Phases of Industrial Growth in the Pacific Northwest

Eastern Buyers Anxious to Secure Rogue River Products.

PROFITS ARE ASTOUNDING

When First Extensive Pear Orchard Was Planted, Settlers Regarded Project as Fool's Dream-Orchards Now of Vast Extent.

MEDFORD, Or., July 25.--(Special.)--The Rogues River Valley, as usual, is billed for a bumper pear harvest this senson. The alternate rain and sun-bing in this walker makes the time. senson. The alternate rain and sur-shine in this valley makes the pear crop an assured annuity. In the past the orchardists in the low bottom lands have now and then lost their crops through frost. But this messenger from the frozen north has lost its ter-ror to the farmers of Rogue River Valley, for by building smudge fires in their orchards they discountenance him altogether. John G. Gore, on his Bare Creek bottom orchard, three miles south of Medford, was one of the first to resort to this expedient. He saved his pears by this method last year, while the only pears if h its neighbor's or-chard were on the trees close to the division fence where the smudge fires had been at work. shine in this valley makes the

had been at work. Another insurance the orchardist has as to his income from the fruit crop is that each year buyers from New York and elsewhere in the East come into the valley and buy the crop in advance. The buyers are in the valley now and the buyers are in the valley now and offering prices which make every fruit-man's heart glad. George E. Marshall a few days ago was offered \$150 an acre for his pear crop as it hung on the trees. Marshall, however, turned down the offer, as he will make twice that sums per acre if the prices of 1907 are again received.

Medford Pears Set Record Price.

The Rogue River pear is the recog nized world beater as a price getter in the Eastern, Aslatic and European markets. Other districts in the Northmarkets. Other districts in the North-west may produce as fine apples as are raised in Southwestern Oregon, but all admit that the fertile soil and pecu-liar climatic conditions which exist in the Rogue River Valley, make it the only known spot where the pear can be grown with the fullest success. California in the past has produced many pears, but reports from there tell that the orchards are rapidly becoming the vietums of pests and disease, and the victims of pests and disease, and that soon pear raising in California will be a thing of the past. Numbers of carloads of Comice pears

Numbers of carloads of Comice peaks shipped from Medford have been sold at auction in Eastern Canadian and Eu-ropean markets for all the way from \$5 to \$10 a box, as shown by the bulletins sent back by the National Association of Commission Merchants. It is well known that these prices excel all others ever paid for peaks. Even the Bartlett, with its tremendous yield ner tree has ever paid for pears. Even the Bartlett, with its tremendous yield per tree has been sold in carload lots for \$5.20 a hox-the Burrel orchard selling at that price year before last, while J. G. Gore and J. A. Perry both obtained nearly as high a price for theirs in 1907.

Compete With New York Fruit.

353.25 last year. An encouraging feature of the report is the number of new school buildings erected or at present under course of construction. Substantial schoolbouses Western New York, although its erchards are on the decline, still raise a quantity of pears of the Howell variety; but in their own markets the

You Better Not Get Dyspepsia

If you can help it. Kodol prevents Dypepsia, by effect-ually helping Nature to Relieve Indigestion.

A great many people who have trified with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Everyone is subject to indiges-tion Stomach derangement follows a partial director, and physics are Everyone is subject to indiges-tion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the ful will digest 2¼ pounds of food.

taking of Kodol. When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation. gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Ko-dol. And then the quicker you take

of the congested range conditions. The demand for land has crowded the The demand for land has crowded the settlements each year farther into the cattleman's domain and with the sale of state land the wide expanse of bunch grass is now dotted with the homes of prosperous farmers. Then came the en-actment of the herd law by which entire predicts have been closed against the cattlemen by the action of the County Commissioners and as a final blow the construction of the railroad down the Salmon River with the development of the agricultural and horticultural re-sources along the river and adjoining bench lands, has penetrated the heart of the stockman's stronghold.

he Big Hole country of Montana because 71/2 to 15 cents per acre. When these leases have expired the big cow camps of Central Idaho will pass into history and while the shipments of livestock will not be materially reduced, the fattened stock will represent the stall-fed product of the many farms.

The passing of the range cattle industry has been imbittered by the invasion of cattlemen by the action of the County Commissioners and as a final blow the construction of the rallroad down the Salmon River with the development of the agricultural and horticultural re-sources along the river and adjoining bench lands, has penetrated the heart of the stockman's aironghold. During the past few months the stock-mately 100,000 acres of state land in Idaho and Nes Perce County, and in most cases these leases have been drawn for five years, the annual rental ranging from the sheep, and at the present time no

SS CURES ECZEMA. . ACNE, TETTER ETC

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate net-work of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exumation causes the form-ation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S. S. S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applica-tions can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S. S. R. restores to the thin, acrid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. Book on Skin Diseases and any medical advice free to all who write. who write THE SWIFT SPECIFIC CO., ATLANTA, GA.

Different doctors have different ideas in regard to cures. Some call a suppression of symptoms a cure. They dose for drug effects and claim aliment remains, and will bring the real symp-but very likely leave the patient in a much worse condition. I claim that nothing leas that our very likely leave the patient in a much worse condition. I claim that nothing leas that our is a treat to remove the disease can be a real our if the symptoms. I search out every root and fiber of an aliment, and I cure to stary cured. WEAKNESS

The beautiful new residence of Gus Engebrecht on Seventeenth street, near Washington, in Oregon City, has been completed, and the owner has moved in his family and taken possession. The cost of the building was over \$2000. There are 10 rooms with a full cement basement and all modern conveniences. Mr. Engebrecht arrived here about three years ago from Athena, Wis, and purchased the 20-acre tract of the Dolan estate. He entered into the dairy busi-ness shortly after arriving in Oregon City. OREGON CITY, Or., July 25 .-- (Spe-cial.)-During the past month Oregon

City and its suburbs have all enjoyed a building boom. Giadstone, one of the largest suburbs of the town, has had largest suburbs of the town, has had more dweilings go up within the past year than any other little town in the county. The buildings erected there are a credit to any settlement, all of them modern and up-to-date. The beau-tiful new school building, the Christian Church and Postoffice building are among those constructed during the nest wear.

CLACKAMAS COUNTY SHOWS GREAT GROWTH.

variety; but in their own markets the New York Howell cannot compete in price-getting capacity with the same kind of pear raised in Oregon. The Eastern pear has not got the flavor, the bright color and the phenomenal keep-ing qualities which characterize the Rogue River brand and the Easterners, realizing this, gobble up the Oregon markets of Europe almost entirely un-supplied. The pear-raising indust

supplied. The pear-raising industry in the Rogue River Valley is not of ancient origin, the first orchard being planted by the late J. H. Stewart, the father of fruit growing in Southern Oregon, in 1885, and the first carload shipment be-ber sent out of the valley by him in ing sent out of the valley by him in

The Rogue River Valley, most of which lies in Jackson and Josephine counties, was one of the earliest setthed districts in Oregon. Attracted from their Eastern homes by the rich gold strikes in California, many miners wandered northward and, drawn first strikes by the rich gold deposits in Southern Gregon, and later by the beautiful cli-Oregon, and later by the beautiful cli-mate and spiendors of nature, sattled in the Rogue River Valley. They built homes, produced grain, cattle, vege-tables and berries and planted little family orchards of an acre or two in extent and containing all kinds of fruit. The orchards yielded wonderful fruit, being little bothered by disease. However there were no markets near However, there were no markets near, nor were there railroads to carry the fruit to distant populous centers. No one thought of raising fruit for commer-cial purposes. In that time when one

wanted fruit he went into the nearest

BLALOCK BACKS PROJECT

Plans to Develop Irrigation in John

Day and Deschutes Valleys.

WALLA WALLA, Wash,, July 25 Private enterprise will take up and de-velop the irrigation project on the John Day and Deschutes rivers, which the Gevernment several years ago abar-doned, after having spent thousands of collars and several years time accord. dollars and several years' time, accord-ing to a statement made by Dr. N. G. Bialock in connection with the filing of incorporation papers for the John Day

ower Company. The papers state that the company is incorporated at \$500,000 to generate water and electric power and to supply water and electric power and to anopply water for irrigation and power purposes. The land covered lies almost wholly in Ore-s gun and embraces parts of Umatilla, Marrow, Gilliam, Wasco and Sherman counties and part of Benton County, Washington

Dr. Blalock are associated Proar W. D. Lyman, of Whitman Col-, his son, Y. C. Bialock, and W. J. riner, of Bialock, Or. These men perss the incorporators and directors. Mariner,

"There are 200,000 acres that can be watered by this project," said Dr. Bla-lock today. "We hope to show that private enterprise can accomplish what the Government, after spending \$1,000,000 and six years' time, cast aside. At that

age.

J. H. Henderson, who recently moved to Meldrum from Camas, Wash., has purchased property, and is having a bungalow built R. R. McAlpin is also having erected a pretty home, and will take possession the latter part of Au-

gust. His property adjoins that of Mr. Henderson. Among other houses constructed at Gladstone is that of Harry O. Pad-

During Past Fiscal Year \$33,000 Was Spent in New Buildings

and Three Are Planned.

OREGON CITY, Or., July 25.-(Special.) -Clackamas County expended \$152,224.47 in the operation and maintenance of its public schools during the fiscal year which ended iast month, against \$120.-04.44 for last year. These figures are shown in the annual report of the County School Superintendent, T. J. Gary, which was sent to the Department of Public instruction today. Thirty-three thousand dollars has been put into new buildings this year, and this does not represent all of the building now in progress, but only \$7000 was spent for this purpose last year and ten years ago there was ex-pended \$119.85. In Clackamas County there are \$255 In Clackamas county there are \$255

year and ten years ago there was ex-pended \$1119,88. In Clackamas County there are 9258 children of school age, as against 8923 inst year, and 7786 in 1839. The value of schoolhouses and grounds is \$204,742.50. Last year it was \$175,143. and ten years ago it was only \$94,571.50. The average salaries of male teachers in 1899 was \$37.41; last year it was \$27.47 and it has now been advanced to \$51.00. For female teachers the average salary for the year just closed was \$49.94 and in the year previous it was \$45.22, compared with \$27.29 for ten years ago. Three schoolhouses were built in 1907 and ten in 1968 and three more are now under construction at Clackamas, Har-mony and Wichita. These are all four-room buildings and are modern in every particular. Of the ten new buildings con-structed has year, only two, at Rediand and Oregon City, were south of the Clackamas River, demonstrating that the county north of the Clackamas is out-strupping the southern section in growth

county north of the Clackamas is out-stripping the southern section in growth of population. There were 26 eighth-grade graduates this year and 17 the previous year. The policy of Superin-tendent Gary is to emphasize spelling, sanitation and thoroughness. The latter feature has been especially emphasized in this county and the improvement of schoolhouses and grounds has received special attention.

TOTEM POLE IS CURIOSITY

Quinault Indian Hews Out Figure

With Crude Tools.

ABERDEEN, Wash., July 25.-(Special.) —One of the oddest totem poles ever seen on Grays Harbor has been brought to the city by "Jimmy." a well-known Indian of the Quinault reservation. "Jimmy" got Mayor Benn's consent to stand his pole at the City Hall, where it is offered for sale. The pole is hewn out of a log with the crudest tools, and yet some of the figures are excellent and attractive. The first figure is a whale and the remainder

Giadstone is that of Harry O. Pad-dock, who recently took possession. Professor Vedder, principal of the Giad-stone school has purchased land over-looking Giadstone, in a good location. Mr. Vedder is to take possession of his new home in a few weeks. G. W. Wil-liams, a recent arrivel from North
