SPOKANE DECISION TO BE CONTESTED

SOUTHERN PACIFIC AND SANTA

Position of Northern Roads to Be Attacked at General Meeting in October.

SAN FRANCISCO, Aug. 5 .- After ten days of discussion, the freight agents of the Southern Pacific, the Santa Fe and other transconfinental railroads announced today that they had decided to fight the affirmation of the Spokane

decision and its application to other intermediate points.

George W. Luce, general freight agent of the Southern Pacific Company, said that when the matter is taken up at Spokane next October his company and the Santa Fe will contest the attitude of the Northern railroads which favors the granting of termina rates to intermediate points. A battle

royal is expected at that meeting. Luce declared that his company took the position that intermediate are not entitled to terminal rates; that to grant them such rates would be to open a vast field to the manufacturers f the Middle West heretofore reserved for Western enterprise.

He said that in view of the water competition on the Coast, the present policy of forcing intermediate points to pay rates to the Coast plus the local freight back, was considered fair and reasonable by the Southern Pacific and Santa Fe, whereas the Northern roads favored a proposal to limit the distributing area on the Coast to a narrow atrip paralleling the shore line.

MULLANEY REFUSES JOB Mayor Busse's Secretary Does Not

would be unable to take the position of general superintendent of police, offered him when the resignation of George M. Shippy was received.

Mayor Busse, it is announced, has not

given up hope of persuading his secretary to take the position, and up to this time has considered no other man for the place. It is probable that no appoint-ment will be made immediately. Secretary Mullaney, in finally refusing to let the Mayor send his name to the

City Council, gave as his principal reasons the fact that the term is a short one at best; that needed reorganization in the department could scarcely be accomplished in the period, and that he had no training in police administration.

The wife of the secretary, too, brought her influence against his acceptance, and this undoubtedly had considerable influ-
