

REBELS IN SPAIN DECLARE REPUBLIC

Carlist Pretender Expected to Put Himself at Head of Revolution.

ALL CLASSES HAVE JOINED

Censored Reports That Uprising Is but Work of Anarchists Is Disproved—Government Takes Strenuous Measures.

(Continued From First Page.)

tionaries had been shot without trial at the Montjuich fortress. Dispatches from various points in Spain and from Melilla, Morocco, tell of other perils faced by the government. The Moors, who are concentrating their forces for an attack upon the Spanish coast, today have a detachment of Spanish troops near Melilla, wounding several of the officers.

TROUBLE STILL AT BARCELONA

Official Reports That City Is Tranquil Are Not Accepted.

PARIS, Aug. 1.—Though official Spain minimizes the Catalonia insurrection and insists that the revolt has been crushed, a far different story emanates from the frontier. Refugees and travelers declare the revolt is still rampant, and that desperate combats continue at Barcelona, where 50 revolutionists are reported to have been wounded in a conflict that occurred as late as Saturday night.

Information concerning the actual situation in Barcelona and the rest of the province is rather tonight than ever before. Although some of the news from the frontier is from revolutionary sources, and therefore open to suspicion, more reliable intelligence leads to the belief that, although Barcelona is calmer, the insurrectionists have taken to the suburbs and to organizing districts, where they are sowing seeds of revolt and are inflaming the populace to maintain the struggle to the bitter end.

Workmen Str Up Trouble.

Barcelona province is in the hands of prowling bands of workmen, heavily armed, who occupy the railroads, block the highways to prevent communication, and who refuse entrance to newcomers.

Cassan de la Selva is in the hands of the revolutionaries, and at Palmos, where the monastery was fired and the monks tortured, the situation is described as alarming and the lives of foreigners endangered.

Moors Win Again.

From Melilla comes the news of another Spanish convoy being ambushed and several of its officers being wounded before the troops succeeded in extricating themselves.

Rumors are afloat that a general strike will be launched tomorrow at Madrid and that the first section of organized in the Biscayan region. All persons subject to military duty are forbidden to leave Melilla, and it has been decided to forestall an outbreak in the other provinces of the country.

Killed and Wounded 3000.

Dental is given to the report that the commander of the Madrid garrison is hostile. Another official statement says that the number of victims of the fighting at Barcelona is unknown, but frontier reports, one of them of alleged authoritative inspiration, declare the killed or wounded were aggregated before the number of insurrectionists summarily shot was between 40 and 125.

CITY IS LIKE BATTLEFIELD

Situation More Serious With Rebels Fortified in Mountains.

LONDON, Aug. 2.—The Daily Telegraph's Madrid correspondent, in a story dated Friday night, declares that though the military is now in control at Barcelona, the situation is still more dimly, as the anarchists and revolutionaries have fled to the mountains and nearby villages, where they will form insurrectionary centers. The revolutionary movement, according to the correspondent, is now extending to all the industrial towns along the coast, and there the resistance in the mountain districts and villages.

Clasps Dead Arms About Her and Pair Is Found Thus—Motive Is Thought Lack of Money.

LOS ANGELES, Aug. 1.—(Special.)—Carrying out a suicide pact, Mrs. W. A. Findley shot her husband this morning in their apartments at 200 Howe street, and then took cyanide of potassium herself. Before she died she carefully arranged his arms in a loving attitude about her, then embraced the corpse, and thus the remains were found clasped together.

WOMAN SHOTS HUSBAND AND THEN DRINKS ACID.

LOS ANGELES, Aug. 1.—(Special.)—Carrying out a suicide pact, Mrs. W. A. Findley shot her husband this morning in their apartments at 200 Howe street, and then took cyanide of potassium herself. Before she died she carefully arranged his arms in a loving attitude about her, then embraced the corpse, and thus the remains were found clasped together.

FARMERS ARE BILKED

Find That Piano Contracts Are Really Promissory Notes.

COLLEGE, Wash., Aug. 1.—W. O. Erbe, traveling salesman for L. Albouze, piano firm of Hartline, Wash., was bound over to the Superior Court in Justice Doplite's court today, charged with having defrauded several Whitman County ranchers on piano deals.

FIERCE FIGHTING CONTINUES

Report of 50 Revolutionists Killed Brought by Refugees.

CERBEREA, France, Aug. 1.—The latest news received here from Barcelona is that fighting between Spanish troops and revolutionists continues fiercely. It is reported that 40 revolutionists have been shot without trial at the Montjuich fortress, among them being

MOROCCAN REVOLUTIONISTS OF TYPE NOW ENGAGED IN UPRISING AGAINST SPANISH RULE.

Emiliano Iglesias, editor of the Progreso, the organ of Deputy Leroux, chief of the Republicans in Barcelona. It is impossible to penetrate into Spain without danger, further than Gerona, beyond which the railroad is unserviceable. Refugees arriving here say the revolutionaries were complete masters of the situation at Barcelona until the evening of July 28, but that in a new collision between them and the troops Saturday 50 of the revolutionists were wounded. The Carlist organ at Gerona announces it disapproves the revolution.

SECOND TRACK BY FALL

GRADE IS BEING WIDENED ON LINE TO VANCOUVER.

Material From St. John Cut Is Being Used to Fill In Columbia Slough Trestle.

While every railroad makes an effort to use the material taken from cuts to make its fills, few roads have been as fortunate as the Spokane, Portland & Seattle in the close juxtaposition of the portions of its line where this can be done. An example of this happy economy and saving of long hauls of roadbed material is furnished in the St. John cut and the Willamette and Columbia River fills on the line between Vancouver, Wash., and Portland.

When this line was first opened there was a long stretch of trestle north from St. John to the bridge over the Columbia Slough. The trestle has now all been filled in and the embankment so made widened until it carries a double track. Sand taken from the St. John cut has been used actively in this work, with a surfacing and ballasting of broken rock taken from the rock cuts along the Columbia. In this manner all long hauls of roadbed material have been saved, and also a ready dumping ground found for the material removed from the cut.

The St. John cut is now almost down to grade, the main traffic track showing a rise of but 14 feet, and being at one side of the completed line of road. This cut is being rapidly widened, and the material being removed is being used to widen the embankment along the shores of the Willamette from North Portland to the switch leading to the bridge over the river. As soon as this embankment work is completed, double track will be laid, rock ballasted with stone from the Columbia River rock cuts, and then the first section of the new double track road between Portland and Tacoma will be completed.

Members of the North Bank engineering force, who have charge of the work, today greatly simplify traffic dispatching between this city and Vancouver. This part of the line now greatly congested by the double track of the Columbia River, North Bank and Northern Pacific all using the single track as far as the Willamette bridge, both for freight and passenger traffic, is now being widened. The completion of the double track line for this section will virtually do away with dispatching problems, as the road is to be protected with track-orenc block signals.

Lipman-Wolfe & Co

Linen, Rep, Popelin Suits \$3.95

Selling from \$7.50 to \$15.00

The closing of a grandly successful season urges us to distribute all unsold balances at prices that touch sensationalism in their reductions. The suits in this sale represent without exception our very best sellers in tailored wash garments. The unseasonable weather for the past week justifies the deepest cuts. You must come and see these suits as description of them conveys but a small idea of their value.

Examine the stock—look—try on—a bargain harvest awaits you.

Rose, pink, sky, natural, cadet, reseda, mulberry, white, toque, champagne, serpen, mode and other Spring shades.

The coats are made in the fashionable length, ranging from 38 to 44 inches. The skirts are cut in the straight and full flare style. In this offering there are 314 suits, examples of which will be displayed in our three Third-street windows.

At the price of \$3.95 we cannot fill phone orders, nor send any C. O. D., or any on approbation.
