Coast Market Now on an 18-Cent Basis.

PREDICTION OF 20 CENTS

Foreign Crop Reports Are Worse and Buyers Make for the Country Districts-Demand Is Now General.

The hop market has taken another up ward spurt. It is now firmly established at the 18-cent mark and wagers have been made that it will touch 20 cents by August made that it will tooch by cent by Aquet.

I. The markets all over the world are steadily climbing as a result of the poer crop outlook in Europe. Foreign cables received yesterday were extremely bullish and as a result there was a general enough of buyers from this city. Most of the business done lately has been in spot hops, though a few 1909 Oregon contracts have changed hands between dealers. There have been deals of this character at 17 and 17% cents, while 15 cents has been offered and re-fused in California, there have been actual sales of Sonomas at 15 cents.

At no time this season has the Oregon has market been as strong as it is today. Up to the present time the buying has been largely speculative for local account, but inrgery apartment of the Engineer and foreign orders are now coming in.

English trade circulars dated July 2 to 5 may in part:

Exchange and Hop Warshouses, London-The market shows a slight increase in prices due to the abortage of samples on offer of any quality, also to the unfavorable weather, which is causing damage to the growing

which is causing damage to the growing crop, sunshine being badly wanted.

Manager & Henley, London—A firm tone prevails crop prospects showing little or no improvement. Mould is reported to have made its appearance in some districts. Sunshine is sorety needed immediately to bring about any change for the better.

Adolf Heller, of Prague, Bohemia, writes under date of June 28:

In the Bohemian hop districts those gar-

adolf Heller, of Prague, Bohemia, writes under date of June 28:

In the Hobemian hop districts those gardens with stronger bins made further progress in growth, whereas the weaker ones show no hope of a material recovery. The heavy rains have washed away the housy dew but did not diminish the vermin, which is very persistent, and as thick as before. The reports from the other Austrian hop districts are more favorable, although some speak of the appearance of fity in some paris. Those growers who washed their gardens once, seeing that fity reappeared as planticial as before, are not inclined to undergo mire cost and trouble with further washing. Those growers who did not wash—as they are by far the majority—say they will rather take the chance of getting a crop of more than try to save, so insure low prices and further heavy loss once more, in most of the German hop districts, that is in the Market hop districts, that is in the Market hop districts, the Afsch, grand, Wurtemberg, and Baden, the state of plantations is much the same as the shove described in Bichemia, perhaps in some parts even worse, as the bine is said to be very backward and heavily attacked by vermin. Only in the Holledau district do the plantations seem to be better grown, although aways, and look healther as they are in rood demand, nrices having again advanced several kronen and the market has the tendency of further improvement. The Nuremberg market is firm at the late advance.

WHEAT FARMERS STILL HOLD BACK. ders Beady to Operate, But Sellers Are

The opening of the wheat market awaits the pleasure of the farmers. The disposition shown by dealers to operate is not met by ellers and but little business has been accomplished so far. When the farmers once make up their mind to accept the offers, there will be a lively market, but just now what dealers will pay. There is a good sready demand for old flour and as stocks will not last beyond the lime that new flour appears, there is reason to believe that present values will be mainteded.

The feature of the feed market is the strong inquiry from California.

the Merchants Exchange as follows:

MOVEMENT OF CALIFORNIA PRUIT. Bartlett Pear Shipments Are New the Peature of the Trade.

thre of the Trade.

The shipping movement of California decidaous fruits is reported by the California Bruit Distributors as follows:

Plums and prunes, 151 care—The heavy movement of tiums is now over, but considerable quantities will continue to ge forward for the next two or three weeks. We are still shipping Purple Duans, Bradshaw, Washington, Tellow Erg., Sugar, Spiendor, Imperials and Diamond, Grand Duke, Ginnt and Hungarian, or Gros Pruns, are not yet guing forward in any considerable amount, but they will be in good shape to move in shout one week more.

Peaches, 174 care—Early Grawfords, Deckone week more, hes, 174 care—Early Crawfords, Deck-

Peaches, ITs cars—Barly Crawfords, Deckers and Tuwan Clings are now being slipped in literal quantities. Ther will be followed by late Crawfords, Elbertas and Susque-hannas. We have plenty of peachers and the quality is first-class.

Pears, 350 cars—The Bartlett pear movement this last week was probably somewhat heavier than it will be as any time again during the season. Quality of the fruit continues satisfactory in swery respect.

Grapes—There is no particular change to report in the condition of this fruit. A few When peace Seedless have appeared, but they will not go forward in any quantity for at least another week. Early Tokanys are showing some signs of color and will begin moving in a limited way before our next letter.

SHORT STRAW BOTHERS FARMERS. But One Hancher Has Successfully Solved

the Problem.

BUHO. Or July 22—(Special)—Short straw is taxing the insenuity of the farmers here. The greater portion of the wheat and burkey straw in this vicinity is so short that the headers and combines seem unable to pick up but a periton of the grain.

W. W. Pairy is a local rapicher whose ingenuity has solved the problem, at least to his own satisfaction. Taking an ordinary mowing machine, he attached a red and an account to principle of a lawn-mower, and he gathers overy spear. The carring capacity is sufficient to make one round of the field when the grain is transferred to a wagon. Of course, thus is view as compared to the results down to the building the gets everything, down to which in the modes of the ground.

catches every atraw that is cut, something the combines do not do. The writer traveling over a field a short distance from this place just behind a combine found great quantities of wheat heads that had been cut, but subsequently dropped upon the ground. It is possible that in one field at least as much grain had been left as was originally sown. With the present price of the wheat it would seem the slower method of Mr. Penry would be the wiser.

BUTTER PRICES WILL ADVANCE SOON. Production Is Steadily Decreasing-Eggs and

Poultry Slow. A general advance in butter prices is probable before the week is over. A few of the city creameries are reported to have raised their quotations, but the majority of them remain at 20 cents. The make is steadily decreasing and in the trade another advance is believed to be justified.

Eng receipts are large for the midsummer season and with a restricted consumption the tone of the market is easy. Only fresh ranch stock is in demand.

The poultry market was not brisk yester-day, but most of the receipts were moved

Short Output of Yakima Vinegar. NORTH YAKIMA, Wash., July 22.—
(Special.)—W. D. Smith, engaged in the vinegar business here and in Toppenish, estimates that not more than 500 barrels of vinegar will be manufactured in the Yakima Valley this year, less than half the normal output. Apples of the Ben Davis und similar varieties have suffered this year and these are the ones that usually find their way to the cider mills.

LIGHTER DAY IN THE FRUIT TRADE

Effect of the Grocers' Picule on Front Street
Business.

Front street restorday showed the effect
of the grocers' picule, but in spite of this
a very fair amount of business was done.

Stocks of fruit were not excessive, except
in the case of watermeltum and the warmer
weather has caused these to move more
freely. The express was late and no fresh
fouthern shipments were offered.

Apricots and peaches have cleaned up
well and the cantaloupe market is also in
good shape. Blackberries are beginning to
come in, but are still bluch Cherries held
their own Lamberts selling at 10 g 11 cents
and Royal Anna at 6 cents.

New pointness were caster, California stock
celling at 14 g 15 cents and local wonders
at 13 cents.

Wall Street Awaits Steel Dividend Announcement.

MAY BE DISAPPOINTMENT

Union Pacific Strengthened by News of Improvement in Harriman's Health-Rally in Prices Occurs Late in the Day.

NEW YORK, July 22.—The principal in NEW YORK, July 22.—The principal in-fluence in the stock market may was the growing feeling that speculative hopes of an increase in the dividend on United States Steel next Tuesday were destined to disap-pointment. Believers in the stock maintain, however, that the earnings for the last quar-ter, to be shown by next Tuesday's report, and the excellent property for future bus-

ter, to be shown by next Tuesday's report, and the excellent prospects for future business will safeguard the market value of the stock. Reports continued to be received of the expansion of the steel industry.

The laconic explanation offered by J. P. Morgan that "there are more sellers than buyers" of the stock at present falled to reassure southment. The speculative reduction in the level of the support gives a suggestion of systematic liquidation that disturbs speculative confidence.

The market started strong by reason of bear covering of shorts put out yeaterday in fear that the Texas storm might develop into the proportions of another disaster at Gallveston. The passing of the danger today

prompted considerable rebuying of stocks. The market had another rally late in the day. Union Pacific showed some strength and was helped by news of the improvement to B. H. Harriman's health. One explanation of the strength of various stocks, which is expected strength of various stocks, which is expected now to come forward frequently, is the ne-samption that Union Pacific is reinvesting the proceeds of the sale of its Atahison preferred. A contrasting numer which was also heard today with regard to some stocks was that Union Pacific is liquidating its holding of other stocks than Atahison preferred. A higher price for copper helped that group of

WHEAT, OATS AND BARLEY ARE HIGHER AT SEATTLE.

Market Badly Overstocked With New Potatoes-Eggs Are Lower and Butter Is Firm.

SEATTLE, & Wash., July 22.—(Special)—Wheat, cats and barley are higher locally. California buyers bid \$30 for new cats today for delivery in August and September. Harley sold as high as \$28 today, while \$27 was Monday's price. Wheat was quoted as high as \$1.00½ for bluestam on the Merchants' Ex-change and good milling wheat will command a price even higher than quoted on the ex-

Local cherries are coming on the market in large quantities and Royal Anna were quoted lower today. The market was cleaned up on loganberries and blackberries this afternoon. Sweetwater grapes are still offered, but are moving very slowly.

The feature on the market is the great supply of pointees offered. The market is overstocked and they are selling at 1½0 per round.

Fresh Eastern eggs have dropped to 28934 cents per dozen. Oregon eggs are quoted of the exchange at \$2 cents. Butter and chee are firm. Poultry is still scarce.

wool, 21 bales; hides, 720. WESTON THRESHING RETURNS GOOD. Best Barley Record So Far Reported Is 85

Bushels Per Acre.

WESTON, Or. July 22—(Special.)—The Price brothers, James and Marvin, have finished threshing 1200 sacks of barley with their combine at their farm on Dry Greek. They had a good yield, averaging about 65 bushels per acre. They are new in wheat, which is running between 25 and 40 bushels per acre, and is quite free from smut.

A. J. McIntyre had 150 acres in wheat at his place north of town which yielded about 40 bushels per acre. Bushels Per Acre.

north of town, where 18 acres averaged 85 bushels per acre.

A 60 bushel barley yield was obtained from 25 acres of the L. T. McBrida farm and 30 acres of the T. J. Price estate near town.

Wheat en the O. M. Richmond place adjeining town, farmed by A. L. Douglaz, is yielding 40 bushels per acre, as nearly as can be estimated.

In the Dry Creek district, J. H. Coffman cropped 1955 sacks of Spring barley from 70 acres, an average of 35 bushels per acre. George W. Staggs had 1950 sacks of Spring barley from 90 acres, an average of 27

barley from 90 acres, an average of 2 bushels. A noteworthy fact in connection with both these crops is that no rain fell after the grain was sown, and the yield was much better than the farmers expected.

BLIGHT UPON TOMATO PLANTS. Eastern Mulinomah Growers Will Lose Two

Eastern Mulinomah Growers Will Lose TwoThirds of Their Crop.

GRESHAM. Or., July 22.—(Special.)—Tomato-growers along the Columbia Slough
and elsewhere throughout the eastern part
of the county report a serious blight upon
tomato plants, which will destroy fully twothirds of the crop this season. Tomatoes
usually attain rare perfection along the
Columbia River lowlands and the expected
loss will be a hard hiew to the growers,
who have several hundred acres set out,
but which are seen to be withering away
before the blossoms are formed.

The blight resembles frost killing and no
remedy has yet been found that will stop it. remedy has yet been found that will stop it.

Record Yield of Wheat Hay.

Metal Markets.

SAN FRANCISCO, July 22-Silver bars- Options and Cash Grain Prices Break Badly.

Foreign Crop News Is Bearish. Record-Breaking Yield in Australasia-Russia Shipping New-Crop Wheat.

CHICAGO, July 22-A severe slump i ing the first few minutes of trading while the wheat market was in an almost de-moralized condition, owing to the general moralized condition, owing to the general selling inspired by the unloading yesterday by a leading bull of a line of wheat aggregating 4,000,000 bushels. Weather conditions in this country and crop news from abroad also furnished an additional incentive to sell. The market opened extremely weak with prices in \$2 to 22 35 lower than the previous closs. July started at \$1.12% to \$1.14% and September at \$1.08% \$1.08%. Within a few minutes July had dropped to \$1.12 and September to \$1.08. On the break several leading bulls gave the market fair support, which caused a raily Demand for September was a feature. The market continued nervous all day, especially for July, but the tone was weak.

The movement of the new crop is still on the increase. Arrivals here today were 193 cars and 122 were estimated for tomorrow. There was also some expert bushess done. cars and 132 were estimated for tomorrow. There was also some export husiness done on the break. Cash prices in the Southwest were from ic to 3c lower. Advises from Australia indicate a record-breaking crop in prospect for all of Australasia and reports from Russia claimed that the first consignments of new wheat had been shipped from Crimes.

Huying of September corn by several leading commission houses was the feature of the corn market, as a result of which sentiment was quite builtah. At the close prices wore 16 % to 5 cm all day. The market closed firm, unchanged to 16 in the corn market closed firm, unchanged to 17 in the corn market was quite builtah.

Prices Quoted Locally on Cattle, Sheep and

Hogs.

Hogs.

The lovestock market is inclined to be weak under the pressure of heavy offerings of stock of inferior quality, and if this movement continues, there may be lower prices in some lines, particularly in sheep and cattle. Hogs continue scarce and as firm as ever. The top quotation on the general run is \$8.50, though one small lot of fancy grade was sold this week at \$8.75. The receipts at the yards resterday were 201 cattle, 1123 sheep and 94 hogs.

Late sales at the rards included 17 cows, average wight 988 pounds, \$3; 9 steers, average 1030 pounds, \$4.25; 65 lambs, average 236 pounds, \$8.75; 173 lambs, average 236 pounds, \$8.75; 173 lambs, average 275 pounds, \$1.25; 61 sheep, average 124 pounds, \$3.50. Local prices quoted resterday were as follows:

follows:

CATTLE—Steers, top, \$4.50; fair to good, \$4.64.25; common, \$3.75@4; cowa, top, \$3.50; fair to good, \$8.63.25; common to medium, \$2.50@92.75; calves, top, \$3.65; beavy, \$3.65; bulls and stags, \$2.75@3.25; common, \$2.92.50. \$292.50.

HOGS—Best, \$\$.25@8.50; fair to good, \$1,75@8; stockers, \$6@8.50; China fata, \$6.75@7.

SHEEP—Top wethers, \$4; fair to good, \$2.50@3.75; swee, \$6 less on all grades; yearlings, best, \$4; fair to good, \$3.50@3.75; Spring lambs, \$5.25@5.55.

FISH COMING INTO THE SOUND BY MILLIONS.

All Canneries Ready to Operate and Big Pack Is Looked For by All Concerned.

SEATTLE. July 22.—The sockeye salmow run, which has been so unsexisfactory recently that canners were beginning to feel airm, has est in with a vigor that encourages belief that the experts who predicted a prodigious run will be instifled. The Pacific American Fisheries cannery at Bellingham caught and packed yesterday 15,000 salmon, and today's pack will be larger. Next week this plant will probably put 100,000 fish a day into tins. The big runs come at four-year intervals SEATTLE, July 22.—The sockeye salmon Wheat—Shipping. \$2.05 @ 2.07 \(\); milling.

Reductions Will Benefit Mills in

Mountain States. SHATTLE Wash., July 21.-Sweeping reductions in the raise on forest products from points in Montana to the consuming markets in North and South Dukota, Western Minnesota, Nebraska and Mid-Western States, with no corresponding reductions from Coast shipping points, are contained in the new transcontinental freight bureau lumber and shingle tariff, which will become effective transcontinents of the company of the comp

tive August 15. The new tariff was re-cived here yesterday.
The tariff also shows that the Great Northern and the Northern Pacific have

Montana have been reduced, while Coast rates have been unchanged declare that the new schedules will be disastrous to Coast mills.

Private Company Seeks Business.

VICTORIA, B. C., July 22-(Special.)-Overtures have been made to the Domin-ion Government by the United Wireless Telegraphs, looking to the taking over of the stations and service in wireless established and maintained by the gov-ernment (for the protection of shipping primarily) along the British Columbia Cost, A similar proposal was put for-ward by the De Forrest Company a year or more ago, and failed, despite support accorded it by British Columbia's Minis-ter and several of the members. In the present case it is reported that these are again advocating the transfer suggested by the private company.

Executive Board Increased.

UNIVERSITY OF OREGON, Eugene, Or., July 22.—(Special.)—The executive committee of the Board of Regents of the University of Oregon has been increased from three to five members and will hold regular monthly meetings hereafter. The former executive committee, consisting of Regents Ainsworth, Friendly and Dolph, has been re-elected, and to these added Regents Bean and Miller. Judge R. S. Bean, president of the Board of Regenta, has been elected chairman of the executive committee.

UNIVERSITY OF OREGON, Eugene Or., July 22.—(Special.)—Applications for the position of head of the Department of Rhetoric and American Literature, left Lucila Clay Carson to accept the presi-dency of Mills College, in California, are being received by President Campbell is large numbers from all parts of the United States. The selection will prob-

Fire Startles Prisoners. VANCOUVER, B. C., July 22.-Ten thousand dollars damage in the burning of a carpenter shop was occasioned by a blaze at the British Columbia penientiary at Westminister last caused by sponatenous combustion. Scores of prisoners who feared death in the flames raised a great outcry, begging pitcously to be allowed their liberty. No one was injured.
