DOOR NOW BOLTED OPEN

Amount Borrowed for Railroads Increased That Americans May Participate-Foreign Banks Likely to Consent.

PEKIN, July 20.-On account of the failure of the negotiations at the recent meeting of bankers in London and Parls, an attempt is being made at Pekin to close quickly the Hankow Rallway loan by increasing the amount so as to give Americans equal participation and not reduce the original allotment to the other three powers Great Britain, France and Germany.

This arrangement was agreed to by the Chinese Foreign Board, Saturday, and the four days' negotiations ended with the consultations of foreign bankers to-day, when the financiers telegraphed to their principals recommending that the above settlement be accepted.

OPEN DOOR IS MAINTAINED

Concession Recognizes Policy Proposed by Hay.

WASHINGTON, July 20. — American participation in the loan of \$27,500,000 about to be negutiated by the Chinese government on the Hankow railroad and other enterprises will be arranged to the entire satisfaction of this Government, thus assuring the maintenance of the "open door" in Chins. Information to this effect came to the State Department today.

Minister Conger was given the promise in 1994 that American and English money would be preferred in future loans made to China by foreign countries on the Hankow railroad. It has been in con-formity with this promise that the United States has been insistent that she be allowed to come in with the European financiers as a original party to the loan. Pressure had been brought to bear on China to withstand the American de-

The satisfactory adjustment of the loan means the application of the "open door" in its fullest aspect—a decided advance in the policy haugurated by the late Secretary Hay and vigorously pushed by ex-Secretary Root and by Secretary

The total loan contemplated by China The total ionn contemplated by China amounts to f5,500,000, which embraces f2,500,000 for the Hankow-Sze Chuan portion of the read, f2,500,000 for the Hunan section of the Hankow-Canton line, and f500,000 for the redemption of the bonds of the American-China Development Company. China was told that, if agreeable, the United States would take one-quarter of the entire amount of bonds, or f1,375,000. This country actually had been promised one-half of the f2,500,000 on the Hankow-Sze Chuan portion, so the American bankers will fare better than they expected.

JAPAN HAS BEEN LENIENT

Chirol, director of the foreign service of the London Times, who is en route to England from the Orient arrived on the Shinano Maru today. Mr. Chirol has Mr. Chirol had

an interview with the Japanese Emperor and spent considerable time looking into the political situation in the Orient. Speaking with reference to the insolent reply made to Japan by China concerning the construction of the Antung-Mukden Balirosd, Mr. Chirol sald that be considered Japan's actions wonder-fully lenient. China had negotiated with two British firms to build the Fakumen railroad, to which Japan objected as violating the Pekin protocol of 1905, under which China agreed not to build com-petitive railroads in Manchuria.

when China agreed not to build com-petitive railroads in Manchuria.

Mr. Chirol said the contract was given the British firm with the hope that thus the support of Britain would be obtained, a plan that had failed. There was ir-ritation over the obstinacy of China regarding this and other questions, when the sudden refusal of the Chinese to permit the widening of the gauge of the Antung-Mukden railroad came up. This has caused bitter feeling which may lead

Mr. Chirol, who is the author of notable works on Persia and Central Asia, is of the opinion that because of the recent removal of the Shah, settlement of the Persian troubles is possible. He said that hut for the Russo-Japanese War and Angio-Japanese alliance, the recent happenings in Persia would probably have been followed by war between Portan. Britain and Russia, and certainly would have resulted in a situation of great tension and danger.

ESTABLISHES NEW PRECEDENT

Crane Shows Importance of Admitting Foreign Capital.

NEW YORK, July 10.-Information NEW FORK, July 10.—Information from Pekin today promising a settlement of the Hankow loan question favorably to the United States was received with gratification by Charles R. Crane, recently appointed Minister to China, who is now in New York conferring with J. P. Morgan & Co. and Ruhn, Loeb & Co. Mr. Crane said this country was particularly anxious to have equal participation in the loan because it represented the first public because it represented the first public work under the new policy of the Chinese government favorable to foreign enterprises and under the policy of the United States toward the Eastern situation as laid down by President Taft.

The precedent is what we want to establish," he said.

OTHERS DRAW GOOD SALARIES

Becker and Townsend as Well as Heney on Payroll.

OREGONIAN NEWS BUREAU, Washington, July 20.—According to figures furnished Chairman Tawney of the ap-propriations committee by Attorney-General Wickersham, Francis J. Heney General Wickersham, Francis J. Heney is not the only special attorney of the Department of Justice who is drawing a very neat allowance from the Treasury. A tabulated statement of payments made to special employes of the Department of Justice between July 1, 1908, and March 30, 1908, shows that during that period Tracy C. Becker has received \$5740 and B. D. Townsend \$4387.

10 addition to his monthly salary, which averages about \$375, Mr. Becker was paid a lump sum of \$2000 August 21, last; \$1200 December 26 and another \$1000 March 23. Mr. Townsend's payments are all regular, being at the approximate rate of \$575 per month.

Borah and Newlands Want Reclamation Decision Reversed.

OREGONIAN NEWS BUREAU, Washington, July 20.—At the urgent request of Senators Borah and Newlands, Attorney-General Wickershan will appear before the Senate irrigation committee tomorrow to explain his recent decision holding illegal contracts heretofore made by the Reclamation Service with water-users associations under which settlers on uncompleted Government projects were given an opportunity to assist in construction, and for which work they were paid in scrip certificates. OREGONIAN NEWS BUREAU, Wash-

cates.

Mr. Borah has decided that unless the Administration reverses itself and resumes this co-operative plan of building, he will introduce and next session demand the passage of a bill specifically authorizing this manner of constructing Government projects. To annul this practice, he insists, is to retard development by reclamation.

LOS ANGELES LAWYER, WITH YOUNG WIFE, ARRESTED.

Man Accused of Issuing Worthless Paper, Wife Charged With Drunkenness and Held.

LOS ANGELES, July 20.-(Special.)-Arrested in a filthy den with his beautiful wife and three children, Stephen L. Sullivan, of this city is now held in jail Sullivan, of this city is now held in fall on the charge of breaking his parole and issuing worthless paper; his wife is locked up on a charge of drunkenness, and his three children are in a public home—all because Sullivan "fell from the water wagon," as he expresses it, during the Elks' reunion here.

Sullivan is a member of the legal firm of Walter, Pratt & Sullivan, and has had a glittering career here. He graduated as honor man at St. Mary's College, Oakland, and later graduated high in his

land, and later graduated high in his class from the University of California. He was then admitted to partnership with Hunsaker & Britt, a law firm, and had the best of prospects, when during a debauch he issued a worthless check. He was arrested, but through the in-fluence of many lawyers and the friendship of then Assistant District Attorney Byington, was released on parole. Until the gathering here of the Elks, Sulli-van led the best of careers, and was re-spected by all his friends, who believed he would completely live down his former lapse.

former lapse.

The festivities of the past week were too much for him, however, and he got on a prolonged spree, during which he lost all his money and his home, and in which it is charged he issued many worthless checks. During this debauch he induced his wife to drink with him, and she was in a shocking state when tound.

DESERTED IN POLAND, SHE FOLLOWS HIM 12 YEARS.

After Chase Across Two Continents, She Fights Divorce in San Francisco.

SAN FRANCISCO, July 20.—A wife's pursuit of her husband, covering two continents and extending over a period of 12 years, was the feature of an application filed in the Superior Court today, wherein Eva Levy asks that a divorce granted to Max Levy be set aside. The woman alleged that she was married to Levy in Warsaw, Foland, in 1883, and that he deserted her 12 years ago. Accompanied by her 2-year-old son, she set out in pursuit of her wandering spouse, according to the complaint, just missing him in London, picking up his trail in New York, arriving a day late in Norfolk, Va., and working her way slowly across the continent by way of chicago and St. Louis.

After the chase had lasted 12 years, she affirms, she arrived in this city to find that Levy had obtained a divorce from her on the ground of desertion, his com-plaint alleging that there was no issue of the marriage.

Westbound Tariffs Now Average Forty Per Cent Less Than Railroad Rates Across American Continent.

SAN FRANCISCO. July 20.—(Special.)—After years of indifference, during which it has maintained a simple schedule of charges, based upon American transcontinental freight rates, the Panama Raiiroad Company at last has heeded the insistent demands of the shippers of the Pacific Coast, and today placed in effect an independent westbound tariff.

Hitherto, it has been the practice of the Panama Raiiroad Company to base rates for service between New York and common points and San Francisco upon the tariffs of the transcontinental

and common points and San Francisco upon the tariffs of the transcontinental railroads in this country, less 30 per cent on carleads and 40 per ent on less than carleads.

In its completeness the new tariff is generally favorable to the shippers, primarily on account of the abolition of the method of basing rates and is a boon and blessing to shippers on this side of the continent.

Commodity rates have been liberally

side of the continent.

Commodity rates have been liberally reduced, that on whisky in barrels and drums, for instance, being 44 per cent, as against the original 26 per cent on carloads. Likewise the rates on canned goods, brass goods agricultural hand implements, iron vises and wrought iron pipe all show substantial reduction, which will be acceptable to the shippers.
