Cause.

Choosing the same spot where his brother took his own life by hanging two months ago, Gottlieb Spillman, Jr., 31 years old, of 41 Davidson avenue, committed suicide yesterday morning about 2:39 o'clock by drinking carbolic acid. Lying near the body a bloody dagger was found. Investiga-tion showed Spillman had attempted to stab himself in the heart, inflicting only a flesh wound, owing to the dull-ness of the weapon, and falling, he re-sorted to poison.

sorted to poison. sorted to poison.

Spillman was ailing and despondent for some time and he frequently threatened to end his life. The body was found lying in the loft of the barn in the rear of the Spillman home. In the same loft Spillman's brother Ernest, younger than himself two months are younger than himself, two months ago improvised a noose and killed himself by hanging. The body was found a few hours later by Gottlieb Spillman, who hours later by Gottlieb spillman, who took his life in the same place yester-day. Thereafter the tragic death of his brother depressed him and he seemed to think constantly of suicide

and talked of it continually.

Spillman was a son of Gottlieb Spillnan, Sr., who came to Portland several years ago with his family from Switzer-land. Spillman, Sr., has acquired con-siderable money and property and is well to do, owning the home at 41 Davidson avenue, where his sons lived with him.

The body was taken in charge by

Deputy Coroner Dunning and moved to the Dunning morgue, where it is being

of ending his life. Although a close watch was kept on him he slipped away and sought the loft of the barn, where he accomplished his de-

The young man's parents, four sisters and an older brother in Switzer-land, are living. The parents are at a loss to account for the suicide of both the young sons and are grief-stricken. It is believed that thoughts of his brother's death so preyed on the mind of Gottlieb that he became demented.

GOOD MUSIC INNES' FORTE

Space Near Bandstand Will Provided for Rigs.

Some one has said good music is a powerful tonic to many people, especially those suffering from melancholia. It lifts them out of their solemn moods, dispels gloom and despondency, kills discouraged feelings and gives new hope, new life and new vigor. It seems to put a great many people into proper tune. It gives them the keynote of truth and beauty, strikes the chords of harmony, dispels discord from life, scatters clouds and brings sunshine.

Good music seems to give us a touch of the divine and to put us in contact with divinity. It drives out evil thoughts, making us ashamed of them. It lifts us above petty annoyances and little worries of life and gives us a glimpse of the ideal which the actual is constantly obscuring.

Good music makes up the Innes programmes. They are inspiring and will be of lasting benefit to all who will be of lasting benefit to all who attend the performances at Multnomah Fleid, Tuesday and Wednesday evenings, July 13 and 14. A novelty which is already well established in many Eastern cities will be inaugurated here during these concerts. In the open field around the bandstand, which will be erected in front of the grandstand, carriages and automobiles will be permitted. From these favorable positions, in comfortable seats, the concerts ought to be doubly on toward. certs ought to be doubly enjoyable.

Work on New School Begins.

ALBANY, Or., July 11 .- (Special.)-Snook & Traver, of Salem, who secured the contract for the erection of the \$50,-000 high school building in this city this Summer, will begin work this week on the excavation for the building. Work on the structure will be carried forward rapidly so that it will be ready for ocheld pending funeral arrangements.
There will be no inquest.
Rudolph Graf. a close personal friend of Spiliman, visited him early yesterday morning at his home and to him Spillman confided his intention rapidly so that it will be ready for occupancy when school opens in September. The new building will be constructed of pressed brick and will stand on the block bounded by Third, Fourth, Railroad and Jackson streets.

Evidence Found of Gang at Work at Coos Bay.

ALLEGED AGENT ARRESTED

L. W. Avery, Captured as He Lands From Steamer Breakwater, Is Suspected Accomplice of Spurious Coin Men.

United States Secret Service officials in Portland have unearthed the workings of a gang of alleged counterfeiters which s been operating in the Coos Bay intry and as the result of discoveries made during recent weeks caused the ar-rest last night of L. W. Avery, 36 years old, an ex-cowboy from Wyoming, as he stepped from the gangplank of the steamer Breakwater from Coos Bay. The gang is said to be a most dangerous and expert one and is charged with making and passing \$10 and \$20 gold pieces. Avery is accused of having been its agent for "shoving the queer" in North Bend and

The man was arrested by two officers detailed from Captain Baty's plain-clothes staff of the Portland police. He was taken to the police station and held there awaiting the action of the Government authorities. The case has been worked up against him by Steve Connell head of the secret service bureau in this city. Connell was unable to be present at the

arrest as he is ill.

The nature of the evidence against Avery has not yet been made public, but it is said by Mr. Connell to be of such a character as to leave no room for doubt as to his guilt. That other arrests may follow is very likely as the property may follow is very likely as the property of the control of the rests may follow is very likely as men engaged in this nefarious traffic never work singly and the Government officers work singly and the Government officers are now following clews leading up to the discovery of the remainder of the gang and the location of its plant. An agent for the Government is now in the Coos Bay district collecting evidence and the Portland office may soon be in the possession of some startling information.

Avery had been under surveillance for some time past. He has been living in about 90 feet from blue at the Deputy Coroner Dunning, Oison evidently came to his death through suicidal intent or because of the was first seen by the engineer walking up the track toward Portland, and when the engine side.

When the train reached a distance of about 90 feet from blue at the possession of some startling information. some time past. He has been living in about 20 feet from him, the man jumped North Bend and Marshfield since one on the track and was struck by the en-

foreman for J. J. Burns, a contractor of North Bend, who was engaged in work at Bay Park, a seaside resort nearby. The amount of the spurious coin put into circulation in this section is not known, but it is feared that the counterfeiters have succeeded in getting out hundreds

and perhaps thousands of dollars.

Whether the coins have been made in Oregon, or made in some other state and shipped here, is not now definitely known, but the theory is that they are made in another state. For this reason the Secret Service men are anxious to manufacture. cret Service men are anxious to maintain a certain amount of secrecy about their case until they have more definite information regarding the other members of the gang. The imitation gold pieces are said to so closely resemble the genuine that it would be difficult for the average citizen to detect anything wrong, even after an examination of the counterfeit. It was perhaps a significant thing that Avery had \$100 in gold in his pocket at the time of his arrest. The police were cret Service men are anxious to maintain the time of his arrest. The police were unable to find any bad coin, either in his pockets or in a grip he carried. Two trunks which came up with him on the steamer, however, have been seized and are being held for the Government officials. They will be searched today. According to the theory of the officers, Avery has been selected as one of the gang because of his innocent record. He is said to have lived all his life in Freis said to have lived all his life in Fre-mont County. Wyoming, where his par-ents now reside. He came from Wyoming to Oregon. Avery is a big, strong fellow, who stands fully six feet high, and is of powerful build. He declares that he is innocent of the charge and knows nothing whatever of the counterfeit money al-leged to have been passed by him. For-nal charges will probably be filed against him today.

COAST TRAIN KILLS MAN Unknown Leaps in Front of Loco-

motive Near Linnton.

A man thought to be John Olson, employed at the Government moorings near Linnton, though not positively identified, was killed last night about 6:30 o'clock by the westbound train of the Astoria & Columbia Railroad, one mile west of

Linnton From the sfory told by the conductor of the train, to a man who arrived on the scene soon after the accident, and in turn told it to Deputy Coroner Dun-ning, Olson evidently came to his death

year ago last December. He was always gine, killing him instantly. Owing to the

most unrecognizable manner, it was im-possible positively to identify him last night. The body was seen by fellow-employes, and all said that the dead man looked like Olson. The only mark of identification found on his body was a knife which bore the monogram "J. O." Deputy Coroner Dunning took the body n charge and brought it to the morgue are. An inquest will be held this after-tion at 4 o'clock, if all the witnesses can

Olson was a single man, about 25 years old, and had no relatives here.
