M'GLELLAN FLABBY TRAITOR--DR.WISE

Rabbi Says New York Mayor Should Restore Bingham and Then Resign.

ASSAILS POLITICAL PURITY

Prencher Declares City's Head "Unamiable Invertebrate" and That He Would Be Recalled if That Law Were Operative.

NEW YORK, July 11 .- (Special.) --"Mayor McClellan should restore General Bingham as head of the police de partment or resign. It would be preferable if he did both," said Dr. Stephen S. Wise, rabbi of the Free Synagogue. Dr. Wise remarked that if the re-

call were operative in New York "Me-Clellan, would be recalled with a unanimity that would admit of no necessity for a recount.

He also expressed a desire to apologize for a remark he made at the Cooper Union meeting recently, when to alluded to the Mayor as "an amiable invertebrate." "And I do hereby apologize," added the doctor gravely, "for he since proved that he is not an amiable invertebrate, but an unamiable invertebrate, as flabblly in the wrong

as he is feebly in the right.
"McClellan has prostituted his high office in taking the department of law and order out of true and tried hands at the command of the lawless and corrupt, and making it a pawn in the miserable game of politics. Either Gen-eral Bingham or Mayor McClellan is guilty of maifeasance in office. If it is General Bingham we have a right to know. If General Bingham be not guilty, then the Mayor is guilty of a betrayai of his trust. We ought to have the restoration of Bingham or the resignation of McClellan.

"Back of the action of the Mayor lies promotion of the police set of rowdles and thugs who don't want an honest and clean chief and always are ready to ally themselves with the forces of lawlessness and disorder. The Mayor's action serves notice upon the honest men in the department that no Binghams are wanted and to the men of the department who are not straight it brings solace and hope."

Best Thoughts Still Deepest Reality in Human Existence.

Report of a Baccalaureate Sermon Delivered at Weliesley College by Rev. George A. Gordon, D. D., of Boston.
In our day angols exist only in mythology and art. Between the spirit of man and God there is in our world no intermediary. The whole world of beauty on which devout souls nourished themselves for 20 centuries has for us passed away. If there is pathos in this there is also If there is pathos in this, there is

But if there are modern, 20th century angels, how can we believe in them? Our best thoughts as they rise out of the process of serious living, set free from eccentricities of the individual man, be-come the property of all devout minds. So that in mythology and in art we see the symbol of what is still the deepest reality in human ex-istence.

The angel of service is followed by the angel of Joy. No human being can be wholly miserable who is a genuine worker in any one of the 10,000 forms of permanent human need. Work of takes one out of one's self. of work gives one the sense of usefulness, of being a part of the great effective world of human beings. CHICAGO. July 11.—(Special.)—The claim of Illinois railroads that the 2-cent rate, while stimulating travel to a marked degree, had reduced the revenues of roads from passenger traffic almost to the ruination point, is borne out by a comprehensive investigation by the Santa Fe

year. The Santa Fe carried 654,000 more passengers than it did the year pre-viously under the 3-cent law. Meanwhile revenues from passenger traffic for the same period decreased \$297,000. To this Bradley positively refused to submit. It is said that he joked about his arrest

when first taken, but when he found that the police were in earnest he grew sullen, abusive and even threatening.

The poor reputation of Mrs. Bradley may aid Bradley's case, as Gittings, the man slain, was twice brought up before the Police Commission and reprimanded The Illinois Railroad Commission insists the law has been beneficial to the roads.
