Constabulary Officers Ready to Investigate Cause of Recent Uprising.

NATIVES CHARGE CRUELTY

Mutineers Say White Officers Whipped Them for Breaking Rules — Officers to Be Questioned, Too.

MANILA, July 21.—The five highest ranking officers in the constabulary, who have been designated to investigate the mutiny of a company of native constabulary at Davao, Mindanao Island, on July 5, have assembled here and will proceed to Davao at once. The five officers will form a court of inquiry to ascertain the cause of the mutiny.

It is alleged that two officers had whipped the native enlisted men for infractions of discipline, and that this, together with the trouble over rations, finally resulted in the mutiny. The mutineers, it is said, say that they never intended to harm anyone except the two junior officers, and assert that when they returned to Davao after their first flight they wanted to confer with their captain and had no intention of making an attack.

Upon returning to town, however, they charged that an outpost of the settlers fired upon them, and that they replied.

SPOKANE UNION RICHEST

Bartenders Have Bank Deposits and Money in Treasury.

SPOKANE, Wash., July 20.—(Special.)—Spokane local No. 48, Bartenders' International League of America, is the richest bartenders' union in the United States. This is shown by the amount reported on every bartender's local International League, which has just reached Spokane.

The local union has nearly \$1000 more in the treasury than any other union, and is the only one owning a burial plot. This property represents an outlay of \$100, making the Spokane local the most substantial, with nearly \$3000. Spokane bartenders have about \$500 in the bank. (Continued comes next with full Spokane bartenders are receiving the best weekly wages in the United States, with an average of \$21 per week, besides board.

FIRST SHE LAWMAKER

SARAH PLATT DECKER NAMED BY COLORADO WOMEN.

They Expect to Run Candidate for Congress Two Years Hence, They Say.

DENVER, July 20.—"When are the women of Colorado going to send a woman to Congress?" asked Lady Crystal McMillan, delegate to the International Council of Women, who once addressed the House of Lords on woman suffrage for four hours. The question was addressed today to a gathering of clubwomen who were entertaining the delegates returning from the International Council at Seattle.

"In two years," was the quick and decisive answer. Although no definite plans of campaign have been adopted by the Colorado women, they are unanimous in the selection of Mrs. Sarah Platt Decker as their candidate.

BUCHTEL DENIES OPINIONS

Declares He Never Said Anything About "Dregs of Womankind."

CHICAGO, July 20.—Rev. Henry A. Buchtel, ex-Governor of Colorado, who was credited with an interview denouncing woman suffrage, denied today that he had made any such statements.

"I stated that some of the best people I know are indifferent to the exercise of the franchise," he added.

"Nothing that I said could be made to convey the idea that only the dregs of womankind vote. That's not true."

POWER IS NOT FOR WOMEN

Ex-Governor Buchtel, of Colorado, Flays Suffrage.

NEW YORK, July 20.—"Only the dregs of womankind vote in Colorado; the mothers have to be practically clubbed to the polls. Power was not intended for woman; influence is more subtle and it is woman's greatest force. When woman seeks power, it is a great calamity, not only for her, but for the men as well. My wife and daughter shun politics, as do the majority of the women in Colorado. I believe that women want the vote without the responsibility."

This is the opinion expressed by the Rev. Henry A. Buchtel, ex-Governor of Colorado, one of the four states in which women have the right to vote. Dr. Buchtel came here to preach in Calvary Methodist Episcopal Church. Continuing, the ex-governor said:

"The motive that prompted the granting of the equal franchise in Colorado, and women legislators have been suffered to put forth their claims out of deference to their sex. There have been few who did not demand the most absurd and unreasonable laws. The only trouble about the women legislators is that they will not listen to argument of a woman will. Logic does not appeal to them."

GAIN LIBERTY BY STARVING

Imprisoned Suffragettes All Engage in Hunger Strike.

LONDON, July 20.—The success of several suffragettes in obtaining their release from prison by carrying out a "hunger strike" has caused all of the suffragettes in Holloway jail to adopt this method of gaining their freedom.

SELLS SANTA FE STOCK

HARRIMAN UNLOADS ALL OF UNION PACIFIC'S HOLDINGS.

Only Makes Small Profit, but is Trying to Avoid Trouble With Government.

NEW YORK, July 20.—It became known today that Kuhn, Loeb & Co. had bought from the Union Pacific Railway all or practically all of the \$10,000,000 Atchafalaya, Topeka & Santa Fe preferred stock which the Union Pacific purchased in 1908. The stock cost the Union Pacific \$10,250,000, or \$102.50 per share, and was purchased from Kuhn, Loeb & Co. The stock is now selling around \$98.

E. H. Harriman is authority for the statement that the Union Pacific acquired the stock, not as a speculation, but for the 4 per cent dividend paid. In view of that statement, Wall street was at a loss to account for today's announcement.

Among the explanations heard was that the Union Pacific had sold the stock to avoid legal complications in the suit brought by the Government.

DYNAMITE SHIP BLOWS UP

Crew Takes to Raft Just in Time to Escape Explosion After Fighting Flames—Captain Mourns His Glass Eye.

SAN FRANCISCO, July 20.—Survivors of the explosion of the gasoline schooner Charles Hansen, which blew up off the Mexican Coast, June 28, arrived here tonight on board the Pacific Mail liner Newport, after a series of privations that included ten hungry days on La Triste Maria, an island near the Mexican mainland.

The Hansen was loaded with powder and dynamite. When nine days out from San Francisco, the gasoline engine began to back fire and the fuel supply caught fire. For 24 hours the crew of nine tried to extinguish the flames, which burned the wooden boats. The crew had eaten through the decks and were nearly the cargo of explosives, a raft was hastily constructed and the crew left the schooner.

WOMAN FIGHTS WOLVES

FOR TWO DAYS BATTLES WITH BRUTES ON RANCH.

California Woman and Young Girl Beat Off Hungry Animals That Try to Gnaw Into Cabin.

SAN BERNARDINO, Cal., July 20.—Exhausted and on the verge of collapse from the harrowing experience, Mrs. J. Getker, wife of the station agent of the San Pedro, Los Angeles and Salt Lake at Crestline, 30 miles east of here, and her 12-year-old daughter, reached their home yesterday after a two days' battle with a pack of wolves.

For 48 hours they had been imprisoned in the lonely cabin on a deserted sheep ranch by the hungry beasts. While the husband and father, aided by a gang of 15 section hands searched for them, the women were beating off with clubs the attacks of the wolves, who tried to get at them by tearing off the sides of the cabin and digging under its foundations.

Early Saturday morning Mrs. Getker and her daughter left the station and failed to return. At midnight Getker wired his superintendent that he must leave the office and search for his wife and child. The division superintendent at once ordered into the field 15 section men, who scoured the desert in search of the lost couple. At noon the next day a special train was ordered out of Caliente, bearing a score of horses and men to aid in the search. The lost mother and daughter were found Monday morning totally exhausted.

HOOK WORM TO BE FOUGHT

Army Recruits From South Show Large Percentage of Infection.

WASHINGTON, July 20.—The hook worm, or "lazy bug," which has been shown to exist in the Southern States, according to investigations of the physical condition of Army recruits, will form an interesting chapter in the forthcoming report of the Surgeon-General of the Army, and probably will lead to a wide-spread effort on the part of health boards in the Southern States to eradicate this disease.

According to investigations made by the Surgeon-General, 50 per cent of the recruits in the Army today from the rural districts of the Carolinas, Georgia, Florida, Mississippi, Alabama and Louisiana, show "lazy bug" infection.

It has been estimated that the campaign waged by the Army against the hook worm in Porto Rico resulted in a saving of more than 5000 lives annually.

HURT IN FIRE, START SUIT

Two Aberdeen Men Accuse Hotel Owner of Negligence.

ABERDEEN, Wash., July 20.—(Special.)—C. Ramey and R. R. McGee have filed suit in the Superior Court against A. Zelasko, for damages aggregating \$1500 for injuries said to have been sustained in the fire which destroyed the Zelasko block.

The suit is considered most unusual by lawyers, and, if successful, it is predicted that endless litigation will ensue in the state. Ramey and McGee were occupants of rooms in the Commercial Hotel on the second floor of the building the night of the fire and the only manner in which they say that escape was possible was by means of leaping from the second-story windows.

They base their claim for damages upon the allegation that Mr. Zelasko, as owner of the building, had failed to furnish the structure with suitable fire escapes, as provided by law, and that the absence of them resulted in the injuries.

LIBERTY AND A LIVING

IS MAN'S GREATEST BIRTHRIGHT

10 acres of BROADMEAD is liberty, the living comes with the first year's earnings.

Better by far to produce a living and a few luxuries by the minimum of labor on a 10-acre farm devoted to intensive systems than to work a large area, and overwork yourself and a dozen farmhands in the process—and take no larger profits.

Broadmead, cleared and ready for action at from \$100 to \$200 per acre, is a great opportunity.

We have recently prepared at great expense a 24-page folder printed in two colors throughout, which we consider to be the finest piece of literature of its kind that has ever been published in Portland. It gives a somewhat detailed description of Broadmead, showing its location in a specially prepared map, also includes a plat of the property and more than a dozen photographs taken from various points. If you are interested in intensive farming, this folder ought to be in your hands.

Why not send for it? (Watch for our full-page announcement Sunday.)
