

TWOHYS HAVE NOT ABANDONED WORK

Grading Crews Busy at Points Where Court Order Does Not Apply.

SUPPLIES ARE RUSHED IN

Engineer Bandon Gives Figures to Show Amount of Work Already Accomplished by Harrison Company.

BY GEORGE PALMER PUTNAM

GRASS VALLEY, Aug. 16.—(Special.)—At the operations of the Twohys forces are at present somewhat curtailed on the upper reaches of the river on account of the injunction in and about Grass Valley, there is every indication that they are conducting a campaign of action elsewhere.

Grass Valley itself is the hub of the Harrison work, and there are situated the offices and warehouses of the Twohys company. In addition to the storage places for supplies and equipment the headquarters hospital for Twohys men is situated at the Valley. This is to be the center of a system of hospitals at the various camps. A fact of interest is that both the offices and warehouses have been rented for a period of one year.

Brandon Gives Out Figures.

Apparently the Deschutes people feel that the Porter Bros. have claimed something more than their fair share of publicity along the lines of statistic publishing, and are inclined to put forth some facts and figures of their own. To the Oregonian representative, H. A. Brandon, the engineer in charge on the field, gave assurance that all the maps and data pertaining to the construction work were open for examination and that the fuller the publicity accorded the methods being followed by the company, the more would the public understand the extent of their operations.

"Here are a few statistics which we would be interested in having published," said Mr. Brandon, "for the purpose of comparison with statements that recently have appeared."

He then went on to enumerate some of the items of supply and equipment recently purchased. Seventy-three full cars have come in to Moro, Grass Valley and Shanks during the month of July, loaded with construction outfits, horses, mules, groceries, oats and hay, flour, sugar, explosives and milk, as well as many brooms or partly loaded with freight bills of the various shipments enumerated were exhibited.

Complete Road Within Year.

The road, said Judge Twohy, will probably be completed in a year, and already 107 miles from the northern terminus has been let out to contractors. The engineer dealt particularly upon the fact that some 500 feet of track has been laid on the permanent roadbed, extending southwesterly from a point on the O. R. & N. east of Deschutes towards the canyon. The slight detour involved in the lower stretch of river that the body of the Twohys forces are engaged, no right of way conflicts there existing and it is claimed that more than 300 men are at work on the central 15 miles. The Deschutes people say some 1200 men are employed on the entire line.

The plans for the two big bridges across Willow Creek, near Madras, and at Trout Creek, were shown, and the details gone over. Both are steel viaduct structures, the Willow Creek bridge, the highest pier is 24 feet, the largest encountered on the entire survey, costing in the neighborhood of \$75,000.

Interior May Get Two Roads.

As far as appearances are concerned and the evidence afforded by the supply purchasing and headquarters activity, there seems every reason to believe that the claims advanced that the work is progressing in good faith and with the intention of permanent construction are founded in fact. The freight railroads, when unencumbered by legal restriction, are exhibiting an amount of determined activity which leaves small room for any lessening doubt concerning actual railroads being the outcome.

OREGON TRUNK CHANGES LINE

Grade Altered at Great Expense in Order to Pass Over Dam.

MORO, Or., Aug. 16.—(Special.)—The fact has just come to light that the proposed grade of the Oregon Trunk Railway has been shifted from the original survey for some dozen miles, so that the road may pass over the proposed Government irrigation dam at mile 11.

It was at first intended that the road cross from the west to the east side of the canyon at almost the very point to be occupied by the dam. It has now become necessary to abandon this plan and to lead the grade around the cliffs of the canyon walls above the 100-foot dam, keeping it on the west bank until the river's level is again reached.

NOW FACES NEW CHARGE

Two Indictments of Grand Larceny Returned Against Persch.

NEW TRAIN DE LUXE

The 800-Spokane-Portland Train de Luxe is the first train between Portland and St. Paul. Electric lighted, wide vestibuled, buffet-library-compartment-observation cars. The best of service.

the largest companies on this harbor, is the plaintiff and Wallace Stuart, president and one of the directors of the company and Representative in the Legislature from this county, is the defendant, together with Mrs. Lizzie Kindred, who is also one of the directors. About one year ago C. F. Gage, of Helena, Mont., president and principal stockholder in the C. F. Gage Oyster Company, died suddenly in this city. The Gage company's oyster lands are immediately adjoining the Tokeland company's, and the Tokeland company wished to purchase them as a matter of protection. With this object in view a special meeting of the directors was called and President Stuart was authorized to purchase the Gage holdings in the name and for the use of the Tokeland Oyster Company. Mr. Stuart accepted the commission and purchased the land, about 200 acres, but had the deed made to himself and Mrs. Lizzie Kindred. The Tokeland company now sues to compel Mr. Stuart to abide by his instructions. The lands and beds are estimated to be worth \$20,000. Mr. Stuart and Mrs. Kindred paid \$8000 for the property.

TAKING CAUSE OF ROW

WILL HE PLAY GOLF OR VISIT SEATTLE FAIR?

Exposition Directors Insist Set Program for President's Visit Shall Be Altered.

SEATTLE, Wash., Aug. 16.—(Special.)—Small William Howard Taft, President of the United States and also some golf player, mingle with a few ultra-elect in a nice quiet game of cow-nastur on a golf course at the Golf and Country Club grounds, or shall he go out to the fair and foregather with the common people while in Seattle? That is the question that has disrupted the board of directors of the A-Y-P Exposition.

The programme for President William H. Taft's visit to the Alaska-Yukon-Pacific Exposition on September 30 and October 1, prepared by Chairman Josiah Collins, of the department of ceremonies, and accepted by Secretary Carpenter for the President, was almost entirely repudiated today by President Chibber, Director-General Nadeau, and Director of Exploitation Wood.

The Collins programme called for but one public appearance of the President at the exposition on the "afternoon of September 30." In the evening he is scheduled to attend an exclusive banquet at the New York State building and on Friday, October 1, Mr. Collins planned to have the President spend the entire day at the Seattle Golf and Country Club to play golf and take luncheon with a few select guests.

The exposition officials declare President Taft is not coming to Seattle to pay an exclusive visit to a few society folk but that he is coming to see the exposition and to meet the people. Mr. Collins is out of the city and whether he will maintain his prerogative of fixing the programme as he was authorized to do by the committee of ceremonies is not known.

X-RAYS, LEPROSY CURE

PHILIPPINE QUARANTINE OFFICER DISCOVERS.

Earlier Stages of Disease Susceptible to New Treatment—Lepers Are on Decrease.

WASHINGTON, Aug. 16.—The X-ray as a cure for some cases of leprosy has been demonstrated by the American health authorities in the Philippines, according to Dr. Victor D. Heizer, quarantine officer in the islands. Dr. Heizer, in a report to Surgeon-General Wyman, of the Public Health and Marine Hospital service, says the X-ray is suitable only for specially selected cases, and is valuable apparently only in the earlier stages. San Lazro Hospital, at Manila, is the first institution in the world to use the X-ray for leprosy treatment.

Official figures show that on March 31, 1908, there were 246 lepers in the Philippines, segregation having reduced by more than 1000 the number of cases during the last two years. At the beginning of the American occupation, 11 years ago, there were nearly 6000 lepers.

Americans perfected the establishment for lepers on the island of Cullen in 1906. It is estimated that under the Spanish regime 700 new cases developed every year. At present the number of new cases averages 300 annually.

GIVE DIAZ PERMISSION

MEXICAN CONGRESS WILL LET HIM MEET TAFT.

He Will Cross Boundary to El Paso and Taft Will Go to Ciudad Juarez.

MEXICO, CITY, Aug. 16.—The first official admission that President Diaz will meet President Taft next October was made today by Minister of Foreign Affairs Martel, who stated that all details had been arranged granting permission to President Diaz to leave Mexico. The Mexican Congress convenes September 25. Immediately after President Diaz has read his annual message he will ask the necessary permission to visit El Paso. The Minister said there was little doubt that this would be granted.

President Diaz will arrive from Mexico City at Ciudad Juarez about the same time that President Taft reaches El Paso. He then will cross the line and meet President Taft in El Paso.

An hour later Mr. Taft will return the visit at Ciudad Juarez on the Mexican side.

EUGENE HAS COSTLY FIRE

Blaze Found in Store Recently Owned by Erakes of Portland.

EUGENE, Or., Aug. 16.—(Special.)—A fire in the new concrete Cherry building, corner of Sixth and Willamette streets, at an early hour this morning did considerable damage to the building and to the stock of ladies' furnishing goods owned, until recently, by the Erakes Company, of Portland. The cause of the fire is a mystery. The underwriters have not arrived yet to make an investigation. Damage to the building will perhaps amount to \$500. Damage to the stock, valued at \$15,000, will also be considerable.

SAN FRANCISCO TO HAVE NOT PRIMARY

First Municipal Campaign Under Direct Law Will Draw Heavy Vote.

MANY WOULD-BE MAYORS

Republicans Will Choose Among Five, Democrats Among Three, Labor Men Between Two and Heney Is in Fight.

LOS ANGELES

SAN FRANCISCO, Aug. 16.—This city will hold tomorrow its first primary election under the provisions of the new direct primary law. Although the registration has been short, being the largest in the history of primary elections here and second only to one general election, slightly over 74,000 electors have registered. It is estimated that at least two-thirds of these will appear at the polls.

A majority of the registered voters have signified their adherence to the Republican party, with the Democrats second and the Union Labor party third. Over 15,000 voters refused to give their party affiliations.

Many Candidates for Mayor.

While there are five candidates for the Republican Mayorality nomination, only three are making an active campaign. Of these Byron Maury, is the candidate of the Independent, Republican clubs and William Crocker, nominated by the business men's committee of 25, is said to have the support of the regular Republican organization, although part of the county committee is supporting Maury. P. H. Countryman is seeking the Republican nomination without any regular body back of him.

The three Democratic candidates for Mayor are Dr. T. W. B. Leland, supported by the regular organization; Ralph McLean, backed by the anti-organization forces, and Edward Rock, running independently.

The Union Labor candidates are P. H. McCarthy, president of the State Building Trades Council, and P. J. Sullivan, brother-in-law of ex-Mayor James D. Phelan.

Honey Runs Against Fickert.

The only active candidate for District Attorney is Charles M. Fickert, who will appear on the ticket of the regular Republican organization and with instructions to have his name written on the ballot of the Union Labor regular organization ticket. It is conceded that the name of Francis J. Honey will be generally written on the ballots of members of the Independent Democratic and Republican clubs.

DOCKWORKERS STAY OUT

Fail to Resume Work at Fort William—Many Go to Farms.

FORT WILLIAM, Ont., Aug. 16.—When the Canadian Pacific dock sheds opened today only a few strikers offered themselves for employment, and the force was not more than 300 men. The explanation of the failure of the men to keep their promise to return to work was that they did not understand conditions.

SWEDISH STRIKE DWINDLES

Effort to Get Harvest Hands to Join Is Failure.

STOCKHOLM, Aug. 16.—The police today prohibited a great demonstration arranged by the strikers. The attempt to force the agricultural workers to strike and to refuse to harvest the crop has proved a failure.

Hotel proprietors are appealing to the military governor of the city for permission to supply liquors to guests who take substantial meals in their places, on the ground that the prohibition against such service is seriously affecting their tourist trade.

FREIGHTHANDLERS ASK MORE

St. Paul Employees Threaten Walkout—500 Involved.

ST. PAUL, Aug. 16.—A walkout of the freighthandlers in the St. Paul freight depot, estimated at 500 men, is impending. The strike was scheduled to take place today, but was postponed. The men demand an increase of 10 per cent in pay and certain changes in their working hours.

ATHLETIC CLUB IS SUED

Damages Asked for Injuries in Seattle Armory Accident.

SEATTLE, Aug. 16.—Suit was filed today in the Superior Court against the Seattle Athletic Club by Mary O'Neil, as guardian for Edward O'Neil, asking \$15,000 damages for injuries received by the boy on the night of May 6, when the falling of the gallery at the National Guard Armory gave way, precipitating a crowd of spectators, who were witnessing an indoor track meet held by the club, to the main floor 11 feet below.

This is the first suit that has been brought against the Athletic Club as a result of the accident in which 60 people were injured.

Bad BLOOD

"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

Clarence R. Griffin, Sheridan, Ind. Pleasant, Palatable, Potent, Taste Good, Do Good. Never Sickens, Weakens or Grips. 10c, 25c, 50c. Never sold in bulk. The green box tablet stamped C. C. C. Guaranteed to cure or your money back.

Shoe Bargains FOR MEN AND WOMEN We Have Bought Stock, Lease and Fixtures of Crawford Shoe Store 270 Washington And are now sacrificing the entire stock at less than cost of production. IT WON'T LAST LONG DON'T MISS IT This sale is unusual in many ways, but particularly for the reason that the regular prices of all "CRAWFORD" Shoes are stamped on them before they leave the factory. The "Crawford" stock includes all of the newest designs in low and high shoes for men and women—all of the popular leathers—all of the inimitable shapes which have made "Crawfords" famous as the shoes with "The Custom Look."

IGA REPORTS PROGRESS JEWISH COLONIZATION DOING WELL AND PROSPERING. Annual Statement Shows That All Branch Settlements Are Growing Rapidly. GAMBRINUS The Bottled Beer of Quality The beer that makes, but never loses friends. "GAMBRINUS SELECT" always the same, always in demand, always to be had in first-class places.
