Government Declares Revolt Put Down, Yet Seizes All Means of Communication to Prevent

Sending of Orders.

BAYONNE, France, Aug. 2.-With all frades unions in northern Spain declaring a general strike today, and with severa nunes in Catalonia having proplaimed a republic, conditions in Alfo kingdom are anything but satisfactory. While the government on the one hand sends out reassuring dispatches to the effect that it has the revolt in Barcelona and neighboring districts thoroughly under control, on the other hand it ad-mits that it has seized the telegraph and telephone lines in the Biscayan provinces, in an effort to keep the revolutionists and strikers from communication with

free and independent, lead unbiased out-siders to believe that the revoit is any-thing but supressed, and that while revo-tuitousis may be cowed in Barcelona it-self, they are waiting in small hands in the hills for more reassuring times, and will then reassert themselves.

#### News Is Suppressed.

Much difficulty still exists in getting accurate news of the conditions within the kingdom, as the government has for-bidden the transmission of all news-papers dispatches, and has suppressed a majority of the newspapers. It is known, however, that the working classes throughout the kingdom are greatly ex-

Beports received here direct from Mad-rid say King Alfonso is greatly depressed over the internal situation. He desired to throw his personal popularity in the scale and it was with difficulty that he could be dissuaded from going to Barcelona in person. Premier Maura told him it would be equivalent to suicide to enter that hot-bed of revolt.

#### Slight Progress Reported.

The facts as to the situation at Bar celona still remain somewhat shrouded, as no correspondent has yet reached the which is isolated by land and sea Nevertheless it appears certain that Gen-eral Santiago has restored a semblance of order in the city and today a serious effort to resume work will be made. #### Provinces Still in Revolt.

It seems certain that the outlying coun try still is in the hands of the revolu-tionists and even the offcial dispatche from Madrid speak of the necessity of restoring order in the interior provinces and of the difficulty of disjoding the "snarchists," who have taken refuge in Some reports insist that and that a regular junta is directing the

Indignities.

The dispatch adds that Pueblo Nuevo, a fashlonable watering place near Valencia, has been entirely destroyed and a number of leading inhabitants shot. Reports from Catalonia say the advanced political parties have condemned King Alfonso and Premier Maura to death.

### Executions Are Denied.

The military authorities today denied categorically that the revolutionists sentenced to death at Barcelona already have been executed. They say the sentences are awaiting the approval of the Minister of War, and that in the meantime the prisoners are being held in the dungeons of Fort Munjuich and Citaranua. ### Refugees From Barcelona Tell of

Shocking Acts of Rioters.

MARSEHLLES, Aug. 2.—French merchants, passengers on the steamer Ville de Batia, which left Barcelons Sunday, witnessed the week of insurrection and fighting. They say that the trouble started as a protest against the war in Africa, but that the anarchists joined the movement and that the bloody clash between the workmen and the police transformed a simple strike into an insurrection. The rioters showed great bitterness and raged against church property, and even broke open sepulchers, carried out the bodies of nuns, paraded with them through the street, and then burned them in the public squares. This caused the reports to be circulated that living nuns were being mattreated, and their bodies carried aloft through the streets. Shocking Acts of Rioters.
