# ALBERS BROS. TO BUILD LARGE MILL

Work Started on Cereal Plant That Will Involve Outlay of \$1,000,000.

## DOCK TO BE CONSTRUCTED

Steel Frame Elevisor Will Also Be Included and Mill Will Be the Most Complete of Its Kind in West.

Work has been started in this city on

Work has been started in this city on what will be the largest and most complete cereal mill in the West. It is the plant of the Albers Bron.' Milling Company and will be located on the site of the present Albers dock, on the west side of the river just north of Alneworth dock. Several months ago the company purchased additional property on the water-front in that vicinity, and it now owns 100 feet of what is considered about the finest river frontage in the city. This tract will be covered with its docks, warehouse, mill and clevators. When all is complete, it will represent a capital outlay of about \$1,000.00.

## Build Six-Story Brick.

Build Six-Story Brick.

The mill proper, construction of which will soon begin, will be of brick and six stories in height. It will be built on the railroad track on the west of the property. It will have a frontage of 199 feet on the track and will be 80 feet deep. The holler and engine-room will occupy a space 36 by 39 feet.

An important part of the plant will be a steel-frame elevator, the plans for which are now being drawn. Workmen are now employed in tearing down part of the old dock on the site of the mill and the laxing of the concrete foundation will begin in a few days. The dock is to be rebuilt, and when finished it will extend along the entire water frontage.

Mill Ready This Winter.

## Mill Ready This Winter.

All the details of the buildings have not yet been worked out, but when they are ready, work on the structures will be rushed. It is expected the mill will be ready for operation before the Winter is far advanced. The old mill of the Albers Company, a four-story brick covering nearly half a block at Front and Main streets, will be given up when the new mill is completed. The company is un-able to handle all its business at the present plant and work on the new struc-

ture will therefore be rushed.

The Albers Bres. Milling Company also has mills and docks at Seattle. Tacoms and San Francisco. The head office of the company is at Portland, and here its principal milling establishment will be located. Henry Albers is president of the company. William J. Albers is vice-president and George Albers is secretary and treasurer. Henry and William J. Albers have charge of the Portland business, and the control of the Portland business, and the president albers with the process of the proces rge Albers manages the business or

The company makes a specialty of manufacturing rolled oats and also turns out a variety of other ceresi products and mill feed.

## YOUTHFUL THIEVES CAUGHT

E. L. Biddle and Bride Arrested for Robbing Room.

Detectives Carpenter, Coleman and Price arested the most youthful pair of room thieves last night of which the Pertland Police Department has any record. The thieves are E. L. Biddle, age 19, and his wife, Isabel Biddle, who is a bride of but six months. They were caught with the proceeds of the lasts was fired at a largely attended meet-robbery of the room of Miss Viola Du-Bolise, who lives at the Oak rooming- if the indignation expressed at the gath-

Bolse, who lives at the Oak rooming-house, at Seventh and Oak streets. Her room was entered Monday night and clothing and jewelry to the value of mearly \$400 were stolen.

From a description obtained from the landady of this house the police caught Middle last night at his rooms, 296 Evereti street. The officers found the jewelry and the clothing both in Biddle's room, and in a house at East Pine street and Grand avenue, where the youthful robber had cached his loot. The police say that neither the young vonthful robber had cached his loot. The police say that neither the young fellow nor his bride have been employed. The girl says her parents live in Portiand, but refuses to reveal their identity. Biddle has never fallen into the hands of the police before. Skelton keys were found in his possession, which convinces the police that he made a practice of robbing rooms.

## SUICIDE IS MOST HORRIBLE

Blacksmith, Brooding Over Disgrace, Blows Off Head.

HILLSBORO, Or., Aug. H.-(Special.)— Jurob Schearer, a bachsior blacksmith hving about eight miles northeast of here, was found dead in his shop this afternoon at \$28 o'clock with the top of his head blown off and a shotgun resting between his legs. It is surmised he sat down last night late, set the muzzle of the gun against his head and pulled the trigger

with his toes.

Schearer had been brooding much of late over an arrest he had undergone lately, brought about by an assault made upon C. C. Arns, when he went to collect a bill. His sanity was questioned and he was examined by a commission, which found him sane. He was placed under \$1000 bonds to keep the peace.

Schearer considered this arrest as a disgrace, and had brooded over it. He is said to have told the wife of Charles Miller that he would commit suicide. He Miller that he would commit suicide. He was a native of Switzerland.

## CHINESE COOK DROWNED

Lee Toy Falls Overboard From the Bailey Gatzert and Is Lost.

Lee Toy, second cook on the steamer Bailey Gatzert, fell overboard shortly after the boat left Vancouver for Portland, about 5 o'clock last night, and was drowned. Lee was seasick and went to the sbie of the boat on the lower deck just as the steamer was passing through the Columbia River bridge. He lost his balance and with a cry lumbled into the water.

A passenger saw the accident, gave the alarm, and the boat was stopped and turned around. It cruised about for some time, playing the searchlight on the water, but the Chinaman was

BRILLIANT YOUNG ACTRESS AT BUNGALOW TONIGHT.

IDA ST. LEON.

Ida St. Leon is the charming and beautiful actress who will be seen as Polly in the delightful play, "Polly, of the Circus," at the Bungalow Theater tonight and the remainder of the week. This interesting drama is presented by Frederic Thompson, of New York Hippodrome fame, and was written by Margaret Mayo, a former Portland girl.

# **CLUB TAKES ACTION**

Steps Are Taken to Put End to Auto Accidents.

ON SPEED FIENDS

Police Patrol Is Advocated and Children Will Be Prohibited From Driving Machines on City Thoroughfares.

The first gun in the Portland Automo bile Club's war against reckiess motorists was fired at a largely attended meetering can be taken as an indication of future action, a ban will be placed on speed flends and child drivers. Drastic measures were proposed and regulations governing speed limits are to be strictly enforced.

The crusade will begin immediately and no motorist will be exempt from the stringent resolutions adopted, according to speakers last night. That the law now in force shall be respected and abided by was the sense of the meeting. abided by was the sense of the meeting, which was called at the solicitation of President Wemme, of the Automobile Chib. The recent automobile accidents within the city limits and on the suburban speedways served as an incentive for many flery addresses.

Hired and inexperienced chauffeurs, who, it is averred, are accountable for most of the recent automobile accidents, were severely criticised. Every precaution which might prevent inexcusable accidents will be resorted to, it was said.

tion which might prevent inexcusable ac-cidents will be resorted to, it was said. Constable Wagner volunteered to name a squad of deputies who will continually patrol the favorite paths of the drivers with the hope of apprehending them. In order to further this end of the crusade, automobile dealers will be asked to con-tribute the use of patrol cars.

## Care in Granting Licenses.

A resolution proposed by Vice-President Dickinson, of the Portland Automobile Club, was adopted at the meeting. The Club, was adopted at the meeting. The resolution provides for more stringent regulations before permitting public and private chauffeurs to secure licenses; absolute compliance with the city and county speed laws by all motorists, and notice to be served upon all purchasers of automobiles, private and hired chauffeurs relative to the speed limits. The members of the local organization of moforists will, with the assistance of the representatives of the law, bring about the arrest of violators of any of the ordinances regulating automobile traffic, either on business thoroughfares or country speedways.

either on business thoroughfares or country speciways.

The law, requiring chanffeurs to be at last 18 years of age, will hereafter be strictly enforced. This will, if is hoped, dispense with the child-driven cars, which daily jeopardize the lives of pedestrians. In a fluent address George W. Stapleton clearly interpreted the law and the requirements of motorists. "The local motorists are making a fair bid to have the speed laws of the city and state. ind the requirements of motorists. "The local motorists are making a fair bid to have the apeed laws of the city and state provide for a snall-like pace," he said. "If life and limb are to be jeopardized, as under the existing circumstances by inexperienced and reckless motorists, it will behoove the Legislature to reduce the present speed limits."

Will Provide for Patrol.

Various ways and means were discussed before the meeting relative to coping with the speed fiends. The more favorable of the many suggestions were embodied in a resolution proposed by George Kleiser, a member of the City Examining Board for automobile drivers.

Union Peace Meeting Tonight.

A passenger saw the accident, gave the alarm, and the boat was stopped and turned around. It cruised about for some time, playing the searchlight on the water, but the Chinaman was not seen. Lee Toy was 32 years old. Several relatives are said to be living in Chinatown.

Harris Trunk Co. for trunks and bags.

George Kleiser, a member of the City Examining Board for automobile drivers. The resolution recommended that the Portland Automobile Club ask the city officials to appoint two motorcyclists as an adjunct to the police force to pairol the speedways for the purpose of making arrests and recurring the convictions of the City Examining Board for automobile drivers. A union peace meeting Will be held this evening at the Sunnyside Congregational Church. The meeting will be addressed by Robert C. Root, of Los Angeles, Particular stress was laid upon the fact that scores of children whose ages range.

from 10 to 16 years are permitted to drive cumbersome automobiles in direct violation of the law. Steps will be taken to curb this practice. Many in-stances of recklessness on the part of owners of machines and hired chauffeurs on the crowded downtown streets were Speaking on the subject President Wemme said: "If motorists would only use a little

torse-sense in driving through the busy thoroughfares and crossing bridges fewer accidents would be recorded. It is a commonplace thing to see a driver swoop down upon a throng of people who step from the curb on or off a streetear. In from the curb on or off a streeter. In nearly every instance the motorist at the wheel continues to 'crawl' and wiggle his way through the throng, imperiling the lives of the pedestrians, when he should come to a full stop. I propose with the assistance of my fellow-mem-bers and with the help of the authori-ties to make that fellow obey the laws of the read."

Various ways of dealing with the con-victed driver were discussed. It was apparently the prevailing sentiment that the punishment now, which is invariably a small fine, is not severe enough. The hope was expressed that the court and convicting magistrates will impose heavier sentences.

## PRIMARY TO BE CHANGED

QUESTION OF CUSHMAN'S SUC-CESSOR AGITATES.

Upholders of Convention and Primary Methods Respectively in Clash-Filibustering Feared.

OLYMPIA, Wash., Aug. 11.-(Special.)-The southwest legislative delegation is split on the question of method to be adopted in the selection of candidates to fill the vacancy created by the death of Congressman Cushman. At the confer-ence in the Governor's office tonight per-sonalifies were indulged in, Shutt, of Pierce County, accusing Stayden, of Pierce, who is a congressional candidate, of being afraid to go up against a di-rect primary.
"You needn't lose any sleep over that," retorted Slayden.

"I'm not losing any sleep over your af-fairs," said Shutt.
"You did last June," said Siayden,
"when they pulled you out of a sick
bed to vote against me for Speaker."
Bishop, of Jefferson, and Erickson and Cameron, of Pierce, favored going ahead under the present law and nominating candidates by the convention method. Metcalf, Shutt and Sayre, of Pierce, wanted the primary law amended to apply to special elections, and others expressed themselves as indifferent. Before the conference ended Governor Hay interested that he would not call the tree.

fore the conference ended Governor may intimated that he would not call the special election until the Legislature had acted on the question.

It is probable a bill amending the primary law will be introduced tomorrow, and that the anti-administration forces will attempt to filibuster it to death.

Finish Hawley Suits in Portland.

## CUASTAL FREIGHT SERVICE PROPOSED

Taft to Hear of Plan to Control Transcontinental Freight Charges.

NATION TO AID NEW LINES

B. N. Baker, in Report of Panama Discrimination, Outlines Method of Fighting Exorbitant Freight Rate.

BALTIMORE, Md., Aug. 11.-Recomnendation that the Federal Government aid in establishing independent steamship lines from the Isthmus of Panama o shipping points on the Pacific and Atlantic scaboards, and so combat the present control of coast-to-coast freight rates by the transcontinental railroads are embodied in the report of Bernard N. Baker, of this city, who at the instance of President Tati has been investigating the matter of freight rates over the Panama Railroad, bearing on alleged discriminations by the Panama Railroad and Panama Steamship Company against American commerce crossing the Isthmus. The plan proposed does not contemplate that the Government price the steamship. that the Government enter the steamship

usiness. It simply provides that by and up-to-date steamers shall be estab-lished on the West Coast, connecting Scattle, Portland Sun Francisco and San Diego with Fanama, and the East Coast cting New York and New Orleans These two lines would use the Panama Railroad for trans-shipments, and Mr. Baker urges that the Government estab-

lish a flat rate across the Isthmus for lish a flat rate across the issumus for all shipments, whatever their origin. Mr. Baker believes that the mall con-tracts will be sufficient encouragement to money interests to establish these new lines of steamers. He says he has ansurances that the money will be forthcoming if the present Administration will exer-cise its rights under the postal laws, and award the mail contracts as outlined

With these steamer lines in operation Mr. Baker believes that successful com-petition with the transcontinental rall lines will be established. He proposes that the Government cancel its contracts with the proposed lines as soon as any transcontinental road shall secure an in-

## WOMAN ASSAILS MORROW (Continued From First Page.)

again Mrs. Brown turned on Morrow. "That blackmailer, that skunk-" she began, pointing at him, but got no further. The eatire committee intervened. In reply to a question, Mrs. Brown said she never heard Judge Root's name mentioned by Mr. Palmer.

Woman Goes With Spicy Retort.

"You could have found that out yesterday," she asserted. "You kept me there
two hours and a half and whipped the
life out of me."

When excused, Mrs. Brown shot a final
retort at the committee, saying: "Well,
if you don't want to hesr any more from
me about Mr. Morrow, I'll go." And she
want simplifies the foor labited has been and West Side lines, has promised to
make the union men a definite offer tomoved." me about Mr. Morrow, I'll go." And she went, stamming the door behind her. Prior to Mrs. Brown's sensational accu-sations, Mrs. Mollie Wilson, record de-fendant in the Ramsey case, and William Morrow, son of P. F. Morrow, corroborated the latter's testimony of Monday that Jordan was in a conspiracy to "fix"

the Supreme Court through the agency

The muckrake struck deep into the mire of family scandal when Don Morrow, son of P. F. Morrow, was called. Don, who is 29 years old, is Dr. Jordan's office boy and is estranged from his father. He accused his father of the grossest im-morality and indecency and declared that the elder Morrow had come to him with a proposition to sign an affidavit that he was present during a conversation parti-cipated in by Jordan. Mrs. Brown, Mrs. Wilson and others in which the parties had talked of having fixed the Supreme

Extortion Is Hinted At.

The elder Morrow, said the son, proposed to extort \$2500 out of Dr. Jordan on the threat of submitting the affidavit to the Supreme Court and thereby defeating cases in which Jordan was in terested. Don Morrow said he was neve present during such a conversation and refused to sign the affidavit.

"I told my father, Mr. Morrow, and I am ashamed of the name," he said, "that I would tell Jordan. Then he chased me arround the table with his hand on his pocket and said; "

If you do, I

will kill you."

Don Morrow said his brother, Will Morrow, also came to him and wanted him to tell Jordan that unless he paid their father \$500, they would file affidavits in the Supreme Court that would defeat Jordan's cases, and at another time wanted him to tell Jordan the elder Morrow would kill him if he did not pay over

Witness Contradicts Story.

Will Morrow afterwards empiritically denied this story and denied the truth of his brother's charges of the father's im-morality and neglect of his family. After the hearing was adjourned until

tomorrow night, the committee expressed the beilef that Mrs. Brown and Don Mor the bellef that Mrs. Brown and Don Mor-row, who came over to Olympia tonight with Dr. Jordan, had been coached on their testimony. P. P. Morrow gave out a statement in which he said he has documentary proof that Dr. Jordan is en-deavoring to allenate his son and wife from him and secure possession of their property and that he believes Don Mor-row is under the hypotic influence of Dr. Lordan and is not responsible for what Jordan and is not responsible for what

he says.
P. F. Morrow is one of the principal witnesses in the accusations of a con pleacy in the Ramsey case and for was employed to secure testimony r. Jordan, who Mrs. Wilson says

CHICAGO RAILROAD MEN CAN-NOT REACH AGREEMENT.

Union Leaders Demand More Than Promises and Say Trouble May Come Very Soon.

CHICAGO, Aug. 11 .- The streetcar sitation in this city became darker today than it has been at any other time since the union men voted to strike. The fallure of the conferences between the union leaders and the street rallway gave rise to a growing dissatisfaction among the employes.

The union officials tonight demanded something besides promises to place before their men, and declared that unless they get it soon they will not be responsi-ble for what might occur. President Mitten, of the City Railway

# **DISCOVERY OF** HYDROCARBON OIL

A discovery that will be of great value to the whole State of Oregon, for this mineral is not found elsewhere in the United States, and every man, woman and child in the State of Oregon should take an interest in this great discovery.

Almost every man, woman and child in the State of Oregon is familiar with the story of the Nehalem beeswax, so much so that we need not repeat it here, and the fact that this beeswax story has been given credit has withheld from discovery the fact that this wax is mineral wax, and indicates a large deposit or lake of hydrocar-

Colonel Kit Carson, grandson of the original Kit Carson, and an expert on all minerals, of 32 years' standing, noticed a large piece of this wax in the office window of the Nehalem Bay Land Co., at 274 Oak street, this city, about one month since. He immediately recognized its significance, and, on being shown the sand rock taken from the same place, he immediately asked to be shown over the ground where this wax and rock were found, going with the understanding that he was to go as expert for the company, in which he would be an equal holder, rather than expert this ground for wages.

Mr. J. J. Walter, vice-president of the Nehalem Bay Land Co., and Mr. Carson left on the evening train for the field that same day, and upon arriving at Nehalem Peninsula Mr. Carson was astonished at the extensive signs of hydrocarbon oil. The carboniferous sands he found in great quantities on the Nehalem Bay Land Co.'s holdings, and they immediately secured by lease the surrounding property. Mr. Carson's wide experience in other oil fields has caused him to look up the Government geological statistics touching this location, and he finds this the oldest formation along the Pacific Coast. Facts found therein favor a deposit of hydrocarbon oil. Upon his return from Nehalem, Mr. Carson extracted from the carboniferous sand rock over two ounces of the pure white hydrocarbon oil. This oil retails at all drugstores for one dollar and twenty-five cents per gallon.

The Smithsonian Institute, perhaps the most learned scientifie institution in the world, in passing upon the Nehalem wax pronounced it Ozokerite or mineral wax. Our own State Chemist, after a thorough analysis, gives the same results, and Mr. Carson finds that chemicals that will dissolve beeswax have no effect on Nehalem wax.

The Necarney City Hydrocarbon Oil Co., incorporated under our state laws, capitalized for but \$50,000, has been organized to develop this discovery. They have placed on the market just enough of the stock to assist in developing the property.

They have purchased a first-class drilling outfit and all necessary machinery and tools, which will be shipped to the ground next week, and drilling is to commence at once.

The par value of the stock is \$1 per share, and, with this small capitalization, when the oil is secured, this stock will be worth anywhere from \$500 to \$1000 per share.

The company pays no salary to any of its officers, and will not do so until results warrant same. A \$100 investment in this stock may make the investor an independent fortune.

The office of the company is at 274 Oak street, ground floor of the Board of Trade building, where they will be glad to furnish any information, and show the wax, carboniferous sand rock and the hydrocarbon oil extracted therefrom.
