Thousands Likely to Lose in Gamble for Land Because of Carelessness in Making Out Their Applications.

FIFTY CLAIMS FOR 20,000 APPLI-

SEATTLE, Wash., July 18 .- (Special.)—A dispatch from Springdale says that people there cannot see why there is such a heavy registration in Spokane as in reality there will be less than 50 claims to be had on the Coeur d'Alene reserve, good, bad and indifferent, and 20,000 are in line to make application

Clair Hunt, who is well known over Eastern Washington, and who made the survey and allotments on the Spokane reservation, has repeatedly nade the statement that there are but ten sections of land on this re-serve that will be thrown open to homestead entry.

SPOKANE Wash, July 13 .- Five or six thousand visitors spent today in Spokane waiting for the notaries to open their offices here for registration, or laying over to go to Coeur d'Alene, Kalispell or Missoula tomorrow.

A large part of the influx came from the South and West, Seattle, Tacoma, Portland and the California cities fur-

nishing many prospective applicants. Every hotel in the down town district turned away hundreds of people. The land office was closed all day. Applications in Spokane Monday will probably amount to 6000, on account of the numbers waiting to register before

leaving for other application points.
Hundreds, perhaps thousands of people who apply for registration on the three reservations will lose what chance they have for success in the drawing by mistakes in the process of applica-tion. One fruitful source of error is in mailing without a stamp the letter containing the application, as the applicents rogard it as a Government docu-ment which requires no postage. Many more are marked in some way which will render the envelopes possible of identification, which will cause its reection by the superintendent of the

pection by the superintendent of the opening at Coeur d'Alene.

Coeur d'Alene City, Idaho, also furnished an animated scene today, with many visitors patronising the lake tours and trolley rides.

Evans, of Crozer Theo-logical Seminary, of Chester, Pa., spoke tonight in the First Methodist Church. Hoth presented splendid discourses.

That the influence of the Bible is not waning was the sentiment expressed at a conference for the consideration of at a conference for the consideration of that subject at the school yesterday afternoon. Dr. E. C. Sanderson, of the Eugene Bible University, who led the conference, took this stand and all speakers supported it. One fact cited speakers supported it. One last sited to show that the influence of the Bible is increasing rather than waning is that 50 per cent of the students of the leading educational institutions of the country are engaged in Bible study in the Young Men's Christian Association and otherwise. Formerly the per cent was very small. Twice as many copies of the Bible are being sold right now year than all of the "six best s" combined, it was stated.
