BRIDGE DELAYS TO END

COUNTY AND PORT OF PORTLAND TO AID MAYOR.

Morning and Evening Schedule for Opening Draws Set to Bar Holdups.

Mayor Simon yesterday appeared before the special session of the Port of Portland and secured the co-operation of that organization regarding the regulation of draws on the bridges, and immediately went to County Judge Webster, who also obtained his assistance. He will next seek the help of the United States Engineer, and fully expects to have the matter in such condition soon as to alleviate holding-up of crowds during the morning and evening rush hours.

Hours agreed upon by the Mayor, the Port of Portland and Judge Webster, it is believed, will inconvenience none of the transportation companies. It is proposed to keep the draws closed from 7:15 o'clock to 7:45 o'clock in the morning, then to open them for 15 minutes for any boats wishing to pass through, after which the draws will again be kept closed until 7:45 o'clock. At night it is thought the draws will be closed from 5:30 to 6:30 o'clock. The schedule will make it possible for thousands of workmen and women to reach their places of business on time without the present annoyance of waiting for open draws, and to return home without this trouble.

Mayor Simon expressed great satisfaction at the result of his efforts, after he had appeared before the Port of Portland and interviewed Judge Webster. The latter and the members of the Port of Portland are greatly interested in the subject, and Judge Webster assured Mayor Simon that he will assist him in every possible manner in bettering conditions. "I have no doubt at all," said Mayor Simon, "that the draws will be regulated in a manner that will relieve the many thousands of working people and others who have to cross the river several times daily will be relieved of the present great inconvenience of being held up for every little boat that passes up or down the stream. I feel much pleased with the hearty manner in which the members of the Port of Portland and Judge Webster entered into co-operation, and feel certain we will also have the assistance of the Federal authorities in the effort to make conditions better in this respect."
