

# RHEIMS PLANS FOR 'WEEK OF AVIATION'

### Summer of Tremendous Progress in Art to Have Glorious Finish.

## FAMOUS MEN TO ENTER

Various Events of Week to Be Participated in by Aviators at Top Notch of Science — Wright Brothers Not to Be There.

RHEIMS, France, Aug. 1.—A Summer's program of aviation which has exceeded the dreams of the most enthusiastic followers of the sport will be crowned by the assemblage of the most renowned aviators at "week of aviation" at Rheims beginning August 22.

The aviators entering for the various events on the program include Latham, Bleriot, De la Grange, Farman, Semmer, Santos Dumont, the Count de Lambert and Tisserand, the apt pupils of Wilbur Wright, Demaree, Santal-Polletier, Goussard, De Bussche, Guiffrey and Glenn H. Curtiss, who will be the official representative of the Aero Club of America. The nations taking part include France, America, Austria, England and Italy.

## WOMEN ARE TO BUILD AIRSHIP

British Femininity to Furnish Funds for Defense Engine.

LONDON, Aug. 1.—(Special.)—Lady O'Hagan and Mrs. Anne Watt Smyth, chairman and honorary secretary of the Women's Aerial League, write to a London paper:

"Now that a real interest in the subject of aviation as a means of national defense is beginning to manifest itself throughout the country, it is of the first importance that the movement should be directed along the right lines.

"The Women's Aerial League, having carefully considered the matter, are convinced that the proper course is to build in this country an all-British airship, made of British material and constructed by British mechanics.

"The history of the motor car industry proves conclusively that this is the only proper way to follow. We do not go abroad to purchase Daimlers, and it is not consistent with the enterprise and the independence of the British interests to purchase abroad an airship ready constructed.

"It is hardly to be expected that in the existing state of this infant industry foreign nations will sell us their newest patterns and designs. Even if they did so, the only experience so gained would be in the actual manipulation of the airship.

"This country ought to be entirely self-sufficient in the assistance of foreign firms in a matter of first importance to the industry the honor, and for the very existence of the Empire, and for this reason we shall make it part of our policy to purchase engines, motors, or bursters for young men, being British subjects, wishing to take up aerial engineering as a profession.

"It is on these grounds that the Women's Aerial League has resolved to appeal to women throughout the Empire to support the Women's League by their brains, money and wide outlook."

## ALL FRENCH RECORDS BROKEN

Biplane Stays in Air 1 Hour, 50 Minutes and 30 Seconds.

CHALONS SUR MARNE, Aug. 1.—M. Semmer today made a flight of 1 hour 50 minutes and 30 seconds duration in his biplane, beating the records of all the French aviators.

## PACKING COMPANIES ROW

One Sues Another for Obstructing Fishing Ground in Columbia.

ASTORIA, Or., Aug. 1.—(Special.)—A suit was filed in the Circuit Court last evening by the Columbia River Packers Association against the Tallant-Grant Packing Company, George Kaboth and Walter Pulliam to restrain the defendants from anchoring a schooner in the navigable waters of the Columbia River in front of the Nicholas Kevage sealing grounds.

The complaint asks that the defendants be restrained from anchoring any float, house, scow or other obstruction in front of the plaintiff's property and for a judgment against the defendants for damages estimated at \$200. Judge Eakin granted a temporary injunction as asked for, pending the hearing of the case.

## JEALOUS WIFE AVENGER

Kills Husband and Slices His Paramour to Pieces.

CANTON, Ohio, Aug. 1.—Mrs. Tony Panella, wife of an East End grocer, fired two bullets through her husband's head today when she found him embracing Mrs. Clara Pizzana, his clerk. Death was instantaneous.

Afterwards she seized a butcher-knife with which she literally cut the woman to pieces.

## SHIP WITH 3000 OVERDUE

Steamer Waratah, From Sydney to London, Is Sought.

DURBAN, Natal, Aug. 1.—Some alarm has been created by the non-arrival here of the British steamer Waratah, from Sydney, for London. She left Natal July 26, and since then has not been seen by any vessel.

A search has been instituted for her. The Waratah has 3000 persons on board.

## TAPPING MIDDLE OREGON

A Communication on the Railroad Race to That Point.

attitude of the Government toward the "merger" of the Union Pacific and Southern Pacific lines. It would be the easiest, quickest and of course the cheapest route. But the Corvallis & Eastern is a Southern Pacific property, and to escape the charge that common ownership destroys competition and that this "merger" is wicked and illegal it is essential that traffic having origin on Southern Pacific lines should move to destination over the Southern Pacific, as would undoubtedly be the case if the Southern Pacific and Union Pacific were in competitive control.

Now, for years the long distance traffic originating in Middle Oregon will be in forest products, the chief market for which is in the prairie states of the Middle West. To take this out over the Stekyous, around by Sacramento and back over the Sierras would be highly unprofitable, compared with the shorter mileage and water grades of the Union Pacific route. But for the Southern Pacific to take the freight at the mills and haul it 200 miles to Portland and there deliver it to the Union Pacific for the long haul to market would amount to confession that there is no competition between these railway systems. Such a course would be sure to precipitate trouble that already impends over the Harriman combination.

Hence the legal necessity for getting Union Pacific entrance to the central part of the state. It is not a question of the feasibility of local routes—north and south or east and west—except as to the trunk line connection, which is very important. Mr. Harriman's competitors might view with equanimity his penetration of the Deschutes timber belt from connections that would make it impossible for him to haul the lumber to market at a profit, but they would not make them active at once. The Klamath Falls route cannot be used for much of the Oregon pine, because it crosses the Cascade twice, even if the mileage was not excessive.

Of course there will eventually be a large agricultural traffic originating on the Central Oregon plateau, but this is a matter for more or less gradual development. The end of the week. Inquiry among Senators opposed to the conference report indicates that the debate will not be extended.

## NOTED FRENCH AVIATOR, WHO WILL BE PROMINENT IN COMING MEETING OF AEROPLANE MEN, AS HE APPEARS IN HIS MONOPLANE.

LOUIS BLERIOT IN FLIGHT.

## FRIENDSHIP IS CEMENTED

EMPEROR NICHOLAS TO LEAVE FRANCE FOR ENGLAND.

FRANCO-RUSSIAN ALLIANCE SAID TO BE STRENGTHENED BY VISIT OF RUSSIA'S SOVEREIGN.

CHERBOURG, Aug. 1.—The final day of the visit of Emperor Nicholas to France was attended with beautiful weather. Emperor Nicholas will leave early Monday for Cowes to visit King Edward. He will be accompanied half way by a division of the French fleet.

The whole tenor of the official utterances of President Fallieres and Emperor Nicholas during the visit has indicated that the Franco-Russian alliance remains the keystone of the policy of the two powers in the interest of peace.

The Matin strongly intimates that the Emperor's visit to President Fallieres and King Edward will result in closer ties among the three powers.

## ENGLAND IS READY FOR VISIT

Big Preparations Made to Receive Russian Sovereign.

COWES, Isle of Wight, Aug. 1.—The roadway and the clubhouse lawn of the royal yacht squadron presented a brilliant appearance today. Large crowds have gathered for regatta week, which this year will be greatly enhanced by the visit of the Russian Emperor.

Tonight the indomitable, the Invincible and the Indefatigable, three battleships of the Dreadnought class, sailed to meet the Russian imperial yacht Standart and escort Emperor Nicholas to Cowes.

The Russian monarch to Great Britain, his visit in 1906 to Balmoral having been private. It is when Emperor Alexander came to England, for a visit similar to the present one. The event is regarded of the highest importance.

## OPIMUM IN MACHINERY

GOVERNMENT TO PROBE INGENUOUS SMUGGLING.

American Arrested at Manila—Cocaine Also Concealed in Hongkong Shipment.

MANILA, Aug. 1.—The Government is pressing the investigation of what is believed to be an extensive opium smuggling plot which was brought to light by the discovery and seizure of 400 pounds of opium and 70 ounces of cocaine ingredients concealed in a shipment of mining machinery brought from Hongkong.

Louis Grant, an American business man of considerable prominence, has been arrested charged with being participant in the smuggling plot, and it is believed that several others are being closely watched by the special agents.

The prohibition of the importation of opium went into effect the price of the drug has gone up by leaps and bounds. The retail price in this city is \$25 a can.

## THRASHING BEGINS IN LINN COUNTY.

ALBANY, Or., Aug. 1.—(Special.)—Thrashing will be in full blast in the central part of the Willamette Valley this week. A number of thrashing crews will begin work in Linn County in the morning and before the end of the week practically all of the machines will be in operation. Two or three crews started last week.

# CONGRESS'S EAR END OF SESSION

### Debate on Tariff Expected to Be Concluded in Senate This Week.

## SHORT SPEECHES PROBABLE

Aldrich Is Determined Conference Report Shall Not Be Carried Into Next Week—Night Sessions Likely.

WASHINGTON, Aug. 1.—Unless something happens to provoke heated political debate, the new tariff bill should be enacted into law and the extraordinary session of Congress adjourned before the end of the week. Inquiry among Senators opposed to the conference report indicates that the debate will not be extended.

The Senate will meet at 10 o'clock Monday. The session probably will begin at that hour and will continue until 6 P. M. daily until the report is adopted. If it is found that more Senators desire to speak than have already given notice, it is possible evening sessions may be held.

Senator Aldrich is determined that the conference report shall not be carried over into next week. He does not expect to occupy very much time himself. It is probable that Senators opposing free hides will discuss that subject, and that all of the Republicans who voted against the bill when it was on its passage in the Senate will take occasion to explain their action. Some of these Senators will vote for the conference report.

Senator Culberson, leader of the minority, is authority for the statement that the Democrats will debate the conference report thoroughly, but will not filibuster against its adoption. Senators Daniel and Bailey, members of the committee on finance, will speak at length against the adoption of the report.

## FIFTEENTH SUSPECT HELD

Sheriff Stevens Makes Midnight Auto Run for Girl's Assault.

Notified after last midnight by two prominent Washington County farmers that a man answering the description of the thug who assaulted a young woman of Sylvan recently had been seen near Beaverton, Sheriff Stevens hurried to the scene in his automobile and arrested a young Englishman, who gave his name as William Rashley. He was found in a deserted house, "cooking a meal hobo-fashion. He did not resist arrest, and was conveyed in the Sheriff's automobile to the girl's home. She was unable to identify the man positively. The suspect is being held in the County Jail for further investigation.

He is the 15th suspect arrested by the Sheriff's forces for this crime. Rashley explained his presence in the country by saying he had heard of a job near Beaverton, had walked there to get it, and failing to obtain work, was walking back to Portland.

## CIGARETTES UNDER BAN

Minneapolis Has Exciting Times During Last Smokes.

MINNEAPOLIS, Aug. 2.—The cigarette is an outlaw in Minnesota. The new state law prohibiting their sale went into effect Saturday, and it is now illegal to put them on the market.

The cigarette market assumed a peculiar phase in the closing hours. The price varied, and was as unsettled as the stock market after a flurry in Wall street. In the evening there was a shortage in popular brands at some cigar stores, and clerks sent up prices.

Reports came in from other sections of the city that a fresh supply had arrived, which caused a rush to those stores.

The prices were kept at top notch. At least 1,000,000 cigarettes were sold in Minneapolis during the day. Nearly every store in the city had sold almost its entire supply before the end came.

## GOV. JOHNSON AT SEATTLE
